## AMERICAN REPLY NOT YET READY

Session of the Peace Commission Postponed.

## SENSATIONAL RUMORS RIFE

Postponed at the Request of the Americans to Allow Time For Translation of the American Reply to the Spanish Philippine Proposition.

PARIS, Nov. 8.—The Spanish-American peace commissioners have notified the minister for foreign affairs, Del Casse, that the joint session that was to have taken place today will not be held, and they will notify the minister when they have determined upon the date of another meeting.

Later a semi-official note was issued saying the commissioners had informed the French minister of foreign affairs that their conferences were suspended.

PARIS, Nov. 8.—Inquiry developed the fact that the failure to hold a meeting of the commissioners was only due to Americans asking for a postponement of the joint session until tomorrow; in order to allow time for translation of the reply of the United States to the latest proposition regarding the Philippine islands, which was received here this morning.

## FEARS FOREIGN INTERVENTION.

El Liberal Advises Spain to Expedite Negotiations.

NEW YORK, Nov. 8.—A dispatch to the Herald from Madrid says: The Herald's leading article says the Spanish government should conclude the negotiations for peace with the utmost rapidity to avoid Germany, Russia or some other country mixing in the question, which could mean but fresh disaster to Spain. The article has created a great sensation here.

Premier Sagasta said it was by no means certain that Spain proposes sending a memorandum to the powers on the subject of the Paris peace commission.

## HEART DISEASE

SOME FACTS REGARDING THE RAPID INCREASE OF HEART TROUBLES.

Do Not Be Alarmed, But Look For the Cause.

Heart troubles, at least among Americans, are certainly increasing and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Real, organic heart disease is incurable; but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by branches of the same great nerves, the Sympathetic and Pneumogastric.

In another way, also the heart is affected by that form of digestion, which causes gas and fermentation from half digested food; there is a feeling of heaviness and oppression in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action; hence arises palpitation and short breath.

Poor digestion also poisons the blood,

makes it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure a prompt assimilation of food. This can best be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that the regular, persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble except cancer of the stomach.

Full sized package of the tablets sold by druggists at 50 cents.

Little book on stomach troubles mailed free. Address Stuart Co. Marcell, Michigan.

## SAMOA MAY HAVE TROUBLE

Cruiser Philadelphia Ordered There to Protect American Interests—Yorktown May Follow.

SAN FRANCISCO, Nov. 8.—The cruiser Philadelphia has been ordered to Samoa, and will leave within a few days. The Yorktown will probably follow her. It is feared that the forthcoming election of a new king may result in a revolution, and it is desirable to have war vessels there to protect American interests.

The United States training-ship Adams will, on or about December 1st, start on a seven months' cruise. By that date she will have received her batteries at Mare island. She will proceed from here to Magdalena bay, where she will spend a month or so. She will then go to Honolulu and Oriental ports.

WASHINGTON, Nov. 8.—Inquiry at the navy department fails to confirm the report from San Francisco that the cruiser Philadelphia has been ordered to Samoa.

## THE CAPITOL EXPLOSION

Damage Was Not So Great as Was at First Expected.

WASHINGTON, Nov. 8.—Architect Wood today expressed the opinion that the damage to the capitol building could be repaired for \$20,000.

The only damage that cannot be made good was done in the floor of the supreme court, in the basement. There were stored all the official records and original copies of opinions, from the foundation of the government. Comparatively few of the papers were absolutely destroyed, but those which suffered this fate were among the most valuable in the room. They included original opinions of the court in early days of the republic, and among them were manuscripts prepared in the handwriting of jurists in the days of Washington, Jefferson and Adams.

## ALGER MAY TRY TO SUPPRESS IT

General Miles Report on the Late War is Filed.

## PLAIN STATEMENTS ARE MADE

There is No Mincing of Words and Facts Regarding the Conduct of the War are Stated as Plainly as Possible.

NEW YORK, Nov. 8.—A special to the Herald from Washington says:

Major-General Nelson A. Miles has completed and submitted to the war department his report covering the entire period of the hostilities between the United States and Spain.

It could not be learned at the war department whether the report in its entirety will be given out for publication in the near future or at all. It is said that certain portions of the report may be withheld. The sum and substance of the reason for withholding it, it is said, is the fact that the report is said to deal squarely with matters that certain officials would much rather keep in the in the background.

Friends of General Miles, who claim to be cognizant with the contents of the report, say that it is exhaustive in dealing with the minutest details, and many things which have not been clear to the general public as to the conduct of the war are fully and comprehensively explained.

## THEY ROBBED A POSTOFFICE

Two Masked Men Made a Good Haul at Arago.

MARSHFIELD, Or., Nov. 7.—Last night at about 8 o'clock two masked robbers entered the postoffice at Arago. The office is in the residence of W. H. Schroeder, the postmaster. Mr. Schroeder was in the upper part of the house when the men entered, but a man, Peter Crow, was in the office. The robbers ordered him outside. They tied his feet and hands and fastened him securely to a milk cart, in such a manner that his face was down and he was unable to turn. They then returned to the house and forced Mr. Schroeder to come down stairs into the office, and at the point of revolvers compelled him to open the safe. The helped themselves to the contents. There was about \$1500 taken, \$1300 belonging to the Arago creamery and \$200 being postal funds. Postmaster Schroeder is a cripple and was unable to offer resistance. Sheriff Gage and a posse found the track of the robbers early this morning and followed them until dark. The country is well guarded tonight, and the sheriff thinks they cannot possibly make their escape.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an in-
