

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe or nauseate. In order to get its beneficial effects, please remember the name of the Company—

EDUCATIONAL MEETING.

At Franklin School House, in Hood River Valley—Well Attended.

An interesting and instructive educational meeting was held at the Franklin school house, west of Hood River, Saturday, Nov. 19th, Superintendent C. L. Gilbert presiding. A number of local teachers, and a great many patrons and pupils from the home and surrounding districts, were in attendance. Especially noticeable was the large number of Civil War veterans present, their presence being a living monument to the patriotism which the teachers are striving so hard to instill into the minds of the young.

The meeting was opened by a stirring song of welcome by some of Mr. Neff's larger pupils.

"Should we have music in our schools?" was an earnest plea for more and better teaching of music in our schools, by Miss Anna Smith. An open discussion followed by Messrs. Neff, Howe and Alard.

H. L. Howe gave an interesting talk upon "Plants and Children." It was shown wherein, with some of the most common flowers, plants and grains some excellent lessons may be deducted. That Oregon, a state, so full of the growth of plant life, does not put more stress upon the study of Botany is remarkably strange.

"Civil War," by R. R. Allard, brought

forth a topical outline for the study of the same, the principal feature being the strong emphasis placed upon the necessity of teaching the causes which led to this great internal strife, and the results finally obtained.

"Reading in Primary Grades" by Miss Eliza Stevens, developed some good points along this line, and made a little more clear some of the foggy points so many teachers are struggling to overcome in primary reading work.

The meeting then adjourned for an elegant luncheon which the good ladies of the district had so thoughtfully provided.

After luncheon Miss Nettie Hart gave a stirring patriotic recitation.

"Mental Arithmetic," by Miss Hester Howe was an unusually strong paper for one so young, but when we take into consideration that Miss Howe made 100 per cent. in the last teachers' examination in this particular branch we need not wonder. She realizes the early presentation of this study to students, and the necessity of constant, ceaseless drill.

Miss Mella White rendered a pathetic recitation entitled, "The Second Trial." The audience had a hard struggle to keep back the tears, so well was the piece rendered.

M. P. Isenberg made an enthusiastic and patriotic little speech upon "The Relation of the Flag to the School."

The meeting then adjourned and the audience passed out to witness the flag raising by the G. A. R. and the rousing salute given by the school children.

Says: "The fool saith, 'Put all thy eggs in different baskets,' which means, scatter your money and your attention; but the wise man saith: 'Put all your eggs in one basket, and watch the basket.'"

We have only one basket, and we are watching it in optics. Having made a thorough study of the subject, graduating from three of the best colleges, we are enabled to give you a scientific examination. It doesn't matter whether you buy a \$10 glass or a \$1 glass, or and glasses at all, you get an examination, and a thorough one at that, which alone is worth your time to know your eyes. I fit all cases of eyes, and am permanently located in The Dalles. I am no traveling fake, and best of all I guarantee all work in optics to give you entire satisfaction.

Yours to serve,
Prof. P. G. DAUT, the optician.

War Against Oregon Prunes.

SAN JOSE, Cal., Nov. 18—The Jan Jose Grange is making a determined fight against the marketing of Oregon prunes in San Jose. Lately, it is charged, many Oregon prunes have been sold here, and sent East as Santa Clara county prunes. While it is conceded that this year the Oregon prune crop was larger than the local crop, it is added that the prunes are inferior in flavor, and that they lack sugar. As a result the local growers are making war on them. It is now said that the Santa Clara county dealers, or a majority of them, will refuse to handle Oregon prunes in the future.

A Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by Blakeley & Houghton.

AMERICAN SILVER TRUSS.
Is Used by Many
Leading institutions throughout the United States and Canada, and have been adopted by Guy's and Westminster Hospitals, London, England. In this Truss the principle hitherto so greatly desired has at last been achieved, that of firmly and constantly holding the rupture with a gentle hand-like pressure. It does not pass around the hip like other trusses, but over the hips, the silver wire lying in the hollow of side, thereby allowing the free movement of the hips and limbs, allowing the wearer to stride out freely, and doing away with the fear and dread that something will go wrong that usually attends the wearing of other trusses. Its lightness is featherweight in comparison with other trusses. It is so light the wearer scarcely knows he has anything on, and this is a great comfort, enabling the wearer to forget his ailments. It can be altered by the wearer to the shape of the body, not being made of hardened steel, and can, with a little judicious and careful bending, be made stronger or weaker in pressure, as desired.
