## CRUSHED IN ITS INCIPIENCY

Made Short Work of an Uprising on the  
Island of Negros.

## REBEL STRONG- HOLD CAPTURED

Thirty-Five Prisoners Taken and the  
Rest of the Insurgent Band  
Scattered—MacArthur's Army  
Quiet, but His Sharpshooters  
Active.

MANILA, April 6.—6:45 a. m.—Colonel  
Smith, governor of the island of Negros,  
reports that a number of bandits, headed  
by a man named Papisio, attempted  
rebellion March 27, and killed several  
officials of Jummayan. Papisio also  
captured other officials and issued a pro-  
clamation calling upon the natives to  
rise and exterminate the Americans and  
Spaniards.

Major Sime and two companies of the  
California regiment were dispatched by  
water to the scene of the disturbance,  
and Colonel Duboise and two other com-  
panies were sent overland. On April 2  
this force marched twelve miles and cap-  
tured Labaid, the headquarters of the  
bandits, and destroyed the town. The  
troops also captured thirty-five prisoners,  
and scattered Papisio's force, thus  
effectually quelling the rebellion at the  
outset.

6:30 p. m.—There has been a week's  
respite in hostilities, chiefly in order to  
allow the Filipinos to digest the pro-  
clamation. The rebels remain remark-  
ably quiet. The sharpshooters of General  
Lawton's lines have borrowed Filipino  
tactics and are harassing the rebels at  
night, picking off some of them nightly.

Malolos is resuming its natural aspect.  
Preparations are being made for es-  
tablishing a permanent camp for the  
troops there, and the soldiers are clean-  
ing the city.

One third of the American force at  
Malolos is sent nightly to form an ad-  
vanced line a mile north of the city, with  
patrols and sentries ahead of the line.

General MacArthur's volunteers are  
receiving Krag-Jorgensen rifles, the Fili-  
pinos having discovered that they can  
effectively fire their Mausers and retreat  
before the Americans approach near  
enough to use their Springfield rifles  
with effect.

Advises received here from Samar, an  
island forming a province of the Phil-  
ippines, says the revolutionists there are  
weary. Their leader, Lukban, of Chinese  
ancestry, has deserted with the funds.  
The inhabitants are desirous of American  
rule.

## SOLDIER DEAD WERE BURIED

Official Washington Turns Out in Force  
to Pay a Last Tribute of Respect—  
The Services at the Grave.

WASHINGTON, April 6.—With full mili-  
tary honors, in the presence of President  
McKinley and his cabinet and a multi-  
tude of people, the bodies of 336 dead her-  
oes, who gave their lives for their coun-  
try in Cuba or Porto Rico during the  
Spanish war, were consigned at 2 o'clock  
this afternoon to their resting place in  
Arlington cemetery.

In accordance with the directions of  
the president, every honor, military and

civil, was shown to the nation's heroes.  
The government departments were all  
closed at noon, and flags over the govern-  
ment buildings were half-masted.  
Interment of the bodies began at the  
conclusion of the ceremonies, and the  
departure of the military, but as each  
metallic casket weighs almost 500 pounds  
and required eight men to handle it, the  
lowering of the bodies was necessarily  
slow, and it will probably require two or  
three days to inter all of the dead.

## THE OLD WAY

Of Treating Dyspepsia and Indigestion  
by Dieting a Dangerous and  
Useless One.

We say the old way, but really it is a  
very common one at the present time  
and many dyspeptics and physicians as  
well, consider the first step to take in  
attempting to cure indigestion is to diet,  
either by selecting certain foods and re-  
jecting others or to greatly diminish the  
quantity usually taken, in other words,  
the starvation plan is by many supposed  
to be the first essential.

The almost certain failure of the star-  
vation cure for dyspepsia has been  
proven time and again, but still the  
moment dyspepsia makes its appearance  
a course of dieting is at once advised.

All this is radically wrong. It is fool-  
ish and unscientific to recommend diet-  
ing or starvation to a man suffering from  
dyspepsia, because indigestion itself  
starves every organ and every nerve at  
every fibre in the body.

What the dyspeptic wants is abun-  
dant nutrition, which means plenty of  
good, wholesome, well cooked food and  
something to assist the weak stomach  
to digest it. This is exactly the purpose  
for which Stuart's Dyspepsia Tablets are  
adapted and this is the method by which  
they cure the worst cases of dyspepsia,  
in other words the patients eat plenty  
of wholesome food and Stuart's Dys-  
pepsia Tablets digest it for him. In this  
way the system is nourished and the  
overworked stomach rested, because the  
tablets will digest the food whether the  
stomach works or not. One of these  
tablets will digest 3,000 grains of meat  
or eggs.

Your druggist will tell you that  
Stuart's Dyspepsia Tablets is the purest  
and safest remedy for stomach troubles  
and every trial makes one more friend  
for this excellent preparation. Sold at  
50cets, for full sized package at all drug  
stores.

Deafness Cannot be Cured.

by local applications, as they cannot  
reach the diseased portion of the ear.  
There is only one way to cure deafness,  
and that is by constitutional remedies.  
Deafness is caused by an inflamed con-  
dition of the mucous lining of the Eus-  
tachian Tube. When this tube is in-  
flamed you have a rumbling sound or  
imperfect hearing, and when it is en-  
tirely closed, Deafness is the result, and  
unless the inflammation can be taken  
out and this tube restored to its normal  
condition, hearing will be destroyed for-  
ever; nine cases out of ten are caused  
by catarrh, which is nothing but an in-  
flamed condition of the mucous sur-  
faces.

We will give One Hundred Dollars for  
any case of Deafness (caused by catarrh)  
that cannot be cured by Hall's Catarrh  
Cure. Send for circulars; free.

Bishop Warren Well Again.

New York, April 6.—A dispatch to  
the Herald from Buenos Ayres announces  
that Bishop Henry W. Warren, of  
Denver, Colo., who is at Mar del Plata,  
has practically recovered his health and  
will return to Buenos Ayres to preside at  
the conference of Methodist ministers.

## WHEAT CROP WILL BE LIGHT

East of the Alleghenies There is Little  
Loss—Damage in Kansas Serious,  
Also in Southern Kentucky—Full  
Crop in Oregon—Three-Fourth of a  
Crop in California.

CHICAGO, April 6.—The Daily Trade  
Bulletin will publish today a summary  
of estimates by correspondents of the  
area seeded to winter wheat, and the  
percentage of damage by unseasonable  
weather during the past two months.

The reports show that east of the  
Allegheny mountains the damage was  
slight, and the same is true of Ohio and  
Michigan. In Indiana considerable  
damage is reported, while in Southern  
Illinois the outlook is very unfavorable.  
In Missouri considerable damage has  
been sustained.

Reports from Kansas are decidedly  
unfavorable, and the loss in that state  
is larger than generally anticipated.

In the northern part of Kentucky the  
crop is in rather good condition, but in  
the southern part of the state and in  
Tennessee severe winter weather made  
inroads on the growing crop.

In Iowa the loss is fairly large, and in  
Nebraska the outlook is decidedly dis-  
couraging. In Wisconsin the damage  
is rather serious. In California reports  
indicate that the condition of the winter  
wheat crop is not to exceed 75 per cent,  
which, even on increased acreage, would  
not produce to exceed 355,000,000 bush-  
els to 360,000,000 bushels, or 20,000,000  
less than last year.

States east of the Rocky mountains  
will probably show a shortage of 35,000,  
000 to 40,000,000 bushels, at the present  
outlook, which will be partly reduced  
by increased production in California.

Seeding of spring wheat is decidedly  
backward in Nebraska, Iowa, Minnesota,  
South Dakota and in the Rocky moun-  
tain districts, and the outlook favors  
decreased areas. Oregon and Wash-  
ington will produce practically full  
crops.

Illinois Farmers Discouraged.  
MASON CITY, Ill., April 5.—Nearly all  
the wheat throughout Central Illinois;  
from Danville to Havana, considered  
the best portion of the state, is dead.  
The farmers are discouraged.

## BIG MOUNTAIN OF ORE

Nearly \$500,000 Worth in Sight in the  
Crystal Butte.

SPOKANE, Wash., April 5.—Manager  
Thomas, of the Crystal Butte mine, on  
Myers creek, Colville reservation says:  
"We have at least 15,000 tons of ore  
blocked out in the mine, and between  
6000 and 8000 tons of this is ready for  
stoppage. Estimating the value of the  
15,000 tons at \$25 per ton gives us \$475,-  
000 worth of ore in sight. This is con-  
servative. The ore in the winze at this  
time averages at least \$100 per ton in  
gold. Fair general samples run over  
\$300 per ton. But, taking all the ore in  
the mine, good bad and indifferent, the  
average will be somewhere between \$25  
and \$50."

## The Time to Buy....

Is when all conditions are most favorable to the purchaser.  
We've known for some time that Monday next would witness  
conditions in the local Clothing market most favorable to the  
purchaser, and which would convince every man that buying  
time for Spring Suits was ripe; that delay would lose him  
money.

## MONDAY NEXT, APRIL 10,

is the day set aside for the opening day of this great value-  
giving sale. In the meantime we invite inspection. We call  
attention to our show window. It may be well to mention  
that this lot consists of seventy-five (75) suits only; that out  
of the lot any man of average proportion can get a perfect fit;  
that we show nine (9) different, very handsome patterns, in  
light and medium styles. No sales made from this lot until  
Monday, or after. Read the following:
