

#### An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup or Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYBUP Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

### The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which reit. The disease is in the blood, and hence can not be cut out. Nine times out of ten the surgeon's knife only hastens death.

Absolutely the only hope for Cancer is Swift's Specific,

as it is the only remedy which goes to the very bottom of the blood and forces out every trace of the disease. S. S. S. is guaranteed purely vegetable, and contains no potash, mercury, or other mineral,

ELECTRIC RAILWAY TO MT. HOOD Rumor that a Company will Build On From Hood River to Cloud Cap Inn.

Every visitor to Cloud Cap Inn, on Mt. Hood, is wont to pass the remark, "Oh, if only the dusty ride between Hood River and the inn could be avoided what an advantage it would be," although, we yenture to say that not one who has ever made the trip would hesitate to traverse the same road, with its disadvantages, for the grandeur of view and the pleasure which awaits them when the goal is reached.

If reports are true this difficulty will in the near furture be obviated, and a company will put in a electrical railway seems almost too good to be true, so we "tell the tale as 'twas told to us," Drug Co. not daring to vouch for its truth. It would seem more likely were it to be the travel would be more liable to justipassengers over the stage route every day during the summer.

The great drawback to Oregon scenery has always been our lack of facilities to bring tourists in proximity with our snow-capped peaks and other features of its grandeur. While distance often 'lends enchantment to the view," 'tis not so with these high monarchs, for the nearer we get to the mountains the more wonderful and awe-inspriring do they become.

It is to be hoped that the rumor of electric railways, cog wheel railways, etc., will soon be a reality, and that visitors to our state can stand above the clouds and realize how insignificant is m25 every other view they have had compared with that obtained in Oregon.

Wireless Telegraphy. WASHINGTON, March 27 .- Consul General Gowdey, at Paris, reports to the state department that he has been informed by M. Donretet, the noted inventor and constructor of telegraphic apparatus, that messages can now be perfectly transmitted a distance of thirteen miles through space without using wires. The messages are dispatched and received by means of masts ninety-nine feet high at each terminal. One of the principal obstacles encountered was the apparent impossibility of accomplishing Clinton & Jackson Sts., CHICAGO, ILL. an automatic registration of a message. But this has been overcome.
