While it will be especially instructive to farmers, it will be little less interesting to our citizens, and although the former are urged, for their own good, to make an effort to be present, it is also expected that Dalles people will appreciate the opportunity.

Among the speakers who will be present are Hon. James Withycombe, who will speak on "Tillage a Factor in the Conservation of Moisture." Prof. A. B. Cordley has for his subject "Fruit Pests and Spraying;" Prof. A. E. Lake, "The Coming Horticultural Problems;" Prof. G.W. Shaw, "Education of the Future;" Prof. A. B. Leckerby, the well known expert on grasses, "How to Make Our Homes Pleasant;" and Prof. W. W. Phillips will speak on an all-important subject to fruit-raisers, "The Packing of Fruit for Eastern Markets." The ladies are not to be forgotten, and

it is to be hoped that our friends from famous lectures on cooking by Miss Susie Tracy in Portland, will be glad to know that she will be here on the 2d and give an illustrated lecture on the subject.
