GOOD ROADS IN OREGON.

It will always be in order to discuss the question of good roads so long as more of them are needed and the best means of getting them and keeping them in repair are not fully agreed upon, says the Spokesman-Review. No state can avail itself of its resources to the greatest advantage without the best sort of common highways for easy intercommunication and transportation of products. In agricultural communities this is especially true. Good roads are as essential to highly successful and profitable farming as are a rich soil and a favoring climate.

The matter of road building has received a good deal of attention in this state, not only from the legislature, which at every session has attempted to improve our road laws, but from people who have made an effort to bring their country thoroughfares up to a higher stage of perfection. It will therefore be of interest to note what improvement in the way of road supervision has been attained in Oregon through the trial of a new system of superintendence of county highways.

The reports from Pendleton are to the effect that the roads of the surrounding district were never in better condition, and it is to be accounted for in the inauguration by the county court of a new program by which the old and often neglected duties of the former road district supervisors are turned over to a general roadmaster who has charge of all the public highways in the county. He is vested with considerable authority and if repairs are needed, he makes an inspection like the roadmaster of a railway and at once prepares to remedy defects and put the road in good condition. He is enabled to do this expeditiously, for the reason that a cash road tax is at his disposal and he is not compelled to resort to the perfunctory work of adjacent owners who were formerly allowed to meet the tax with shiftless and ill-directed labor on their roads.

So far, the plan has worked admirably and the people are pleased with it. It has quickly brought about a general improvement of highways throughout the country and the people of both town and country are likely to be benefited by the easier and better communication that has followed the adoption of the new system. If it is a success in Oregon, it should be practicable elsewhere and those interested in good roads and desirous of maintaining them can well afford to investigate the workings of the new plan which seems to have been so highly successful.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Glorious News.

Come from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved, that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion and builds up the strength. Only 50 cents. Sold by Blakeley & Houghton, Druggists, Guaranteed.
