DIVIDED INFLUENCES.

Idaho suffers from the same handicap as does Washington, in having one side of the state arrayed against the other. The lack of unanimity in the Boise legislature is apparent in voting appropriations for the Lewiston normal school and the state university.

Educational institutions fare badly in the Inland Empire. It required a determined struggle to obtain recognition for the Cheney normal school in Washington, and it appears the north Idaho schools are also fighting for their existence with a legislature that should welcome the growth of culture and learning of their neighbors' sons and daughters.

The tremendous influence for good these institutions exert is not realized by the legislators of these new states. Their attention is more readily attracted by new penitentiaries and reform schools, expensive capitol buildings and junketing trips for the members of the legislature.

THE STEADY ADVANCE.

There is a class of men who believe that national prosperity does not exist, just because a boom is not rushing double eagles into their pockets, in the little patch of the United States where they chance to abide.

The heavy, unsolicited advance in wages just recently made by iron masters and other great producers, in the East, is a living example of the upward movement of the times. These manufacturers who have added ten per cent to the wages of their help, employ more people than the entire population of the state of Oregon.

Hence it sounds so silly to hear an occasional small business man of Portland say that the country is going to the devil, because he can observe no betterment in his individual condition above that of three years ago.

These instances, however, fortunately are rare. And when one does spring up, the complainant either is devoid of energy or neglects to advertise in a scientific style.—Telegram.

Oregon and Washington have so far been the smallest comparative sufferers of all the livestock-raising states, from the storms during the latter part of last winter. This will increase prices for cattle and sheep in the Pacific Northwest, and make richer the wealthy stockraisers, who were so poor only a few years ago.

Wood—Wood—Wood.

We can furnish you with strictly first class, dry, fir wood at the same prices which you have been paying for inferior quality. Send us your orders and get the best. Phone 25.

Deafness Cannot be Cured. by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. 6-10
