MAY 20th:

## PIQUES AND WELTS.

The demand for these goods is ever on the increase from the fact that there is nothing produced that has the style, beauty and character that is depicted in a well fitting suit, skirt or waist of this fabric. A still greater redeeming feature is in the fact that these goods do not crush and can be laundered like a pocket handkerchief. They are found in our stock both in vertical and horizontal stripes, also where the two stripes are combined, making a decidedly novel and stylish fabric. For this day only we will quote you extremely low prices as a special inducement to purchase at drug store. once.

The most attractive thing to the small boy now seems to be the bill boards, which are loud in their display of elephants, dogs, horses, and all sorts of flaring posters calculated to make the boys play circus for months to come. Yesterday the advance car for Ringling Bros. circus, containing twenty-seven men, was in town and they left their marks behind them. The circus will be here on June 10th, and from all we learn is a good one. Dr. F. J. Fluno, of Oakland, Calif., will arrive in the city this evening and lecture in the court house to night on Christian Science. The doctor is a member of the board of lectureship of Christian Science on this coast, and a stand the principles as taught by Scientists, and this will be a good opportunity to find out what they are and what they are not. The lecture will be free. Go and hear Dr. Fluno. Somehow the report has gained credence that Mrs. C. J. Stubling will soon sell out her greenhouse and go out of the floral business. Upon inquiry we find there is no truth in the statement, that she no has such intentions. Many will be pleased to learn of the falseness of the assertion ; not only those who are regular patrons, but all whom she has so kindly assisted by loaning potted plants and palms for various decorations at public entertainments.
