There will be a special meeting of Wasco Lodge No. 15 A. F. & A. M. at 7:30 p. m. this Monday evening. Work in F. C. Degree. By order of W. M.

Although it is quite early in the season, nevertheless wool is beginning to come in. This morning a four horse load was received at Moody's warehouse.

Jim Cox, champion shiner of the Pacific coast, has associated himself with the tonsorial emporium at the Umatilla House where he will be pleased to meet all his old customers.

The Astoria team for The Dalles tournament is not made up as yet, says

the Astorian, but Captain Laws will be able to announce the composition of his champions in a few days. What a time the boys will have when they visit the two commercial clubs of Portland and The Dalles.

Yesterday evening Andrew Keller met with an accident that cost him the end of his finger. Mr. Keller was making ice cream and went to take a piece of ice out from between the cogs of the freezer when the middle finger of his left hand was caught and taken off near the first joint.

Mr. Frank Malone, says the Antelope Herald, has on his ranch a pet deer and a shepherd puppy which have become the best of friends, and of late, inseparable companions. They can be seen playing together at all hours of the day, the deer usually taking the lead, with the puppy following, in all their friendly "rumps."

Wm. Skraggs died early yesterday morning of pneumonia at Mrs. E. Juliens on Court street. Mr. Skraggs, who was better known as "Uncle Charlie," was about 52 years of age and was well thought of by all who knew him. He has lived near The Dalles for a number of years, having made his home with Lee Bolton on Ten Mile. He was a native of Indiana, but had no relatives in the west. His funeral will take place tomorrow afternoon at 2 o'clock from the Calvary Baptist church.

E. E. Lytle, president of the Columbia Southern Railroad Company, has returned from a trip over his proposed road. He traversed the preliminary survey in company with his chief engineer from Moro to Antelope, and is so well satisfied with the appearance of things that he has ordered his chief engineer to at once make a permanent survey and set the grade stakes. As soon as this is done, which will be in about two weeks, a crew of graders will be put at work, and dirt will fly freely, and work will be rushed so that the line will be in running order in time to move this season's wheat crop.

A peculiar condition of the atmosphere was noticeable yesterday afternoon and today. The atmosphere was filled with a fine yellow dust, being very light in weight, making the air look hazy, and has the appearance of a threatening shower. The air being so compact with this matter that the mountains in our immediate neighborhood were entirely hidden from view. Some of our citizens thought it smoke as it resembled the condition of the atmosphere during the summer months when forest fires are in the Cascade mountains. One of our noted astrologers prophesized, some time ago, that one of the planets in its course would come so close to us that the earth would be covered with a fine dust to a depth of a quarter of an inch, and it is possible that this time has arrived.

#### A Letter From the Philippines.

The following is a letter from A. A. Bonner, private in Company L, of the Second Oregon volunteers, to his mother, Mrs. S. L. Armstrong who resides in Thompson's addition in this city:

IN THE FIELD, CAMP SURPRISE, March 16.—Dear Mother. I will write you a few lines today, as we are not moving. We have just had a two day's battle and have captured the city of Pasig, which is situated about the center of the island.

We are now in what is called the flying column, which is composed of the Twentieth and Twenty-second regulars, Fourth cavalry, two batteries of artillery, two battalions of the First Washington, and seven companies of the Second Oregon, and is a column intended to go anywhere on the island. In our regiment we have had a number killed and wounded. The insurgents loss was not so great, as they were entrenched and in timber.

We are now in one of the most beautiful and fertile countries on the globe. Sugar-cane and corn grow everywhere. I have not been in Manila for some time. Have not had any mail for three weeks. Am well and enjoying myself and am having a good time. Yesterday morning the insurgents surprised us at daylight, and we had a stiff little fight at close range, but we soon charged them away. Most of the fighting is at long range with artillery and sharpshooters. The insurgents are firing at our lines most every hour of the day, but are doing but little damage. My shoulder is so sore from shooting that I can hardly write. I have fired about five hundred shots in two days. I am temporarily detached from my company now, and am scouting and sharpshooting, and that way I get to see lots more of the country than many of the others. We will probably be on the campaign until the insurrection is quelled, and are apt not to be home before another year. We are now up the river about forty miles from Manila and camped on Lagoona bay.

It makes no difference how bad the wound if you use DeWitt's Witch Hazel Salve; it will quickly heal and leave no scar. Snipes-Kinnersly Drug Co.

### OUR BOWLERS INVINCIBLE.

The Illihee Club Bowl a Good Game, But Were Outdone by The Dalles Team.

Enthusiasm ran high at the club rooms Saturday night, as the contest bowling game between the club team and a team from the Illihee Club of Salem began, and, each strike, spare, or mark of scientific bowling was greeted with applause from the platform, where were seated a large number of spectators, and the many persons who thronged the room, endeavoring to watch the game, caught up the refrain until it was general, and entirely impartial, one team receiving no more appreciation than did the other.

The Salem team, composed of Messrs. Barker, McGraw, Minto, D'Arcy, Griffith and McNary, proved themselves to be gentlemen, who had not neglected to bring their manliness with them but showed in every way their good breeding; and so the games progressed without the slightest interruption. Be it also said of our home team, which was made up of Messrs. Bradshaw, Houghton, Nolan, Kurtz, Baldwin and Schmidt, that they know how to treat a visiting team, (if we do say it ourselves) and while they made such remarkable scores, for they were scores to be proud of, there was no undue demonstration. Everyone present was proud of The Dalles team, and well they might be, for they played as if possessed, the first game being what the boys call a "crack-jack," and footing up to 302 points.

The visiting team also proved themselves to be a splendid lot of bowlers, and made good scores throughout. In spite of the weariness caused from a delayed train, they showed not its effects. But our team came out with 106 points ahead. The Salem team fell not, but The Dalles team were truly invincible, and cheer after cheer arose as it was discovered they had won three games out of the four played. The total scores by games were as follows:

	1st	2nd	3d	4th
Bradshaw	48	39	39	38-104
Baldwin	55	43	54	51-203
Kurtz	57	35	45	26-163
Houghton	44	41	35	45-165
Schmidt	36	34	53	46-169
Nolan	62	47	60	57-226
	302	239	286	263

	1st	2nd	3d	4th
Barker	46	36	48	37-167
Griffith	35	45	33	37-150
McNary	42	35	58	36-171
Minto	45	38	25	46-154
McGraw	47	51	34	30-162
D'Arcy	29	62	36	53-180
	244	267	234	239

At the close of the game the teams repaired to the Umatilla House, where a banquet awaited them such as hungry bowlers, and monarchs as well, could thoroughly enjoy. The tables had been beautifully decorated by Mrs. Fish and Mrs. Seufert, who showed splendid taste in arranging the club colors, yellow and white, to blend so perfectly in the entire effect. From the chandeliers were draped the two shades, while the same effect was noticeable on the table. The flowers were of the choicest kind, a large bunch of callas being prominent, while the bouquets of roses were beautiful. The best of good will prevailed and each speech evinced the enjoyment which was paramount.

Most of the visiting team left yesterday morning, feeling satisfied they had done their best, and that, though not victorious, they were more than pleased with the trip.

### EXPANSION.

Met a feller t'other mornin'—  
Most amusin' sort o' cuss:  
Hed a cur'us style about him—  
Cert'ly could not well be wuss.  
I says: "Where you hiall f'm pardner?"  
An' he smiles in knowin' way.  
An' replies in forren lingo:  
"Porto Rico, U. S. A."

Seen a feller down on Broadway,  
With a shockin' head o' hair,  
An' a lot o' tropic garments  
An' a most outlandish air.  
"Whur's he from?" a feller shouted,  
But before we'd time to say,  
"This yere heathen turned an' answered:  
"Hooahls, U. S. A."

Met a feller yere on Olive,  
With a somber-e-to cuss;  
Had a lot o' shaggy whiskers;  
Nearly all his clothing gone.  
Stopped an' asked me for a quarter;  
Says: "My home is far away."  
"Where you from?" The varmint answered:  
"Santiago, U. S. A."

Seen a feller at the Southern,  
With a heavy iron box:  
Had a top coat lined with bearskin,  
Wore a dozen pair o' socks.  
Sized him up to be a miner,  
Judgin' by his aw'ard way:  
Seen him write in big cha-racters;  
"Circle City, U. S. A."

Seen a saddle-colored heathen,  
Wearin' earrings in his nose;  
Linen cuffs around his ankles;  
Most indecent lack of clothes.  
"Where'd this heathen guy spring from?"  
I inquired in lofty way:  
An' he had the nerve to answer:  
"Frum Manila, U. S. A."

"Gee!" I says, "I never heard of  
These yere cannibals before!"  
Air these heathens to be voters?  
"Will ye stan' fur any more?"  
Next you know, you ask a feller  
Where he's from, and he will say,  
With a lordly kind o' flourish:  
"All Creation, U. S. A."

While we don't make much pretension  
In our quiet sort o' way,  
Still we like that last short sentence—  
"Fits us to t-y-tay."  
So we keep a spradin' outward—  
Say "expandin'," if we may—  
Till some day you'll see our Pianos  
In "All Creation, U. S. A."

One of our expanders, Mr. E. Jacobson, will "do the act" in The Dalles all next week. We hope every householder will assist in the performance, as we are prepared to fill to the letter even his most extravagant promises, when he offers you the finest pianos in "All Creation, U. S. A., or any other seaport.

Very respectfully,

## 1041 Miles in Ten Hours.

With each returning season the Lozier Manufacturing Co. show something new and desirable in Bicycle construction. This season finds them with more good things than ever. One of these good things is the BURWELL BALL and ROLLER BEARING. Examine the illustration—notice particularly that the little steel roller between the balls transfers the motion without interruption and the Balls cannot grind together as in ordinary bearings.

There is nothing ordinary about Cleveland Bicycles; every piece of material and every hour of labor is the best money can buy. We cater to a trade that wants the best and knows the best.
