

OREGON MEN GET BACK PAY

Thirty-Five Thousand Dollars Paid to the Regiment.

WANTED TO COME DIRECT

Volunteers Voted to Come to Portland, so Says the Report from Manila.

SAN FRANCISCO, July 15.—The Oregon men were paid off today. Privates each drew \$31.20, non-commissioned officers from \$228 for second lieutenants, to \$700 for the colonel himself. The enlisted men as a body became richer by a little more than \$35,000. All this is back pay. More money is coming to the Oregonians before they leave. The regiment will draw some \$32,000 as travel pay to cover the supposed expense of each man's transportation from San Francisco to his home. They will also receive pay for the time they are detained preparatory to final muster-out and honorable discharge.

Governor Geer and staff departed for home on the Oregon express tonight. Colonel Jocelyn and Major Morton will have charge of the mustering out of the Oregon volunteers, and the work will probably consume two or three weeks.

Freedom, an English newspaper published in Manila, published the following in its issue of May 30:

"The Oregonians have voted which route they prefer to take homeward, and where they would like to be mustered out. This action was taken in response to a cablegram recently received from their senator, McBride, at Washington.

"Previous to this, and while in the field, Colonel Summers had a cable from Senator McBride, asking whether he would like to return via San Francisco or Portland.

"The colonel replied, 'By way of San Francisco.' The sentiment of the men was then asked on the place of mustering out. The question went to a vote, resulting in favor of Portland by a slight majority.

"Colonel Summers at once cabled back, 'Muster out at Portland; any route direct.' Almost at the same time he received the following cable from Oregon City, Or., signed 'Parents': 'Avoid Pre-emptive winds; pneumonia. Come Oregon direct.'

"The rumor was afloat yesterday that the Oregonians had definite orders to go home. Colonel Summers says, however, that this is not true. While there is little doubt of their embarking upon the Hancock, that vessel is undergoing repairs which cannot be completed before the end of the week.

"The colonel has a horse to which he has become much attached during the campaign, and which he is making every effort to take home with him. The animal is a capture, having formerly belonged to a Spanish captain of artillery."

MORGAN TO HEAD TICKET

Talk of Displacing Bryan With the Alabama Senator.

WASHINGTON, July 15.—Senator Scott, of West Virginia, who has recently returned from the Pacific coast, says that there is a great deal of talk of Senator Morgan of Alabama for president on the democratic ticket. Those democrats who desire to unload Bryan think Morgan would be the most available, and are especially impressed with him because of his championship of the Nicaragua canal and expansion and his Americanism. Morgan would be opposed by the silver-

ites because he wants to make that a secondary issue, and by the anti-expansionists in the democratic party. If he was a younger man he might be considered a possibility, but few men are nominated for president after reaching the age of 75.

Ex-Senator Dubois, of Idaho, says it is too late for either party to make a change in candidates, and that McKinley and Bryan will face each other as they did three years ago. He predicts that the silver candidate will have more votes than he did in 1896, but he does not predict his election.

Story of a Slave.
To be bound hand and foot for years by the chains of disease is the worst form of slavery. Geo. D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by Blakeley and Houghton, druggists. 6

Killed by a Bull.
SPOKANE, July 15.—Fred Harvey, nineteen years old, son of J. F. Harvey, was gored to death by a bull yesterday on a farm about eleven miles from Spokane. The boy's body was found in a clump of bushes by his father. The lad had crawled to a tree, pulled himself to a half-reclining position and died in that attitude. No one saw the bull's savage attack, and young Harvey was not missed until supper-time.

Remarkable Rescue.
Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued to use and after taking six bottles found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottle of this Great Discovery at Blakeley & Houghton's drug store. Only 50 cents and \$1. Every bottle guaranteed. 6

Grain Crop Will Be Small.
SPOKANE, July 15.—Reports from the principal agricultural towns in Eastern Washington and Northern Idaho show that the acreage of ground sowed to wheat this year is larger than in 1898. The reports also show that the crop of wheat will be smaller by one-third, as compared with the former year. The fruit crop will also be reduced fully one-third, owing to the late spring. In some sections the crop is a failure.

ONE VOLUNTEER IS HOME

Left His Company to See His Dying Mother.

ALBANY, Or., July 15.—Frank M. Girard, a member of company I, Oregon volunteers, arrived here today from San Francisco. He came in violation of orders, but in a manner which will arouse sympathy in his behalf.

On reaching San Francisco harbor, while still on shipboard he received a telegram announcing that his mother, who resides near Monmouth, was dying, and asking him to come at once. He applied to the officer for a furlough, offering the telegram as the reason, but it was refused. By the aid of sympathetic comrades he was let down by a rope into a small boat and went ashore, taking the train at once for Albany. He hired a team and driver here and hurried to his home. After remaining at his mother's bedside a few minutes, he came out weeping and said she was yet alive, but very low. He told the driver that he would return to his regiment in a few days.

He is a young man of unquestioned veracity, and has been one of the best soldiers in his company. Influential friends will endeavor to secure his release from the charge of desertion.

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy was kept on hand and administered at the inception of an attack, much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by Blakeley & Houghton, Druggists.

Wireless Telegraphy.

CHICAGO, July 15.—A Tribune special from Victoria says: Marconi's system of wireless telegraphy is to be put in operation in Hawaii as a means of communication between the different islands of the group. An organization has been formed, capital has been subscribed, and some of the material for the system is already on the way.

An Epidemic of Diarrhoea.
Mr. A. Sanders, writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Cholera, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by Blakeley & Houghton Druggists.

DeWitt's Little Early Risers expel from the system all poisonous accumulations, regulate the stomach, bowels and liver, and purify the blood. They drive away disease, dissipate melancholy and give health and vigor for the daily routine. Do no gripe or sicken. Butler Drug Co.

POLITICS IN THE ARMY

Senators and Representatives Dictated Appointments.

FUTURE OF THE VOLUNTEERS

Intention Is to Merge the Twelve Regiments Into the Regular Service.

WASHINGTON, July 15.—The appointments in the volunteer army have been made, with very few exceptions, upon the recommendation of the men who control the political patronage in the different states. The restrictions made in regard to the appointments were that the men should have creditable records in either the regular or volunteer army. Few men have been appointed who have not got recommendation of their senators and representatives, the Republicans controlling the appointments in Republican states and Democrats in Democratic states.

It is believed that this volunteer army will be made a part of the regular army during the coming congress, for the appointments have been numbered with that end in view. Unless legislation continuing it as a volunteer army or merging it into the regular army is passed, it would cease to exist, under the law, in July, 1901. The influence which secured the selection of the officers will be called to pass the legislation constituting it a part of the regular service. It is also observed that sons and nephews have been given places in this army, but not to such an extent as in the staff appointments when the army was raised for the war with Spain.
