

Saturday's Special

For this day only we have made a sweeping reduction on our

...CRASH SUITINGS...

And would suggest that if you will devote a little time to considering these goods you will find them just the proper thing for your camping costume or street wear during the anticipated warm weather that always follows after a protracted cold spring. These goods are displayed in our east window.

- 15c per yard Saturday 13c
- 20c per yard Saturday 17c
- 25c per yard Saturday 19c
- 30c per yard Saturday 23c

Uncle Rastus Once Said

"Ex man aint gwine to tek er punkin when he can git er watermillun jes es handy."

We Leave the application of this quotation to you.

Our sale of boys' and little fellows clothing will continue during the entire week and with each suit sold, from \$2.50 up, we present a watch. A word about these watches: They are not toys, they are the Ingersoll Watch, a genuine timekeeper and durable, something that will last the boy for a long time and be reliable. Only by taking these watches from the manufacturer in large quantities are we able to make this offer. We carry a large stock of boys' clothing to select from, but would advise you to call early, as yesterday's sale would indicate a rapid depletion of the stock.

You can hardly wish for anything eatable

Not to be found in our grocery department. That's why people come to us when they are at a loss to know what to put on the table for lunch or for any dainty affair. Our immense stock of fine groceries makes easy purchasing for the epicure. Just now we'll suggest salads to you, simply because we have the necessary dressings, or can supply the ingredients if you prefer a home-made dressing. In dressings ready for the table we carry

- My Wife's Salad Dressing,
- Bayle's Salad Dressing,
- Durkee's Salad Dressing,
- California Salad Dressing.

If you prefer home-made, we carry Olive Oils, either imported or domestic, Vinagars either Malt, Crystal or Pure Cider and a variety of Mustards.

Pease & Mays.

All Goods Marked in Plain Figures.

WAYSIDE GLEANINGS.

Excursion
Sunday, May 28,
Dalles to Hood River.

Old potatoes at Dawson's. 26-2t
The closing exercises of the public schools at the Vogt will commence at 8 o'clock. Admission 15 cts; school children free.

It would seem that the cattle from a thousand hills had been turned in Salt-marsh stock yards today, a large band being fed there this afternoon awaiting shipment.

Tickets for general admission to the graduating exercises tomorrow night may be procured at the Snipes-Kinersly drugstore. The exercises will commence at 8:15 sharp.

Last night the High school graduating class was entertained by Miss Carrie Butler, who, had she continued her studies here, would have been a member of the class. The evening was passed most pleasantly.

The Regulator will leave her wharf at 8 o'clock Sunday morning for Hood River with the ball team and a large number of excursionists who will spend the day in that town. Returning, will leave Hood River at 5 p. m. Tickets 50 cents.

And now Pague says the river will stand at 28 by Sunday at this place and at 30 Tuesday, and there is enough of a raise in the upper rivers to warrant the prediction. The weather, however, is cooler above, which will tell on the rivers after that time.

The case of Emma Sparling vs. Henry Sparling, for divorce, was heard in the circuit court before Judge Bradshaw yesterday afternoon and the plaintiff was granted a decree of divorce on the ground of cruel and inhuman treatment. Ned Gates appeared for the plaintiff.

Superintendent Gilbert has just returned from a visit to schools in the districts of Liberty, Center Ridge, Summit, Fairfield, Five Mile and Eight Mile. He found them all in flourishing conditions, under the charge of the best of teachers.

This morning Mr. Gilmore, who has been ill in this city for some months past, was taken to his home at Centerville. Mr. F. W. Crofton came over from that place yesterday and accompanied him over, he being taken in a closed hack and made as comfortable as possible.

From Dr. Logan, who accompanied Chas. Ross to Portland, we learn that he stood the trip remarkably well, and was taken to St. Vincent's hospital, where Dr. McKenzie, assisted by Dr. Logan, amputated the crushed foot about midway between the ankle and knee. He bore the operation bravely and is getting along splendidly.

The remains of eighteen soldiers who died in the Philippines were landed yesterday at San Francisco from the transport Sheridan, and will be sent for burial wherever relatives or friends may desire. Among them was the body of Will Fields, who died of typhoid fever on September 3d. His remains will be sent to Centaur, Mo., where his mother now resides.

J. T. Neff, of Hood River, has accepted the principalship of The Dalles High school. Mr. Neff is one of the most competent instructors in the state, and the school board of The Dalles made no mistake in making him principal of their high school, a school that has gained a reputation along with the leading institutions of learning in the Northwest.—Glacier.

A telegram received by Mr. Houghton this morning from the Astoria team which played the Commercial club in Portland last night, says that four bowlers and a mascot will arrive on the evening train. The contest will begin at 8:30, and the Commercial Club band will be in attendance. A banquet will be given our visitors after the games are ended. We wish our team as much success as they had in their recent contest with the Illiwees.

This section of Eastern Oregon has been visited by fine rains lately and the chances of a good wheat crop are materially enhanced. Farmers say that while the cold weather of the past few weeks has kept the grain from making a good showing as it otherwise would

have done, it has been "making root" beneath the surface and is now in good condition for making a wonderful growth with the advent of better "growing weather."—Condon Globe.

A large number of excursionists will spend next Sunday in Hood River, and a more desirable place could not easily be selected. Many who are possessors of kodaks will profit by the splendid opportunity offered to secure numerous snap-shots; while bicycle riders and those who enjoy driving will have a chance to take a ride over the finest roads in the state. The river ride on the favorite steamer, the Regulator, is well worth the price of the tickets, which is but 50 cents. None can afford to miss the game between our team and the picked nine of Hood River. Tickets are now on sale at the drug stores and other business houses, and at the wharf on Sunday morning.

Word was received early this morning from Portland telling of the death of Reta, the youngest child of Mr. and Mrs. Polk Mays. Several months ago their three children were afflicted with typhoid fever in a very bad form, and Reta, who was about 5 years of age, seeming to gain no strength when the fever left her, it was thought best to take her to the hospital in Portland, and Mrs. Mays took her down about three weeks ago. However, she was not benefited thereby and died last night about midnight. Her remains will be brought to this city tomorrow for burial. Much sympathy is expressed for the bereaved parents, who since their arrival in this city last fall have had sickness in the family continually, and are now called upon to give up the pet of the household.

It seems that everything at Atlin is not what it was purported to be, and business is at a standstill. The miners are growing disgusted at the manner in which the Canadian government runs things, and on account of the uncertainty of the laws Americans are afraid to put in any money, for there is no telling what will be done. A letter from Mr. Butler this morning says that on the day the letter was written, May 4th, the thermometer stood at 10 above, while along some of the creeks the ground was frozen 8 feet deep and no work could be done. He says that only one man out of a hundred will get his money back. The trails are in very bad condition and the mail which came out that day was supposed to be the last until the steamers run next month. A gentleman coming out recently said that all the way out he saw much sickness. The men are compelled to eat snow to quench their thirst, and this soon leads to cold and pneumonia. The best way to go to Atlin seems to be to stay at home.

What a Walla Walla Statesman Says of The Dalles.

The Walla Walla Statesman has the following from an observing citizen of that place who recently made the trip to Portland and evidently missed nothing which was worth noticing along the route:

"The Dalles is the largest wool depot in the United States, if not in the world. Some wool is handled even from the borders of Malheur and Lake counties, three hundred or more miles. The Dalles was rebuilt with many neat and attractive houses after the fire of '91, and it must be confessed that its stores will bear comparison with our own. In fact there is perhaps only one store here that compares in elegance and general completeness with the stores of Pease & Mays and A. M. Williams & Co. at The Dalles, though the population of The Dalles is scarcely a third of that of our own city.

"A beautiful and commodious high school building has been built within the past year at that place, and there are in it about eighty high school students, fifteen graduating this year.

"Around The Dalles also are now coming into bearing some of the finest orchards in the state. It seems plain that the earliest fruit in the Northwest is produced on the quick volcanic pockets of scil amid the rocks and sand at various points up and down the Columbia. I observed, however, near Grants the danger that attends the proximity of sand, for part of one fine orchard has been buried in heaps of drifting sand."

Contract for Hauling.

Pease & Mays have on hand an immense amount of freight to be shipped to the country south of Prineville. They desire to contract with responsible parties to haul the same. Apply to them by mail or in person. 26-1w

When Nature

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.

A FIRE ALARM SYSTEM.

Let's Have It, for We Can Do So With No Loss and Much Gain to All.

Some very important matters were discussed last night at the meeting of the board of fire delegates, which if carried out successfully will mean much to The Dalles and be of great benefit to her citizens.

After the meeting was called to order at 8:30, it was ordered that the entire department give a test drill next Thursday night to determine the pressure of water at the new plug near the Wasco warehouse. Five companies will take part in the drill, and as many streams of water play on the warehouse at one time. This is splendid practice for the department and should occur frequently.

For some time it has been considered that The Dalles was sadly in need of a fire alarm system. At present when the general alarm is given much consternation is caused from the fact that no one has any idea where the fire is, and much time is lost thereby. Not long since the fire underwriters made a proposition to the city that if a good fire alarm system were put in and a chemical engine bought they would reduce the insurance of the city ten per cent. The question was discussed and a committee consisting of Messrs. J. F. Moore, J. A. McArthur, H. Glenn and R. E. Saltmarche was appointed to confer with the business men relative to the proposition and to place before them the idea of each donating the reduction of one year on their insurance to the purchasing of the engine, hook and ladder and putting in the alarm system. Should all coincide with the committee and agree to subscribe the amount gained by the reduction on a year's insurance, a sufficient amount will thus be procured to make the necessary improvements, and the saving thereby in future years will be theirs.

Surely none will object to this arrangement, as no reduction can be obtained in any other manner, and the benefit can be easily foreseen. A chemical engine is just what we need. In nine cases out of ten more damage is done when the fire has scarcely gained a start, by water than by the fire itself. With one of these engines one man can climb to a roof or in close proximity to the blaze, and in a short time put the fire out and virtually no damage be done other than the small blaze produced.

Just at this time there are many calls upon our business men to aid in one project or another; but this is an exceptional one, which can be given with no loss to them and much gain to all.

J. D. Bridge, editor and proprietor of the Democrat, Lancaster, N. H., says: "I would not be without One Minute Cough Cure for my boy, when troubled with a cough or cold. It is the best remedy for croup I ever used." Snipes-Kinersly Drug Co.

For Woodmen of the World Excursion

The O. R. & N. Co. will make a round trip rate for the above excursion of \$3.30 The Dalles to Portland and return, good going on May 30th. Tickets good for return on all regular passenger trains until June 2nd. JAS. IRELAND, m23 30 Agent.

...Maier & Benton

Sole agents for this brand of Coffee.

A Wonderful Discovery.

CARMELITE.

The great Mexican hair vigor, manufactured by Mrs. Dora A. Dreyer, cannot be had in this city. Mrs. Dreyer is prepared to treat all diseases of the scalp, and ladies wishing home treatment may leave their address with Chas. Frazer. Carmelite is on sale at Mr. Frazer's barber shop and Blakeley & Houghton's drug store. See display on Friday and Saturday at Blakeley & Houghton's window m4-1m

How About Your Title?

ARE YOU SURE it is all right? Remember it is the RECORD that governs. It is our business to search the records and show what they contain in relation to land titles. If you contemplate buying land or loaning money on real estate security, take no man's word, but insist upon knowing what the record shows regarding the title. An Abstract is as essential as a deed. Insist on having it. We have the only set of Abstract Books in the County. All work promptly executed and satisfaction guaranteed. If you have property to insure, give us a call. We are agents for four of the best fire insurance companies in the world. If you have property for sale, list it with us and we'll find a buyer.
