Toulon, France, the scene of the terrible explosion of which the telegraphic reports have been so full, is noted chiefly as the place where Napoleon Bonaparte began his great career. Toulon had refused to yield to the revolution, and an English fleet had entered the harbor to assist the French royalists. The revolutionary forces had laid siege to the city, and Napoleon Bonaparte had been sent to take charge of the artillery. Though but a youth, he displayed such intelligence and force as to prevail over the old officers and to get the direction of affairs into his own hands. By a series of profound combinations, followed by daring acts, he soon made the harbor untenable for the British fleet. When the fleet was forced to move away, the royalists were at the mercy of the revolutionary forces. The assault and capture of the city was attended by the most terrible scenes. Scott's "Life of Napoleon" contains this passage: "It was upon this night of terror, conflagration, tears and blood that the star of Napoleon first ascended the horizon; and though it gleamed over many a scene of horror ere it set, it may be doubted whether its light was ever blinded with that of one more dreadful." A fact of interest for us of Oregon may here be recalled. The commander of the British fleet that was expelled from Toulon by the combinations of Napoleon was Admiral Lord Hood, for whom Vancouver named our great mountain peak, and Hood's Canal, at Puget sound.—Oregonian.

Spain locks up Montojo, Toral and the rest of the naval and military commanders of the recent war, while its statesmen who caused the war are permitted to remain at large. This conduct will have a tendency to cast more discredit on Spain than the result of the war caused. Its military and naval commanders probably made as good a fight as could have been put up under the conditions which were presented in Cuba and the Philippines, but the American belief is that the fighting men were less accountable for those conditions than were the politicians. An exception, of course, will have to be made in the case of Weyler, who was more responsible for the war than was any other one man, civil or military, but Weyler has not been locked up, and probably will not be.

Otis' declaration that the Filipinos have not taken a single American prisoner makes pleasant reading for

this country. In the general smash-up which is soon to come for Aguineldo and his fortunes the fate of any American prisoners in his hands might be hard. It was a common practice for the Indians to kill their prisoners when the day of doom came to themselves. Aguineldo is probably as malevolent and barbarous as were Girty, Brant, Captain Jack and many of the rest of the white and red savages whom the Americans had to physically or metaphorically extirpate for the good of civilization.

Questions of trade with Asia and of the commerce of the Pacific would have confronted this country regardless of the war with Spain. The Philippines are but one item in a large commercial and industrial subject.

Admiral Dewey evidently intends to spend the summer at Manila. He has cabled the home office for a year's supply of coal baskets.

Lifting his hand high above his head, Gen. Aguineldo boastfully declares that he would rather write than be president.

There were 172 ocean disasters in the year 1898, not counting those in which Montojo and Cervera took part.
