

**An Excellent Combination.**

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package. **CALIFORNIA FIG SYRUP CO.** SAN FRANCISCO, CAL. **GRAND ZOOLOGICAL DISPLAY.**

Ringling Bros.' Menagerie the Largest and Finest in the World.

Ringling Brothers' menagerie is the finest zoological collection in the world. Many innovations in the way of arrangement have been introduced, thus adding to the effectiveness of the display, and simplifying the opportunities for study. The vast menagerie pavilion is laid out like a zoological garden. In the center is the pachydermium, in which is exhibited the largest herd of elephants ever seen in the Western Hemisphere. There are twenty-five of these interesting and powerful beasts, ranging from the tiniest baby elephants to a pair of the largest proboscideans in the world. In the middle spaces are also displayed the various led animals, including a score of Arabian and Bactrian camels, water buffaloes, sacred cattle, and dwarf ponies. The cages line the outer walls, and the several species are arranged in such a way as to readily illustrate the radical differences between the herbivorous and carnivorous beasts. The amphibia are represented by a remarkable collection of hippopotami, sea lions, seals and other water-frequenting animals, exhibited in huge aquaria, with constantly flowing water. The aviary comprises nearly a score of mammoth gold-illuminated cages, in which are exhibited an unrivaled ornithological display, comprising the brightly plumaged birds of every land. The children's menagerie, with its tiny cages of wild animals, has been augmented by a complete exhibit of simians, from the diminutive ring-tailed monkey to the almost human anthropoid apes. In addition to those already enumerated, there are hundreds of other curious wild animals, including a ferocious horned rhinoceros, a magnificent specimen of the multi-natural horned horse or gnu, a manlike Congo chimpanzee, snow white Polar bears, a den of black tigers, ferocious lions, sinuous tigers, and other interesting beasts, the whole comprising a display impossible to duplicate anywhere on earth. Ringling Bros.' menagerie is a worthy introduction to the great show for which it forms a mammoth vestibule. The free street parade, a magnificent gratuitous spectacle, in thirty monster sections, which takes place at ten o'clock on the morning of next Saturday, June 10, and the brilliant introductory advertisement, "The Last Days of the Century," are the most resplendent spectacular displays ever organized.
