

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO. illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

La Grippe Successfully Treated.

"I have just recovered from the second attack of La Grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" For sale by Blakeley & Houghton.

SUGAR AND SEA POWER.

From This Showing Each of the Great Maritime Nations Has a Sweet Tooth.

The great maritime powers are all great sugar-eating nations. Wherever the spirit of navigation, commerce, travel and colonization is strong there is a large consumption of sugar per head, says Pearson's Weekly.

England heads the nations of the world in fondness for sweet things, the sugar consumption there being 70 pounds a year for each inhabitant. The United States is a close second, each individual consuming 67.07 pounds per annum.

In Denmark the quantity is 45 pounds a head, in Holland 34 pounds, in France 20 pounds, in Norway and Sweden 25 pounds, in Russia 10 pounds, in Italy 7 pounds, in Turkey 7 pounds, in Greece 6 pounds and in Servia 4 pounds.

Cuba produces annually 975,000 tons of cane sugar, the United States 300,000 tons. Java contributes 480,000 tons each year, the Philippine islands 265,000 tons, Hawaii 135,000 tons and Porto Rico 60,000 tons.

Germany leads in the production of beet-sugar, with one-third of the annual yield, while Austria is next. France, Russia, Belgium and Holland each produce about the same quantity.

Couldn't Believe Her Own Boy.

An old West of England country woman, speaking to a district visitor of her son who was a sailor, said: "Ah, ma'am, my son that has been to the north pole, he tells me some things that I really can't believe, though he is my son. He tells me, ma'am, that he has seen with his own eyes 'ice bugs' as big as a church." All the cleanly instincts of the old soul were in revolt at the bare possibility of such monstrosities.

Japanese Imitation.

A Japanese named Takuma has been turning the skill in imitation, with which his countrymen are gifted, to nefarious ends, and has been convicted at Sydney of forging seven copies of a rare early New South Wales stamp rated at \$400. The imitation was so perfect that the stamps were purchased by dealers and sent to London, where they passed the scrutiny of several experts.
