PROCLAMATION TO THE PHILIPINOS

Text of Instructions to General Otis Made Public.

WE COME NOT AS INVADERS

But as Friends to Protect the Natives In Their Homes, In Their Employment, and In Personal and Religious Rights.

MANILA, Jan. 5.—President McKinley's proclamation to the Filipinos, cabled to Otis from Washington, has been issued here.

WASHINGTON, Jan. 5.—The text of the instructions sent to Gen Otis at Manila, to be proclaimed to the Filipinos as to their future treatment by the United States has been made public. After citing the destruction of the Spanish fleet in Manila harbor, the success of the American arms and the signature of the treaty of peace, and mentioning the fact of the acquisition by the United States and sovereignty over the entire group of the Philippine group, the president continues:

"It will be the duty of the commander of the forces of occupation to proclaim in the most public manner that we come, not as invaders nor conquerors, but as friends, to protect the natives in their homes, in their employments and in their personal and religious rights. All persons who either by active aid or by honest submission co-operate with the government of the United States to give effect to these beneficent purposes will receive the reward of its support and protection. All others will be brought within the lawful rule we have assumed with firmness if need be, but without severity so far as it may be possible.

"Within the absolute domain of military authority, which necessarily is and must remain supreme in the ceded territory until legislation of the United States shall otherwise provide, municipal laws of territory in respect to private rights and property and repression of crime are to be considered as continuing

in force and to be administered by the ordinary tribunals as far as possible. The operations of the civil and municipal government are to be performed by such officers as may accept the supremacy of the United States by taking the oath of allegiance or by officers chosen so far as practicable from the inhabitants of the islands.

"While the control of all public property and revenues passes without cessation, and while use and management of all public means of transportation are necessarily reserved to the authority of the United States, private property, which belongs to individuals or corporations, is to be respected except for good and sufficient cause fully established.

"Taxes and duties heretofore payable by the inhabitants to the late government, become payable to the authorities of the United States unless it be seen fit to substitute for them other reasonable rates or modes of contribution to the expenses of the government, whether general or local.

"If private property be taken for military use it shall be paid for when possible in cash at a fair valuation, and when payment in cash is not practicable receipts are to be given.

"All ports and places in the Philippine islands in actual possession of the land and naval forces of the United States will be opened to the commerce of all friendly nations. All goods and wares, not prohibited for military reasons by due announcement of military authorities, will be admitted on payment of such duties and other charges as shall be in force at the time of their importation.

"Finally, it shall be the earnest and paramount aim of the military administration to win the confidence, respect and affection of the inhabitants of the Philippines by assuring to them in every possible way the full measure of individual rights and liberty which is the heritage of a free people, and by proving to them that the mission of the United States is benevolent, substituting the mild way of right and justice for arbitrary rule. In fulfillment of the high mission supporting the temperate administration of affairs for the greatest good of the governed there must be sedulously maintained the strong arm of authority to repress disturbance and to overcome all obstacles to the best of all blessings—good government for the people of the Philippine islands under the free flag of the United States.

WILLIAM MCKINLEY."

Spain Will Have a New Cabinet.

MADRID, Jan. 5.—General Pollaveja, former governor-general of Cuba and of the Philippine islands, and Senor Silveira, the conservative leader, have agreed upon the formation of a new cabinet and have been summoned by the queen regent. The early advent of the conservatives to power is regarded as certain.

FILIPINOS READY TO DO BATTLE

Aguinaldo Has Gone to Join Them and Will Make a Strong Resistance.

AGAINST YIELDING TO GOVERNMENT

Filipinos Said to Be Fully Resolved to Resist By Force of Arms the Occupation of Any of the Cities or Islands by American Troops.

PARIS, Jan. 5.—An official telegram received by the Philippine junta here dated Manila, January 4, says Aguinaldo has gone to Ilo Ilo at the request of the insurgents, there to place himself at their head with a view to fighting the Americans.

The dispatch also gives facts as to the antecedents of members of the new Filipino cabinet. The following have accepted: President of the cabinet and minister of foreign affairs, Mabini; interior, Theodore Sandico, a civil engineer, who was educated abroad; war, General Balomero Aguinaldo, cousin of Aguinaldo, president of the so-called Filipino government; finance, General Trias, a close ally of Aguinaldo; public works, Gregorio Consaga, a lawyer, formerly Spanish attorney-general of the Visayas.

The cabinet is described as homogeneous, every member being pledged according to those advices to resist the military occupation of the Philippines.

Members of the Filipino junta here explain that Aguinaldo did not run away, but "left Manila for the mountain region behind Cavite in order to make secret arrangements for his voyage to Ilo Ilo."

The Filipino who furnishes this information also categorically and specifically asserts that the latest telegraphic advices declare if the Americans insist upon the occupation of the principal cities by the American troops, the whole Filipino tribe will resist by force of arms.

THE DEATH OF CAPT. MURPHY

Died Suddenly in Portland of Brain Fever—He Went there to Stand Trial.

PORTLAND, Jan. 5.—Captain Edward Murphy, late of the American ship George Stetson, died at 8:20 this morning at the Quimby house on First and Madison streets, of brain fever.

He, in company with his former mate George Harvey, left San Francisco last week, on the steamship Columbia, and overhauled himself. While profusely perspiring he engaged in conversation with the master of the Columbia on the bridge of the steamship, where he contracted a cold. From this it is supposed arose his fatal illness. But those intimately acquainted with the deceased captain believe that the brain fever is resultant from his brooding over a serious criminal charge pending against him in the United States court, for which he and Harvey were to have been tried next Monday by Judge Bellinger.

Captain Murphy was 45 years old, having been a master 20 years, most of that time in the Arthur Sewall line. He was a widower, leaving a mother and three daughters residing in Alamada, Cal. In the event of his acquittal he was to have taken command of the ship Shenandoah, now in San Francisco, of which his brother had been master.

The latter days of January, 1897, the ship George Stetson, of which E. S. Murphy was captain, and Geo. Harvey was first officer, arrived at this port from Boston. They had aboard a young seaman named Amos Stone, who, it is alleged, had been so brutally handled on the trip that he was imbecile when the vessel arrived here.

In May they were indicted by the United States grand jury, but as they were abroad at that time, their trials could not proceed. In the meanwhile, United States District Attorney Hall detained three jurors of that term, hoping the accused would appear before the end of that term. They not appearing, though, he moved the forfeiture of their bonds, which at that particular period, was overruled.

In the meantime, and up to this moment, the entire crew of the George Stetson was taken in custody by the United States marshal, a part of whom are in the county jail here, and the rest in an outside jail, where they are being held as witnesses for the prosecution. These receive \$1 per diem for each day of their detention, and board and lodging.

The victim of the outrage, Amos Stone, had to be removed to the insane asylum at Salem, where he has been

NO FAITH CURE

ABOUT STUART'S DYSPEPSIA TABLETS.

They Cure Stomach Troubles and Indigestion Anyway, Whether You Have Faith in Them or Not.

Mere faith will not digest your food for you, will not give you an appetite, will not increase your flesh and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and peptones necessary to the digestion and assimilation of all wholesome food.

Stuart's Dyspepsia Tablets will digest food if placed in a jar or bottle in water heated to 98 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.

They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is, from plenty of wholesome food well digested. It is not what we eat, but what we digest that does us good.

Stuart's Dyspepsia Tablets are sold by nearly all druggists at 50 cents for full sized package, or by mail from F. A. Stuart Co., Marshall Mich.

DON'T SATISFY SANTIAGOANS

Brooke's Orders, They Declare, Discriminate Against Them in Favor of Havana.

SANTIAGO, Jan. 5.—The explanation of the war department of its intentions regarding the transfer of custom receipts from different ports in China to Havana is met here by a statement of the Cubans that the plan is similar to the one adopted by the Spaniards when requisitions on Havana obtained less than 60 per cent of what the requisition called for. Merchants, business men and influential people here say Havana has grown rich and prosperous at the expense of the rest of the island, and the Cubans and government officials at Santiago say the Cubans of Havana are responsible for General Brooke's order on the subject.

General Wood and De Cast-illo left New York today, en route to Washington to see the president on the subject. Though the situation is critical it is doubtful whether any overt act will be committed unless the populace is aroused by some further irritating order from Havana.

La Grippe Successfully Treated.

"I have just recovered from the second attack of La Grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" British and French Steamer Collided.

FALMOUTH, Jan. 5.—Fourteen members of the crew of the British steamer Rosshire, Cardiff for St. Nazair, and 13 of the crew of the French steamer Dugneclin, Ronen for Swansea, landed here today by pilot-boat. The steamers collided near Trever Head yesterday and sank. Eleven of the crew of the French vessel and one of the Rosshire's men were drowned.

Mr. S. A. Fackler, editor of the Micanopy (Fla.), Hustler, with his wife and children, suffered terribly from La Grippe. One Minute Cough Cure was the only remedy that helped them. It acted quickly. Thousands of others use this remedy as a specific for La Grippe, and its exhausting after effects. Never fails. Snipes-Kinnersly Drug Co.
