TWENTY-FOUR MEN ARE LOST

Particulars of the Londonian Wreck and 45 Survivors Brought to Boston by the Vedamore.

BOSTON, Dec. 8.—A dispatch received at the Furness Steamship Company from Baltimore announces that Captain Lee and twenty-four of the crew of the Londonian were lost, and forty-five survivors rescued by the British steamer Vedamore.

PHILADELPHIA, Dec. 8.—The British steamer Vedamore, from Liverpool November 22, for Baltimore, passed in Cape Henry last night and reported that she had on board forty-five of the crew of eighty-eight men of the steamer Londonian. The Londonian sailed from Boston November 15 for London.

This is the first news of the whereabouts of the crew. The Londonian has undoubtedly gone to the bottom of the ocean. Nothing was said by Captain Bartlett, of the Vedamore, to indicate the fate of the balance of the crew.

AMERICAN SILVER TRUSS.

Retains Severest Hernia with Comfort.

LIGHT, COOL,
Easy to Wear.
No pressure on Hips or Back.
No understraps. Never moves.

Is Used by Many

Leading institutions throughout the United States and Canada, and have been adopted by Guy's and Westminster Hospitals, London, England. In this Truss the principle hitherto so greatly desired has at last been achieved, that of firmly and constantly holding the rupture with a gentle hand-like pressure.

It does not pass around the hip like other trusses, but over the hips, the silver wire lying in the hollow of the side, thereby allowing the free movement of the hips and limbs, allowing the wearer to stride out freely, and doing away with the fear and dread that something will go wrong that usually attends the wearing of other trusses.

It can be altered by the wearer to the shape of the body, not being made of hardened steel, and can, with a little judicious and careful bending, be made stronger or weaker in pressure, as
