CHEAP LABOR PROVES DEAR.

Cheap labor is seldom economical labor. A few years ago, when the war between Japan and China brought the victorious Japanese to the center of the world's stage, many an airy prediction was heard about the wonderful invasion these clever little Orientals were going to make in the markets of the world.

It was also said that the Japanese were so cunning at imitation that the American markets would be filled with cheap watches made in the quaint land of the mikado. Now comes Consul General Govey, formerly of this state, and present consul general at Yokohama, with a report to the state department that watch-making in Japan has proved a failure.

Ten American mechanics would receive \$30 per day, and the eighty Japanese would receive \$20 per day. But it costs more to provide working quarters for eighty men than for ten, and the item of superintendence is also greater with the larger number.

The American workman earns his superior wages. His extraordinary energy counts. He can beat cheap labor at every turn in the road.—Spokesman Review.

If the report be true that the Czar suggests a revision of the Dreyfus case, he is a better friend of France than is President Faure. It is understood that the president was the one obstacle which prevented the Brisson Cabinet from having the case reopened several weeks ago.

The government's determination to send a few war-ships to Havana harbor is wise. The presence of two or three of Sampson's and Schley's fighting vessels in that quarter will quicken the Spaniards' movements toward evacuation. December 1st, the day set apart for the complete American occupation of Cuba, is about a month away, and there is danger that the Spaniards will forget that that day of reckoning is so near unless they are reminded of it early.

Realizing that they were about to be confronted by an unusually severe winter, the Indians of the Northwest country have availed themselves of the privilege of going to jail for the ensuing six months.

Admiral Sampson is vindicated and Admiral Schley has redeemed

himself. The public is now waiting to see how Gen. Shafter will dodge the harpoon aimed at him by Gen. Greely.

A charge of veridancy would hardly lie against young Hobson. At the same time it must be admitted that he is attracting considerable attention at Santiago by blowing out the gas.
