

OVERLAND TRAIN HELD UP

Point Near Wilcox, Wyo., the Scene of the Robbery.

EXPRESS CAR BLOWN UP

Gang Got Away With Their Booty—Engineer Was Injured in the Explosion—Another Report.

DENVER, Colo., June 2.—A special to the Times from Cheyenne, Wyo., says: At 4 o'clock this morning the Union Pacific mail and express train No. 1, was held up one and one-half miles from Wilcox station, in this state, by six masked men, evidently professionals, who blew open the safe of the express car and carried away all its contents. The mail was not touched, on account of the fact that four armed mail clerks were in charge.

The mail and express runs as first section of No. 1 overland limited. The second section follows only five minutes behind. A bridge two miles from the scene of the robbery was fired to prevent the second section from coming up during the operations. A bridge in front of the train was dynamited. The trainmen were all covered with rifles and the robbers took their time. The value of the plunder is unknown, but it is represented as light.

The sheriffs of Albany and Carbon counties, with posse and United States marshals, are after the bandits, who are supposed to be members of the notorious "Hole in the Wall" gang, which has terrorized the state for years.

Another Report Comes From Omaha.

OMAHA, Neb., June 2.—The Union Pacific officials furnish the following account of the robbery of west-bound train No. 1, which left this city yesterday morning: Just before daylight this morning, in the midst of a drenching rain, the train was held up just beyond Wilcox, Wyo. The robber blew the express car open with dynamite, severely wounding Engineer Jones, and then escaped in the mountains. According to the officials of the express company, the robbers only obtained a nominal reward for their daring crime.

A posse under command of the sheriff of Carbon county is in pursuit and is confident of capturing them. The soft ground caused by the rain will aid in tracking the robbers. A late telegram says the bridge was shattered, but has been repaired sufficient to permit the passage of trains. Passengers were badly frightened, but the robbers made no effort to molest them, confining their operations to the express car.

Mines Have Shut Down.

SPOKANE, Wash., June 1.—A Spokesman-Review special from Sandon, B. C., says:

All silver-lead properties in this city, except the Slocan Star, have shut down, refusing to pay \$3.50 for eight instead of ten hours' work. The Slocan Star, the miners believe, will pay the scale demanded, while the others assert that the mine will close on June 11. The unions are strongly organized in most of the camps. The miners in large numbers

are coming to Sandon, where important union meetings are being held tonight. Scores of miners not in the unions will drift to the Coeur d'Alenes. At Nelson, the Hall mines and the Royal Canadian are still working, but other properties are closed. The mine-owners are reticent.

Would Not Suffer So Again for Fifty Times Its Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. WILSON, Liveryman, Burgettstown, Washington Co., Pa. This remedy is for sale by Blakeley & Houghton, Druggists.

TOOK HIS CHILD'S BODY

Edward King Opens a Grave in a Eugene Cemetery.

EUGENE, June 2.—What is undoubtedly an extreme case of depravity and spite has just been brought to light. At the recent term of the circuit court, Mrs. King, of this city, obtained a divorce from her husband, Ed. King, who was proved a worthless character. A child of the couple died about four years ago, and was buried in the Odd Fellows' cemetery, near town. About two months ago some children reported that King had been seen digging about the grave of the child, but nothing was thought of the matter, as it was supposed he was clearing the mound. Yesterday Mrs. King received a letter from King, written at Fresno, Cal., in which he said that he had taken the body of the child from the grave and placed it in charge of a friend at Springfield, and that he intended to have it shipped to Tennessee for reburial. An investigation was made yesterday afternoon by Chief of Police Stiles. It revealed that the remains had been removed. On the supposed grave Mrs. King placed flowers on Tuesday, only to learn the following day that a vandal had removed the remains of her dead child to a place unknown to her. It is not believed the remains have been shipped away, but that they have been reburied in some out-of-the-way place near by, as it is known King had no money to pay shipping charges. Mrs. King is heart-broken.

Millions Given Away.

WIFE WILLED TO BROTHER

Sam T. Jack, the Well Known Actor, Makes Such a Will.

NEW YORK, June 2.—Sam T. Jack willed his wife to his brother James C. Jack. The last testament of the actor and theatrical manager, proprietor of several theaters, "Creole" and other burlesque companies, who died April 27, has been filed for probate in the office of the surrogate. It contains this remarkable provision:

"It is my wish first and foremost that my brother James and my wife Emma shall become husband and wife."

Mrs. Jack, the "Emma" of the will, was Miss Emma Ward, the favorite actress in the old Lily Clay burlesque company, which was playing at Niblo's in 1892 when Sam T. Jack married her. James C. Jack was asked if he would accept the bequest of his brother, but he would make no statement.

The estate is valued at \$75,000, of which \$60,000 is said to be in banks in this city and Chicago. The testator left one-third of his property to his wife Emma, one-third to his brother James C. Jack and divided the remainder among other relatives.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at Blakeley & Houghton's Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

Astoria Rainfall.

ASTORIA, June 1.—The rainfall to date in Astoria is shown by the records of the weather bureau to exceptionally large. From September 1, 1897, to September 1, 1898, 75.47 inches fell. From September 1, 1898, to date 81.34 inches have fallen. The average precipitation for the same period is 68.27 inches, which shows an excess of 13.07 inches for this year. During May the precipitation was 5.57 inches.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to all my friends.—F. A. BABCOCK, Erie, Pa. It is for sale by Blakeley & Houghton, Druggists.

Tillamook Slide Still Moving.

TILLAMOOK, June 1.—The landslide at the sand spit is still on the move toward the beach, it having moved sixty feet the past week. The slide is going right under the beach, which in some places has been raised fifteen feet. A large quantity of clay has been unearthed by the landslide, and it is claimed that it is suitable for brick and pottery.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
