RICHES, DEATH AND DESOLATION

Goldseekers on Edmonton Trail Dying of Scoury and Cold.

ATTEMPT MADE TO GET FOOD

French Pete, the Discoverer of Treadwell Mines, is Missing from Frisco.

SEATTLE, June 27.—W. D. Doolittle, of Irvington, N. J., has arrived here after undergoing a series of fearful experiences during the past year. He was one of those unfortunate ones who attempted to enter the Alaskan gold fields over the Edmonton route. After an unsuccessful effort to get in he returned to Telegraph creek out of food and just able to make his wants known. Speaking of the scenes witnessed by him at Telegraph creek, he said:

"I have witnessed people coming in with hands and feet frozen, starving and suffering with scurvy, all telling the same story of hardship and suffering in the Liard country. A party of fourteen men was on its way to Telegraph creek. Five led to break a trail through the snow, and the other nine followed. A heavy snow storm came up and the nine behind became lost. No trace of them has since been found.

"A week before I left for Seattle men arrived from Teslin with the news that three men had been found dead in a cabin at Moose Lake. They all died from scurvy. They were two Allison brothers, of Kent, England, and Carter, of New Zealand. Nine hundred dollars was found in the cabin.

"The latter part of May, Porter, the government agent at Telegraph creek, sent in a relief party into the Liard district, consisting of two Indian guides and four white men. They had a scow load of provisions. It was reported just before I left that the scow had reached the district and distributed the food to the needy people, of whom there were about 500.

"I cannot describe the terrible suffering I endured on the trail, and it is a wonder to me that so many come out alive."

"French Pete" Missing.

SAN FRANCISCO, June 27.—P. E. Deville, the well-known Alaskan miner, commonly called "French Pete," the discoverer of the celebrated Treadwell mine near Juneau, has been missing since his arrival in this city a week ago last Sunday. He intended to go to the California hotel, where mail and other matters were waiting for him, but none of his friends have seen him since he landed, and a search for him has proved unavailing.

Would Not Suffer So Again for Fifty Times Its Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. WILSON, Liveryman, Burgettstown, Washington Co., Pa. This remedy is for sale by Blakeley & Houghton, Druggists.

Scheme for Smuggling In Chinese.

SAN FRANCISCO, June 27.—It has been discovered that two dies, similar to those used by the United States and British officials at Hong Kong in stamping the certificates of identification given to Chinese merchants and students, so

they may enter American ports, have been made in this city. The order for their execution was given to an engraver by two Chinese.

It is presumed the dies are to be used in stamping forged certificates to be used by Chinese not of the privileged classes. Collector Jackson says that no action can be taken in the matter until forgery is actually committed.

THE OLD WAY

Of Treating Dyspepsia and Indigestion by Dieting a Dangerous and Useless One.

We say the old way, but really it is a very common one at the present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others or to greatly diminish the quantity usually taken; in other words the starvation plan is supposed by many to be the first essential.

The almost certain failure of the starvation cure has been proven time and again, but still the moment dyspepsia makes its appearance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting to a man suffering from dyspepsia, because indigestion itself starves every organ, every nerve and every fibre in the body.

What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome well-cooked food, and something to assist the weak stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia; in other words the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digests it for him. In this way the system is nourished and the overworked stomach rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest 3,000 grains of meat or eggs.

Your druggist will tell you that Stuart's Tablets is the purest and safest remedy for stomach troubles and every trial makes one more friend for this excellent preparation. Sold at 50 cents for full sized package at all drug stores.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Ship Bringing Plague to America.

SAN FRANCISCO, June 27.—Information of the presence of the bubonic plague on the Nippon Maru, bound for this port and now in quarantine at Honolulu, has caused no alarm among the quarantine authorities here. There is no expectation that the disease will enter San Francisco. The federal system of quarantine has not yet been established at Honolulu, but there is a representative of this government attached to the American consulate there whose business it is to see that so far as this country is concerned the quarantine laws are properly enforced.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to all my friends.—F. A. BABCOCK, Erie, Pa. It is for sale by Blakeley & Houghton, Druggists.

A diseased stomach surely undermines health. It dulls the brain, kills energy, destroys the nervous system, and predisposes to insanity and fatal diseases. All dyspeptic troubles are quickly cured by Kodol Dyspepsia Cure. It has cured thousands of cases and is curing them every day. Its ingredients are such that it can't help curing. Snipes-Kinersly Drug Co.

Gun-shot wounds and powder-burns, cuts, bruises, sprains, wounds from rusty nails, insect stings and Ivy poisoning—quickly healed by DeWitt's Witch Hazel Salve. Positively prevents blood poisoning. Beware of counterfeits. DeWitt's is safe and sure. Snipes-Kinersly Drug Co.

PORTLAND WOULD BE A TERMINUS

Combination Would Have Boston, New York and Portland for Its Terminal, and Would Include Union Pacific and Oregon Short Line.

New York, June 27.—The Tribune says: The report that the New York Central has come to an agreement with the Boston & Albany railroad, by which the New York Central would lease the Boston & Albany for a term of 999 years and guarantee 8 per cent on the stock, was not a surprise either in railroad circles or in Wall street. That the lease is practically closed was confirmed from a trustworthy source yesterday.

From one of the most influential railroad officials of the Vanderbilt system, some facts were gleaned about the negotiations to secure control of the Boston & Albany. For more than two years William K. Vanderbilt and his friends have been working to get control of the Boston & Albany, as it is the Central's natural outlet to Boston for its western trains. About a year ago Dr. W. S. Webb, president of the Wagner Palace Car Company, started in to buy Boston & Albany stock. As this stock is largely dealt in in Boston, he authorized a Boston broker to buy all the stock he could find in the Boston market and did not stipulate a price, but said to get it.

In about ten days his broker sent word that he had secured something over a thousand shares and wanted to know if he should go ahead, as the price had gone up fifty points in these few sales. Then a stop was put to that. The stock was so closely held that many thought control could never be secured. Despite this, persistent work has been done, and is said to have been crowned with success.

The general opinion in Wall street, although no official confirmation of the transaction could be obtained, is in line with the information that the lease has virtually been effected and the view was taken that this New England arrangement would before long be followed by the long-talked-of extension of the New York Central system to the Pacific coast from its present western terminus in Chicago, by consolidation with the Chicago & Northwestern, the Union Pacific and the Oregon Short Line.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1. Trial bottle free at Blakeley & Houghton's drug store; every bottle guaranteed.

For the Fourth of July the O. R. & N. Co. will sell excursion tickets to any rail station within 300 miles from calling station at one fare for the round trip. Tickets on sale July 2nd, 3rd and 4th and will be good for return passage up to and including July 6th, 1899.
