

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

The Grand Valley on the Colorado Midland Railway.

Immigrants from all sections of the East are attracted yearly by the splendid crops and the great promise of the fruit lands of the Grand Valley, the garden spot of the state.

Here a broad river sweeps past the prosperous fruit orchards and the growth of green things has changed the desert until Grand Junction and vicinity resemble the beautiful Piedmont Valley of the East. Already the valley is populated with industries, enterprising farmers and fruit growers, but there is plenty of room for more. The Grand valley extends from Grand Junction, the largest town, fifteen miles to the east, twenty miles south, twenty-five miles west and ten miles north, and throughout its entire length of forty miles from east to west in the state. The annual fruit crop is 1000 carloads, estimated as worth \$400,000. In addition to the fruit industry, sugar beets, wheat, oats, barley, alfalfa, potatoes and tomatoes are raised by many settlers. The principal towns in this section are Grand Junction, De Beque, Fruita, Palisades and Rifle, all on the line of the Colorado Midland Railroad.

Two Pointed Questions Answered.

What is the use of making a better article than your competitor if you can not get a better price for it?
Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.
How can you get the public to know your make is the best?
If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.
This explains the large sale on Cham-

berlain's Cough remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by Blakeley & Houghton.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c.

AMERICAN SILVER TRUSS.

Is Used by Many

Leading Institutions throughout the United States and Canada, and have been adopted by Guy's and Westminster Hospitals, London, England. In this Truss the principle hitherto so greatly desired has at last been achieved, that of firmly and constantly holding the rupture with a gentle hand-like pressure.

It does not pass around the hip like other trusses, but over the hips, the silver wire lying in the hollow of side, thereby allowing the free movement of the hips and limbs, allowing the wearer to stride out freely, and doing away with the fear and dread that something will go wrong that usually attends the wearing of other trusses.

Its lightness is featherweight in comparison with other trusses. It is so light the wearer scarcely knows he has anything on, and this is a great comfort, enabling the wearer to forget his ailments.

It can be altered by the wearer to the shape of the body, not being made of hardened steel, and can, with a little judicious and careful bending, be made stronger or weaker in pressure, as
