HIGH HONOR FOR AN OREGON MAN

Dr. J. L. Wortman Takes Chair of Paleontology at Yale.

SUCCEEDS LATE PROF. MARSH

Dr. Wortman Was Born in Oregon and Educated at the Schools of This State.

New York, April 20.—Dr. J. D. Wortman, who has been elected to the chair at Yale made vacant by the death of Professor O. C. Marsh, is assistant curator of the vertebral paleontology of the American museum of the natural history in this city. At the time of Professor Marsh's death he was under contract to go to Yale as his assistant this fall, with the ultimate end in view of becoming his successor.

Dr. Wortman was born in Oregon City, Or., August 25, 1856. His early life was spent in the West, and there he was educated, being graduated from the university of Oregon in 1876. It was while in college under Professor Thomas Condon, professor of geology, that he first became interested in the study of paleontology, and while an undergraduate he accompanied the professor on several scientific expeditions to the Bad Lands of Wyoming.

Immediately after graduation he came East and became associated with Professor E. D. Cope, of Philadelphia. From 1877 to 1884 he conducted explorations in the Western fossil beds for Professor Cope during the summer, and in the winter studied anatomy under Dr. Joseph Liedy at the Philadelphia academy.

In 1884 Dr. Wortman was appointed anatomist for the United States medical museum at Washington. While there he studied medicine at Columbia medical college, and in 1887 took the degree of M. D. The same year he became demonstrator of anatomy in the Georgetown medical college. The appointment of assistant curator of vertebral paleontology of the American museum of the natural history was tendered him in 1891, and he since that time has been in New York.

During the time of his association with the museum, Dr. Wortman has conducted all the field work. The collection of fossils, which is the finest in the world, is practically all his work. He also has written a large number of articles and books along his chosen line, both in collaboration with other scientists and alone.

Dr. Wortman has also contributed a number of articles to scientific journals.

IN THE NAME OF RELIGION

Simon Hotema Confesses Having Murdered Three People.

St. Louis, April 20.—A special to the Republic from Antlers, I. T., says Simon Hotema, the full-blood Choctaw Indian, who was arrested on the charge of murdering a man and two women last Friday near Cold Springs, has written a confession of his guilt, in which he attributes his actions to the teachings of his peculiar creed.

In his confession he states that he killed the three persons and did so because of their "evil practice of magic among the Indian people." Prevalent sickness had been ascribed to these

supposed "witches," and he took their lives.

In his confession he said he committed these murders to sacrifice his life for the Lord's cause and the love of his people. It is thought religion unbalanced his mind.

INTENSE SUFFERING

FROM DYSPEPSIA AND STOMACH TROUBLE

Instantly Relieved and Permanently Cured by Stuart's Dyspepsia Tablets.

A New Discovery. But Not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: "The patient was a man who had suffered to my knowledge, for years with dyspepsia. Everything he ate seemed to sour and create gases in the stomach; he had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night.

"I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a fifty cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediately relief was given and after he had used four boxes he was to all appearance, fully cured.

"There was no more acidity or sour watery risings, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, healthy flesh.

"Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores, yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but fruit and vegetable essences, pure pepsin and Golden Seal.

"Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach, however slight or severe."

Stuart's Dyspepsia Tablets are made by the F. A. Stuart Co., of Marshall, Mich., and are sold by druggists everywhere at fifty cents per package.

Captain of the Falke Arrested.

St. PAUL, April 20.—A Winnipeg, Manitoba, special to the Dispatch says: A special dispatch to the Free Press from Victoria, B. C., says the steamer Aorangi, from Australia, brings news of the arrest of the captain of the German warship Falke, at Apia, for supplying arms to Mataafa. The arrest was made by the British commander.

The Best in the World.

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by Blakeley & Houghton Druggists.

THIRTY THOUS. AND ENOUGH

Regulars Otis Has, Together With Those It Is Proposed to Send Him, Ample for All Purposes.

WAR DEPARTMENT RECEIVES NOTICE

Homeward Movement of the Volunteers Therefore Will Begin Early Next Month, as Stated in the Dispatches Received Yesterday From Otis.

WASHINGTON, April 20.—Secretary Alger has received a reply from General Otis to his inquiry as to whether the reinforcements proposed to be sent to him to relieve the volunteers would be sufficient for the purposes of the campaign. Otis replied in the affirmative, the estimate of 30,000 men to constitute the army agreeing with his own calculations.

The program for the movement of the regulars out to Manila and of the volunteers homeward, therefore, will be carried out according to General Otis' statement contained in his dispatch of yesterday.

General Otis adds to his message the hopeful remark that he expects very shortly to be able to report a decided improvement in the situation in the Philippines.

The volunteers in the Philippines will return home in the order in which they sailed for Manila. The date upon which each troop sailed follows:

May 25, First California, Second Oregon and detachment California artillery; June 25, batteries A and B, Utah artillery, Tenth Pennsylvania, First Colorado and First Nebraska; June 29, First North Dakota, Thirtieth Minnesota, First Idaho and First Wyoming; July 19, First Montana; July 23, First South Dakota; October 19, First Washington; October 27, Twentieth Kansas; October 30, First Tennessee; November 3, Fifty-first Iowa; November 6, troop Nevada cavalry; November 9, First Wyoming battery.

Remarkable Cure for Rheumatism.

KENNA, Jackson Co., W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddock insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. Campaign Against the Filipinos.

New York, April 20.—A special to the Herald from Washington says: Notwithstanding the presence of the hot season and the imminence of the rainy season in the Philippines, there is to be no cessation of active hostilities against the Filipinos. This fact developed at a conference be-

tween the president, Secretary Alger, Secretary Long and Adjutant-General Corbin. It was also decided not to issue a call for the 35,000 volunteers authorized by the army reorganization law.

It is the purpose of the administration to send to the Philippines almost as many regulars as there are volunteers to be returned. There are fifteen volunteer regiments which, according to General Otis, will return home commencing May 5.

Six regular regiments are now on their way to Manila. With their departure only three infantry commands will remain in the country available for service in the East. It is understood that if conditions continue satisfactory in Cuba, a couple of regiments of infantry will be drawn from that island and the Eleventh from Porto Rico.

There is talk also of dispatching cavalry to General Otis.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size 50 cents and \$1.00. Trial bottle free at Blakeley & Houghton's drug store; every bottle guaranteed.
