

**SYRUP OF FIGS**

NEVER IMITATED IN QUALITY.

**THE EXCELLENCE OF SYRUP OF FIGS** is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

**IRON GRAVEYARDS.**

**Proposals Asked in This Country to Build One in Venezuela That Will Hold 25,000 Bodies.**  
The iron manufacturers of Pennsylvania have been asked, through the medium of the National Association of Manufacturers to submit proposals to the government of Venezuela for an iron graveyard in which to reinter 25,000 bodies. The proposal is novel with iron industries of this state, although there are a few iron cemeteries in the southern cities, says the New York Sun.  
The graveyards, particularly in Caracas, heretofore have been built of stone, but these have proved unsatisfactory. They were not waterproof. They could not be made so; at least the skill of the average Venezuelan failed in this direction. When the Venezuelans came to look into the wonders on display in the Manufacturers' association's sample warehouse at Caracas they decided that American ingenuity would solve the problem of the proper care of the dead. The water persisted in percolating through the rock barriers. These were as costly as they were insufficient.  
The Venezuelans have become tired of building stone graveyards. They have been erected at great expense of marble and granite, and it is believed that iron will answer every purpose. But it must be made waterproof, and Mr. Nagle, of the Manufacturers' association, said to-day he did not doubt that Pennsylvania mechanics could furnish a structure that would answer every purpose.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. Snipes-Kinersly Drug Co.

**PECULIAR CAUSE OF INJURY.**

**Geysers of Iceland Spout Hot Mud Out of the Earth and Burn Tourists.**

Barren as the place really is, the artist's eye would revel in the beautiful effects on the snowy jokulls, the twilight softening shades of mauve, greens and grays on the distant lava peaks, and the luminous midnight sky. The intensity of the blue water of lake or ocean is superb, and the mighty waterfalls are grand. And the geysers! All the warm tints, from cream to russet, are found in the mineral deposits around the basin of the Great Geyser, Little Geyser, Stokkr (the churn), and the Little Stokkr, while Blesl (the blue one) is lined with exquisite white, like porcelain, making it a fitting vessel for the cooking of food, and for furnishing boiling water for our tea and coffee. It was so smooth and beautiful that I seemed to be mutilating something rare and beautiful when I chipped off pieces of its lining, but I knew they would be valuable souvenirs, and the uneasy, bubbling water would soon amend the deficiency.

The mud pools on this plain are the most dangerous, for they spout hot mud diagonally out of the earth. Coming upon them in one direction they are not seen, and many a visitor has gone home with a scalded foot. The hydraulic display is now very fitful and inconspicuous. Tourists have injured the spouting fountains by loading stones into them to see them cast out, so you must take your tent with you and encamp on the plain to await the pleasure of their majesties. Blesl will serve you while waiting. The Great Geyser had not spouted for a week when we were there, and such surliness indicated a near activity. The water spouted unusually high when it finally appeared, 150 feet, and showed all the tints of the rainbow, majestic at the same time and mysterious. It played for 15 minutes and then its beautiful cascades subsided in a feathery mist, a refined and graceful withdrawal.—International.

Even the coarsest and most repulsive skin, marred by freckles, moth, blackheads, pimples, vulgar redness, yellow and muddy skin are permanently removed, and a deliciously clear and refined complexion assured.
