

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

GRAND JURY REPORT.

Doings of the Jury and Recommendations by Them.

"We, the grand jury duly impaneled for the November, 1898, term of the circuit court, beg to herewith submit our final report as follows:

We have been in session nine days and have inquired into all crimes committed or triable in Wasco county, so far as they have come to our knowledge, and as a result of our inquiries have returned into court eleven true bills and two not true bills, as well as having made inquiry into several cases that the evidence did not warrant reporting.

We have visited the county poor farm and the offices of the sheriff, county clerk and treasurer. In our examinations we were extended every courtesy, and our examinations was rendered easy by the respective officials.

We found the poor farm well conducted and managed, the comfort of the inmates being looked after well. We would recommend that a warmer quality of underclothing be furnished the inmates than is now provided for their use, which is insufficient to afford adequate protection. Their quarters are comfortably arranged, but were not well warmed at the time of our visit. Some of the old men find it a hardship to be deprived of tobacco, and, to the end that it will make the last days of these poor unfortunates a little easier, we would recommend that a supply of tobacco be provided for them.

We found the county jail well kept and the comfort of the inmates subserved as well as the conveniences will permit. We would recommend that the hammocks and bunks now in be arranged and fixed so that they will furnish more comfortable sleeping facilities for the inmates.

We would recommend that larger, more convenient, and more suitable water closets be provided at the court house, we having found the present arrangements to be entirely inadequate. We would recommend that a ladies' toilet be added.

We found the county clerk's office well kept, the books and records in as good condition as the conveniences of the office will permit. The vault which contains the files and records is not well arranged for the preservation of the records. We would recommend that the vault furniture be placed in the vault as soon as practicable, and that a door or shutter be provided for the vault

window that will be a sufficient protection to the contents of the vault. The present shutter is entirely inadequate to furnish the required protection.

We commend the straightforward and businesslike manner in which Hon. A. A. Jayne has conducted his business, and the pains he has taken to enable this grand jury to expedite the disposal of its business.

Having disposed of all the business before us and having no further business to transact, we respectfully ask to be discharged. CHAS. FRALEY, Foreman. Dated at The Dalles, Nov. 22, 1898.

Says: "The fool saith, 'Put all thy eggs in different baskets'; which means, scatter your money and your attention; but the wise man saith: 'Put all your eggs in one basket, and watch the basket.'"

We have only one basket, and we are watching it in optics. Having made a thorough study of the subject, graduating from three of the best colleges, we are enabled to give you a scientific examination. It doesn't matter whether you buy a \$10 glass or a \$1 glass, or and glasses at all, you get an examination, and a thorough one at that, which alone is worth your time to know your eyes. I fit all cases of eyes, and am permanently located in The Dalles. I am no traveling fake, and best of all I guarantee all work in optics to give you entire satisfaction. Yours to serve,

PROF. P. G. DAUT, the optician. Two doors west of Keller's bakery, The Dalles, Oregon.

A Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. Snow Storm in Colorado.

DENVER, Nov. 20.—A snow storm, covering practically the whole state, has raged here since noon today, accompanied by a heavy fall of temperature. Shortly before noon the mercury stood sixty-six degrees above, and at 6 o'clock it had fallen twelve degrees and was still falling. The snowfall is not sufficient to interfere with railway traffic.

AMERICAN SILVER TRUSS.

LIGHT, COOL, Easy to Wear. No pressure on Hips or Back. No understraps. Never moves.

Retains Severest Hernia with Comfort.

It can be altered by the wearer to the shape of the body, not being made of hardened steel, and can, with a little judicious and careful bending, be made stronger or weaker in pressure, as desired.

Is Used by Many

Leading institutions throughout the United States and Canada, and have been adopted by Guy's and Westminster Hospitals, London, England. In this Truss the principle hitherto so greatly desired has at last been achieved, that of firmly and constantly holding the rupture with a gentle hand-like pressure.

It does not pass around the hip like other trusses, but over the hips, the silver wire lying in the hollow of side, thereby allowing the free movement of the hips and limbs, allowing the wearer to stride out freely, and doing away with the fear and dread that something will go wrong that usually attends the wearing of other trusses.

Its lightness is featherweight in comparison with other trusses. It is so light the wearer scarcely knows he has anything on, and this is a great comfort, enabling the wearer to forget his ailments.
