THE DALLES, OREGON, WEDNESDAY, FEBRUARY 15, 1899.

NO 267

GREAT STORM PASSES AWAY

Its Center is Now Over Nova Scotia, and
New England Gets a Respite.

INTENSE COLD CONTINUES

Numerous Cities are Still Buried Under
Several Feet of Snow—New York
Cemeteries are Inaccessible, and
the Dead Lie Unburied.

WASHINGTON, Feb. 14.—A weather bulletin today says that from the Atlantic coast the storm has passed on to Nova Scotia with rapid velocity and almost unprecedented development. Owing to the extent and extreme destructiveness, this storm will always be remembered as the greatest storm in the history of the Atlantic coast states and the most remarkable for the perfect combination of the conditions necessary to produce such results.

The storm swept past Washington about midnight, and this morning the sun shone bright on a city buried under approximately three feet of snow. Washington is still cut off from railroad communication with the outside world. Many persons became bewildered and exhausted during the blizzard yesterday evening and night, and fell into snowdrifts. Two score or more persons were picked up partly or wholly unconscious, and there are many cases of severe frost bites.

The Dead Lie Unburied.

NEW YORK, Feb. 14.—The city finds itself unable to bury its unclaimed dead. This is in a great measure due to the ice-bound condition of East river, which has made it impossible for several days for the steamers of the charities department to make their accustomed trips to the city cemetery on Hart Island. No burials have taken place since last Tuesday, when the coffin-laden steamer made its last trip to the potters' field. On Friday about forty bodies were placed on board the steamer Thomas S. Brennan, and Captain McCarthy made an attempt to land them at Hart Island. He succeeded in getting as far as White-stone, where his further progress was stopped by pack ice, and he found it necessary to return to the pier at the foot of East Twenty-sixth street, where the bodies were unloaded and returned to the morgue.

Another attempt was made to reach the island on the following day, but again the steamer was forced to return, and land their dismal freight.

There were in the morgue on Sunday fifty-eight bodies awaiting burial, and this number was raised on Monday to eighty-two, of which forty-six were adults and the remainder children. Not only have burials been absolutely suspended by the city authorities, but private undertakers generally have been compelled to decline to conduct funerals.

SENATE AGAINST ANNEXATION

McEnery Resolution, Declaring It Not
the Purpose of the United States
to Take the Philippines, Is Adopted.

WASHINGTON, Feb. 14.—The McEnery resolution was adopted in the senate today by a vote of 26 to 22. The text of the resolution is as follows:

"That by the ratification of the treaty of peace with Spain it is not intended to

ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

incorporate the inhabitants of the Philippines into citizenship of the United States, nor is it intended to permanently annex said islands as an integral part of the territory of the United States, but it is the intention of the United States to establish on said islands a government suitable to the wants and conditions of the inhabitants of the said islands, to prepare them for local self-government, and in due time to make such disposition of said islands as will best promote the interests of the citizens of the United States and the inhabitants of said islands."

GOMEZ NEARS THE CAPITAL

He is Expected at Havana Tomorrow
or Thursday.

NEW YORK, Feb. 14.—A dispatch to the Tribune from Havana says:

General Gomez, it is now stated, will reach Havana Wednesday or Thursday. His reception in the country is discouraging his opponents, who oppose the acceptance of \$3,000,000 from the United States.

The mode of paying it is likely to raise embarrassing questions. The original purpose was to pay in Spanish silver, which is the common circulating medium, and speculators are trying to get control of silver. The amount of silver in circulation on the island now is in the neighborhood of \$9,000,000, and to turn \$3,000,000 of American money into Spanish silver would take up half that sum and would temporarily enhance its value.

It is hardly possible that the American government will permit a speculation to be made out of its bounty, and the payment to the insurgent troops may be made in American money.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't cure whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at Blakeley & Houghton's drug store. Every bottle guaranteed.

La Grippe Successfully Treated.

"I have just recovered from the second attack of La Grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" For sale by Blakeley & Houghton.

CATARRH OF THE STOMACH

A Pleasant, Simple, but Safe and Ef-
fectual Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour and watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, sickle appetite, nervousness and a general played out languid feeling.

There is often a foul taste in the mouth coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure of this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it can ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston the safest and best treatment is to use after each meal a tablet composed of Distas, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drugstores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will certainly follow their regular use after meals.

Mr. N. J. Booher, of 2710 Dearborn street, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membranes of the nose become inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of the stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of the stomach, biliousness, sour stomach, heartburn and bloating after meals. Send for little book mailed free, on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drugstores.

Improbable Rumor.

LONDON, Feb. 14.—The Paris correspondent of the Morning Post says: "In financial circles it is persistently rumored that negotiations between the Panama Company and the Washington government, whereby the latter is to complete the canal, are in a fair way of being successfully concluded. It is said that the Panama Company would receive a large percentage of the canal receipts, and that the Nicaragua route would be abandoned."

How to Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of La Grippe. During the epidemic of La Grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or La Grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and La Grippe. Every bottle warranted. For sale by Blakeley & Houghton, druggists.

THE AMERICANS CAPTURE ILOILO

Took Possession of the City Without
Sustaining Loss.

REBELS FLED JUST IN TIME

Attempt Made By the Insurgents to
Burn the City Was Frustrated by
Prompt Action on the Part of the
Americans.

WASHINGTON, Feb. 14.—The navy department has received the following, which confirms previous reports of the capture of the city of Iloilo by American troops:

Manila, Feb. 14.—The Petrel has just reached here from Iloilo. That place was taken by our forces Saturday and is now occupied. There were no casualties on our side. No prisoners were taken. The insurgent loss is not known, but it is believed to have been slight. The insurgents there tried to burn the town, but foreign property was saved by the prompt action of our forces.

Details of the Capture.

MANILA, Feb. 14.—Particulars of the capture of Iloilo by the United States forces under Gen. Miller last Saturday have been received here.

On the morning of Friday, February 10th, Miller sent an ultimatum to the commander of the rebels on shore, notifying him that it was his intention to take Iloilo by force if necessary. Non-combatants and foreigners were warned to leave the town within twenty-four hours. The rebels were also informed that they must attempt no further beligerent operations. The gunboat Petrel was then moved to a position close in shore and near the rebel fort, while the cruiser Boston took up her position at the other end of town.

Friday passed quietly. During the day many refugees left town. At 3 o'clock on the morning of Saturday, February 11, the Petrel signaled to the Boston that the rebels were working in their trenches. In return the Petrel was ordered to fire warning shots upon the town from her three-pounders. This was done, and the rebels replied with a harmless fusillade. The Boston and Petrel then bombarded the rebel trenches, completely clearing them of their occupants.

Within a very short time after the bombardment began flames broke out simultaneously in various parts of the town, whereupon the marines, acting as infantry and artillery, were landed from the cruiser Boston, and a company was sent ashore from the gunboat Petrel. These detachments marched straight into Iloilo, and, hoisting the stars and stripes over the fort, took possession of the place in the name of the United States.

The capture of the town and its defenses having been accomplished, the marines and soldiers who had been sent ashore proceeded to the task of saving the American, English and German consulates from destruction by fire, which was raging among the frail and inflammable buildings of the town. The Swiss consul's residence, which was in the same row as the consulates named was burned. The entire Chinese and native sections of the town were destroyed, but foreign mercantile property escaped with slight damage. There was some desultory firing by the enemy in the outskirts of Iloilo, but not a single American was injured.

Miller's force had complete control of the situation when the gunboat Petrel sailed from Iloilo for Manila. The Sixth artillery regiment occupied a position

Good Things.

Cut out this list and bring it along on your next visit to our store. Ask to see any or all of these lines, we will show you through with pleasure,—you'll not be asked to buy.

A Towel Bargain. 40-inch heavy bleached cotton Towels, per dozen.....\$1.

commanding both the bridges leading into the town, and the Tennessee volunteers and the Eighteenth United States infantry were occupying the trenches that had been constructed by the rebels.

Deafness Cannot be Cured!

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
