FILIPINO ASSEMBLY MAKES PROTEST

President McKinley Warned Not to Attempt Forcible Means.

AMERICAN CLAIM IS PREMATURE

United States Not the Possessor of the Philippines Until the Peace Treaty is Ratified.

LONDON, Jan. 9.—The Filipino committees in Paris, London, and Madrid telegraphed Saturday to McKinley. The Paris dispatch reads as follows:

"We protest against the disembarkation of the American troops at Iloilo. The treaty of peace is unratified. The American claim is premature. Pray consider the resolution concerning Iloilo. The Filipinos wish for the friendship of America, and they abhor militarism and deceit."

A representative of the associated Press learns that the Filipino junta at Paris has received a dispatch from a Filipino agent at Hong Kong, dated Saturday, saying:

"Fight with the Americans unavoidable. We are not the aggressors."

A telegram from an English house at Manila today says the situation is very strained, and there is much anxiety there. The dispatch also contains news from Iloilo, the substance of which is that the American troops have not yet landed.

War Department Reticent.

WASHINGTON, Jan. 9.—A good deal of reticence is exhibited at the war department relative to the state of affairs at Iloilo. The government's instructions to General Miller at Iloilo were to land and get in communication with the insurgents. This is as far as his orders have gone, except that when he has established a communication with the insurgent officials and the people, he is to make public the purpose of the United States. Not a shot is to be fired by the forces of this country unless they are attacked or unless further orders are sent from this country.

The program was agreed upon between McKinty and Alger several days ago.

Alger was at the white house some time this afternoon. He stated in the most emphatic terms that no alarming news had come from General Otis, and he did not believe a shot had been fired so far, or that one would be fired. He is confident General Miller will be able to handle the situation successfully and obtain possession of Iloilo without bloodshed. He is of the opinion that the insurgents have been so long imposed upon that they are naturally suspicious, and fear the worst if they surrender their strong holds into the hands of the United States.

The policy to be adopted now is a gentle one. Persuasion will be used before powder. The president, it is said, also views the situation in a similar light.

Memorial at Manila.

SAN FRANCISCO, Jan. 9.—The Singapore Free Press says that Spencer Pratt, consul-general for the United States, has sent to General Otis, United States military governor at Manila, a proposal that a memorial should be erected at Manila to the memory of all Americans who fell in the capture or died of disease during the campaign.

The proposal is that all Americans now resident in the far East, of whom there is a very considerable number, should be invited to contribute toward this object.

NEW YORK, Jan. 9.—The death is announced in Brooklyn of William Peake, the famous bellringer, aged 94. Previous to the Civil war, the Peake family, seven in number, toured the United States, giving performances in bellringing, a form of entertainment much in vogue at that time. Mr. Peake conducted the tours of the family, and was always found in the center of the group. The others were arranged on either side, according to their height.

TERRIBLE COLLISION IN NEW JERSEY

Thirteen Killed and Many Others More or Less Injured.

TWO PASSENGER TRAINS MEET

The Trains Split in Two, the Rear Cars Piling Up On the Debris of Those Ahead.

NEW YORK, Jan. 9.—At 3:35 p. m. a dispatch was received in this city from Bound Brook, N. J., stating that thirteen passengers had been killed and from thirty to forty injured in a railway collision near Bound Brook. Twenty-five of the wounded were taken to Plainfield and others to Elizabeth, N. J. There was a head-end collision.

The collision is reported to have been between a local train and the Black Diamond express. The local was bound from Bound Brook to Jersey City, while the Black Diamond express was on its way to Buffalo. The express does not stop, and the engineer was running under a heavy head of steam when the accident occurred. Engineer Rich was in the cab of the local train. There were many passengers on the train on their way to New York. There had been a freight accident early in the day near the scene of the disaster. The first accident was responsible for the blocking of one of the tracks. The local was crossing to get on the clear track, when the express hit it at the railroad crossing. The work of rescue was immediately begun. Railroad officials were notified and a special train was sent to the scene. The injured were taken to the Muhlenberg hospital in Plainfield. The train split in two, the rear cars piling up on those ahead. Scores of passengers were imprisoned in the broken and twisted iron and wood work. Fire from the locomotive communicated to the cars near by, and the horror of the incineration of those caught under the wreck was threatened.

The forward car was split open and every soul in it was either killed or maimed. Bodies were lying in every direction. Two or three were piled on top of each other in places. Limbs were

torn from the trunks of some passengers and hurled yards away. Under a tangled mass of iron and steel of one of the engines could be heard the screams of the engineer or fireman pined in an almost inextricable position with escaping steam slowly boiling his torn flesh. The other inmate of the locomotive cab was doubtless dead, as was the engineer and fireman of the other train.

Stole Two Guns.

EUGENE, Or., James Smith was arrested late last evening on a charge of stealing two guns from M. S. Barker's store. He resides at Coburg, and while in Eugene yesterday called at the store to inspect and price guns. It is alleged that he concealed two guns under his overcoat and left the store. Shortly afterward, one of the guns was missed by Mr. Barker, and he immediately notified the officers. They found Smith getting his team ready to leave town. On searching his wagon they found the two guns concealed in the wagon, with Mr. Barker's price tag attached to them. A preliminary examination was held this afternoon, and Smith was bound over to await the action of the grand jury, with bonds fixed at \$500.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Snow on Blue River.

BLUE RIVER, Or., Jan. 7.—During the past week there has been one of the heaviest snow storms ever experienced in this section. The snow is fourteen inches deep on Lower Blue river. The snow has put a temporary stop to the work of building the wagon road to the Lucky Boy mine.

Considerable prospect and development work was done in the district last fall, and everything looks encouraging for a good camp here in the near future.

A WRECK IN NEBRASKA

Firemen Killed, Two Persons Missing and Several Hurt.

SIDNEY, Neb., Jan. 9.—At Sunola, 15 miles east of here, on the Union Pacific railroad a bad wreck occurred this morning at 4:15 o'clock. Train No. 3, fast passenger, double-header, which left Omaha yesterday afternoon, in charge of Engineer Charles Ell and Engineer Reese, ran into train No. 2, in charge of Engineer Dell Bonner.

Bonner had orders to meet No. 3, and the brakeman was in the act of opening the switch when No. 3 came thundering along at 45 miles an hour. Both trains were on the main track. The engines were badly demolished and the entire train destroyed, except the mail car and one sleeper. On No. 2 the composite car was burned. Bonner was internally injured, and several of his ribs were broken. Fireman Coleman was killed. Ell was scalded, but not seriously. Several passengers were hurt badly. There were 320 passengers on No. 3, and all but two, one old man and a woman, were accounted for. They are supposed to have been killed. A Chinaman, name unknown, has several severe scalp wounds and is hurt in the chest. A cook in the dining car of No. 2, name unknown, has a broken arm.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at Blakeley & Houghton's drug store. Regular size 50c and \$1.00. Guaranteed or price refunded.
