**Crippled by Rheumatism.**

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

**S.S.S. For the Blood**

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

will be enabled to view the scenery along the river without an extra trip up the Columbia, as was first intended, which would only have been as far as the Cascades at any rate. This will also save them a day.

The idea is to have them reach this city by train on the morning of the 3d of July, and have a committee in waiting here to entertain them for an hour or more, serving refreshments before they are taken on the boat. Souvenirs descriptive of the city and surrounding country will be furnished them, giving them sufficient literature to refer to in their write-ups on their return home.

This would be a splendid plan, and the most feasible one for The Dalles to undertake, giving our city ample advertisement and affording our guests the best possible manner of viewing our wonderful scenery. We trust it will be carried into effect.

**HOME LOVERS FIRST CHOICE.**

Swiss Maidens Are Sorely Hampered in Their Choice by Tradition.

If the American girl was as restricted in her choice of a husband as the girl of mountainous Switzerland she would quickly emigrate from the land of liberty to set up a republic of her own governing in some convenient section of the globe.

Swiss maidens have wide and deep courtship license, but in many of the cantons they are allowed but a narrow choice of bridegrooms, it being a rigorously enforced, if unwritten, law that they must marry a youth of their own neighborhood. In many villages every marriageable youth belongs to a society whose sole object is to prevent any and every youth from outside from coming a-courting the maidens of the society's village.

The society has a password, frequently changed—almost never divulged. A lover of the village, if challenged, gives the password and it is an "open sesame" through the on-guard ranks of the protective society.

He may climb and woo uninterrupted, undisturbed. But the lover from afar must fight his way past the challenging sentinels or use the shrewdest and most successful stealth.

**Curious Oath.**

The most curious European oath is administered in Norway. The witness raises his thumb, his forefinger and his middle finger. These signify the Trinity, while the larger of the uplifted fingers is supposed to represent the soul of the witness, and the smaller to indicate his body. Before the oath is taken a long exhortation is delivered.
