NO PLACE FOR WOMEN.

Some of the officers in Manila declare that they would rather fight all the Filipinos in ambush than reconnoitre, as they have to, for quarters for the wives and families who come to join their husbands. The garrisons are over crowded, the prisoners have been taken out of the casemates and put to bed on the parade ground, and the officers themselves have had to forage for a sleeping place. The story is told of one officer, who laughed at the efforts of his fellows to make provision for their families, and who told them that he had his own under better control. Within half an hour, however, this same officer found that his wife and children had come to Manila and were now on the transport awaiting him. They had intended to give him a pleasant surprise.

Seriously speaking, the thoughtlessness of devoted wives in joining their husbands is oftener than not the cause of serious embarrassment, and when the time comes for us to estimate, at their proper value, the sacrifices made by our American women during the war, not the least of them will be found in the cheerful readiness of many in staying behind. Twelve months and more have already divided many a husband and wife since the war with Spain began, and many a devoted woman, had she only herself to consider, would long since have broken all bounds and gone to share the hardships and adventures of her husband. It has only been consideration for him, and the thought of the discomfort sure to be caused his campmates, that has kept the loyal soul at home.

Wireless telegraph had a practical demonstration in England not long since. The Godwin Sands lightship was struck by a passing vessel, and the crew utilizing the wireless telegraph apparatus, notified South Foreland that their ship was sinking. Tugs were thereupon dispatched to the assistance of the lightship.

No wonder the Cuban army is dissatisfied with the paltry \$75 per head allowed them. Many of them have suffered the hardships of service for three years without pay, and now that success has been attained feel that they should be fairly remunerated.

It is said government statistics show that there is more timber in Oregon than in any other state in the union. Enough to make a belt around the earth a mile wide. Six hundred million feet of lumber was sawn in 1898.—Oregon Native Son.

Says the New York Sun: "The Hon. Edward Atkinson now stands upon the peak of fame. He defies competition. He has been officially recognized as the biggest fool in the United States."

Discovered by a Woman.
Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at Blakeley & Houghton's Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

An Epidemic of Whooping Cough.
Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for cough and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—JOHN E. CLIFFORD, Proprietor Norwood House, Norwood, N. Y. This remedy is for sale by Blakeley & Houghton, druggists.
