

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the CALIFORNIA FIG SYRUP CO. illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only.

THE DOCTOR AT ATLIN.

What He Thinks of the City and Its Surroundings.

The following letter from Dr. Siddall has been received by Mr. and Mrs. Mac Allister.

ATLIN CITY, B. C., May 13, '99.

MY DEAR FRIENDS:— I arrived here the 10th inst. at 5 p. m., being four days and six hours from Bennett City over the ice. The trip was not so very unpleasant, although we had a good deal of cold wind, and in some places it was quite dangerous, as the ice was full of crevasses and the weight of our load, being 3000 pounds when we were all on riding, caused the water to boil up as we passed over. There were three of us besides the driver. His load was 2100 pounds of hay and we had 350 pounds of baggage and grub. They were all jolly good fellows, and we made the best of it. Yes we had a whole lot of comfort; but I think I hear you say, "Yes, cold comfort." Well, we were like the bed bug, rather slow, but we got here all the same with only one horse to drag us along, well, happy and in good spirits, hoping for the future to repay us, which I think all deserve for coming 150 miles on ice.

As for the scenery, I can only describe it thusly: Bennett Lake, Tagish Lake, Taku Arm and Lake Atlin are long narrow bodies of water, surrounded by barren rocky mountains covered with snow and ice that make cold chills run down your back every time you look up from the ice below your feet. But we would all see it with a different eye were we floating along in a nice boat, sleeping on a comfortable bed and eating a good meal off a steamer table instead of stuffing cold grub into our mouths with frozen fingers.

The trip can be made, when the railroad is finished from the summit to Bennett, in four days from Seattle to Atlin, as some of the steamers will run direct to Skagway in three days, and the trip up the pass to the summit and on to Bennett is perfectly grand and will be made in four hours at least.

Then it will be a most magnificent trip on the boats to Atlin, making one portage at Taku City across to Atlin lake one and a half miles, then across Lake Atlin to this beautiful little city.

Although rough as yet, still Atlin City is a wonder for its age. Many fine log and frame buildings two stories high, but the greater part are tents and canvas houses which give it a most picturesque appearance, lying with a nice slope down to the lake's edge, the highest point of ground being only about forty feet above the water with plenty of room for a large city, and it will be if only the gold proves to be here, which is as yet only a mystery. As far as I can learn the country is not being prospected, so I cannot write intelligently, but will try to write more in the future.

I should judge there are about 2500 people here, with many more scattered out on the different creeks.

I have seen Mr. Butler. He came in from his claim yesterday but returned again. He has not got down to bed rock yet on either claim, as they are deep and wet and the season very backward, with plenty of snow all over the country. The claims are laid over until July 1st. Henry Michell is here but I have not seen him yet as he is on Pine creek. He and his wife are well. Jess and Mat Watson are here. They just came from Pine and saw him.

As for myself, I am interested with three different parties who are out now. They think they all know of something good and if so I will be all right; but if not I shall only consider I am on the losing horse and have to stand it, but shall do my best this summer. With best wishes and kind regards I remain, Your old friend, DR. SIDBALL.
