Water Commissioners Meet.

Last night at 7 o'clock the following water commissioners met at the recorder's office: Messrs. Crossen, Bolton, Fish, Randall, Dufur, Fairman and Senfret, the latter presiding over the meeting.

On motion of Fish, the superintendent was authorized and directed to employ four men to immediately repair the water ditches and other property at the head of Mill creek, which were reported by the committee that visited them to be in a bad condition.

Yesterday morning a conference was held with Johns, of the lumbering company. It seems that the ten-years' lease of the flume for bringing the water to the city expired some months since, and the lumbering company now proposes to tax the city \$1000 a year for the use of the flume. It claims that we will be compelled to use the flume, as it can never be successfully brought down in any other manner. The matter will, however, be settled Thursday night at the meeting which was called for that date.

Bills were read and ordered paid as follows:
