As "Racy" Article.

The pony race yesterday afternoon created a great deal of interest, and betting ran high. The purse was \$25, and the entries were for ponies not over fourteen hands, one inch.

The start was first-class as the rubber gate was used, and the way the horses got over the ground showed them to be in first-class condition and but little short of racers.

Cricket won the race, making the three-eighths mile in forty seconds, with

Little Pete second, Kitty third and Bald Eagle fourth.

AT THE GROUNDS TODAY.

Today's attendance at the grounds was the very best yet, and a large number of ladies were present to enjoy the races, which were especially good.

The first race of the afternoon was the gentlemen's roadster and a great deal of interest was manifested. The entries were: John L. by J. M. Roth, Barney by M. Manning, Alloma by M. E. Welsh, John Day by J. P. McInerney. In the first heat Barney came under the wire first, John Day second, John L. third and Alloma fourth. Time 3:08.

In the second heat John Day came in first, Barney, second, Alloma third and John L. Smith, fourth. Time 3:09.

The third and last heat was won by Barney, giving him the race, and John Day second money. Time, 3:02.

The second race was watched closely as the horses were very evenly matched. It was a five-eighths mile dash, with four entries. Alicia, who was selling in the field, won, with Bozeman second, Little T. G. third, and None Such fourth. A foul was claimed by the jockey of Bozeman, and was sustained.

Wasting in Children

can be overcome in almost all cases by the use of Scott's Emulsion of Cod-Liver Oil and the Hypophosphites of Lime and Soda. While it is a scientific fact that cod-liver oil is the most digestible oil in existence, in

SCOTT'S EMULSION

it is not only palatable, but it is already digested and made ready for immediate absorption by the system. It is also combined with the hypophosphites, which supply a food not only for the tissues of the body, but for the bones and nerves, and will build up the child when its ordinary food does not supply proper nourishment.

Be sure you get SCOTT'S Emulsion. See that the man and fish are on the wrapper. All druggists; 50c. and \$1.00. SCOTT & BOWNE, Chemists, New York.

HOW SHE FIXED HIM.

One Way of Disposing of an Obnoxious Suitor.
He was a theatric lover, and she didn't like his style a little bit, says the New York Sun.

He was constant in his devotion, however, and that made matters worse. She had tried gentle means to get rid of him, but he had disregarded them with painful persistency.

In this moment of her desperation he felt it incumbent upon him to propose to her as men under similar circumstances so often do.

Which they wouldn't if they had any sense at all.

"Dear one," he exclaimed, hurling himself tragically at her feet, "I love you. My life is yours. Will you take it?"

She did not look like a murderess. "Mr. Singleton," she responded, with calm determination, "I will."

He gazed at her rapturously. "Don't do that," she begged, drawing back from him as if in horror. "I have taken your life, as you requested me to do, and you are henceforth to all intents and purposes dead."

He seemed dazed.

"I do not, Mr. Singleton," she continued, turning aside, "desire to have a dead person in the house, and if you do not go away at once I shall ring for an ambulance and have you removed to the morgue."

Then the dreadful situation in which his own precipitate folly had placed him was revealed, and he removed himself with promptness and dispatch.

ACRES OF PINK POND LILIES.

Floral Display That Delights Connecticut Railway Travelers.

One of the most beautiful floral exhibits in New England is upon "Tadpole," a famous pond lily pond on the line of the Norwich & Worcester railroad, one mile above Jewett City, Conn. The surface of the pond is now a mass of pink and white pond lilies, and their fragrance is carried for miles by the summer winds, says the New York Sun.

No one knows how long this remarkable garden of pond lilies has been in existence, but for many years Tadpole's lilies have been sought by picnic parties from near-by counties in this state, Massachusetts and Rhode Island. Cartloads of the flowers are carried away, but there seems to be no diminution in the supply.

The railroad comes suddenly upon the pond, which it divides in halves, and in an instant the passengers detect the fragrance of the lilies and throw up the windows, the better to view the beautiful and unusual sight. In one section of Tadpole there is a large tract of lilies the blossoms of which are of so rich a pink as to be almost rose colored, it is said. They are of exceedingly rare beauty and are much sought after by collectors.

Tadpole's unromantic name comes from its being a favorite place for young frogs. It has been known by this title for years, but an effort is now making to change its name to the still more unromantic one of Clayville pond.
