

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

The process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N. Y.

For sale by all Druggists.—Price 50c per bottle.

PERSONAL MENTION.

Troman Butler made a business trip to Goldendale today.

B. F. Laughlin has returned from a business trip to Antelope.

Will Whelan is doing the city today in the interest of his company.

Mrs. S. Bolton and son returned on the stage today from Goldendale.

Larry Lakin, representing the Rosenfeld-Smithe company, is in the city today.

Ray Logan returned to Portland this morning, where he will resume his studies in the medical college.

Carl Williams came up from Portland Saturday and spent Sunday with relatives here, returning this morning.

Miss Marion Smith, who has been the guest of Mrs. Geissendorfer for the past week, left this morning for her home in Los Angeles.

Rev. Hoyley, who occupied the pulpit of the Methodist church yesterday, returned to his duties at the Portland University today.

Frank Wood, who has spent the week since the death of his mother with the family at home, returned to Portland today to resume his studies in the business college.

We're All Right.

While we are complaining about the unbearable wind storms, which generally make their appearance on Sundays or just when we want a practical demonstration regarding the beauty of our climate, let us turn our eyes eastward and contemplate for a moment the conditions there existing. Mr. Brooks is in receipt of the weather report for

March in Wisconsin, Minnesota, Iowa and the Dakotas, which says:

Upon the whole the season is backward at the close of March, the month having been very unfavorable for farming operations. In the Dakotas, Nebraska, Minnesota, Iowa, and Wisconsin the ground is frozen to an unusual depth, the frost extending to a depth of from five to ten feet in North Dakota and Minnesota. While the average temperature of March was somewhat above the normal in the southern states, the season in that section is reported from two to three weeks late, except in Texas, where it is more nearly normal.

The report adds: The general condition of wheat is less favorable than at the close of February, and as at the close of that month the late sown is less promising than that seeded early. On the Pacific coast the outlook is most promising in Oregon, and the crop has been greatly benefited by recent rains in California, but in Washington it has been injured by severe weather and lack of snow protection.

RIFLE FOR LIONS.

That is the Small Kind Hunter Pack-and-Kills the Beasts in Arizona With.

Florence Packard, who lives in Greenback valley, Gila county, Ariz., has a remarkable record as a hunter of mountain lions. He has killed scores of them, and last year alone his record was 33 scalps. The mountain lions of Arizona are most destructive to herds of horses and cattle. The risk of life and difficulties attending their destruction has caused the lions to be more numerous than one would suppose, and if it were not for the bounty paid by the county, the stockmen would be short on their cattle and horses. Much of the country surrounding Packard's ranch is made up of irregular ranges of broken mountains.

In the last 12 months Mr. Packard has brought to Globe, besides 33 lions, a few bears, wildcats, coons and foxes. The dogs for this work are a cross between the fox and bloodhound. Usually four dogs are in the pack. The two younger are yoked together, another is trained as scout, whose work is to go ahead and around for the scent of lion or bear, and when the scent is found the oldest dog is put on the track, and, to his credit, it is said, never fails to find the animal. Packard says he has frequently followed this dog over 15 miles before the lion was found. Up to this date 71 lion scalps are to the credit of this dog. The dog is not a fast trailer, but very careful, and, considering the roughness of the country, the dog is remarkable.

The bears are the shyest of all game, having poor eyes and good ears, the least noise drives them off a good ways. It may surprise some hunters to know that a .22 rifle is used by Packard for killing these animals. If a heavier gun is used the force of the shot would knock the animal out of the trees or off rocks before dead, and likely cause the death of some of the dogs. The lion is easily killed by a small ball when well aimed.—Globe (Ariz.) Times.

All persons wanting their cows herded, (beginning April 1st), will do well to see Joslin & Sons, on Tenth street, west end.

Use Clarke & Falk's Rosofoam for the teeth.

A. W. GUTHRIE, Head Barber, 15 times in a minute. On payment of \$1.00 per hour for trimming beard.

Ice cream soda now on sale at the Palace of Sweets. 4tf.

BUSINESS LOCALS.

Hartford bicycles, '99 models, \$35 at Mays & Crowe's.

Use Clarke & Falk's Floral Lotine for sunburn and wind chafing.

Featherstone bicycles, '99 models, \$30, \$40 and \$50 at Mays & Crowe's.

Columbia bicycles '99 models—best on earth—\$50 at Mays & Crowe's.

You need have no boils if you will take Clarke & Falk's sure cure for boils.

For Five Dollars you can buy a Camera that will take larger pictures than any other Camera on the market. For sale by Clarke & Falk.

If you have a cough, throat irritation, weak lungs, pain in the chest, difficult breathing, croup or hoarseness, let us suggest One Minute Cough Cure. Always reliable and safe. Snipes-Kinersley Drug Co.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. Snipes-Kinersley Drug Co.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. Snipes-Kinersley Drug Co.

For a quick remedy and one that is perfectly safe for children let us recommend One Minute Cough Cure. It is excellent for croup, hoarseness, tickling in the throat and coughs. Snipes-Kinersley Drug Co.

It is now time to plant your roses, lilacs, snowballs, daisies, wiegelas, syringas and other flowering herbs for spring and summer blooming. The cannae, heliotropes, marguerites, geraniums and fuchsias are now ready for garden planting at from 5 cents to 50 cents. Phlox spirea, hardy heliotrope and garden primrose at 10 cents per plant. Pansies and daisies at 25 cents per dozen at Mrs. A. C. Stubbings.

Sixth—A sewer commencing at and connected with the sewer at the intersection of the alley between First and Second streets with Union street, thence running easterly through private property in block 10, thence easterly through the alley between Fourth and Fifth streets, thence south on Union street to the intersection of Tenth and Union streets.

Seventh—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Union street, thence west on Taylor street, thence south on Taylor street.

Eighth—A sewer commencing at and connected with the sewer at the intersection of the alley between First and Second streets with Union street, thence north on Taylor street, thence west on Taylor street.

Ninth—A sewer commencing at and connected with the sewer at the intersection of the alley between Third and Fourth streets with Union street, thence north on Taylor street, thence west on Taylor street.

Tenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Third and Fourth streets with Union street, thence north on Taylor street, thence west on Taylor street.

Eleventh—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twelfth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirteenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fourteenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifteenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Sixteenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Seventeenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Eighteenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Nineteenth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-first—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-second—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-third—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-fourth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-fifth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-sixth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-seventh—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-eighth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Twenty-ninth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-first—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-second—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-third—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-fourth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-fifth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-sixth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-seventh—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-eighth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Thirty-ninth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-first—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-second—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-third—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-fourth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-fifth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-sixth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-seventh—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-eighth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Forty-ninth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-first—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-second—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-third—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-fourth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-fifth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-sixth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-seventh—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-eighth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fifty-ninth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth—one—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth-two—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth-three—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth-four—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth-five—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth-six—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.

Fiftieth-seven—A sewer commencing at and connected with the sewer at the intersection of the alley between Second and Third streets with Union street, thence north on Taylor street, thence west on Taylor street.
