PEOPLE YOU ALL KNOW.

Miss Carrie Butler has returned from a visit in camp at Cascades.
L. E. Crowe made a trip to Portland yesterday afternoon.
Mr. and Mrs. W. A. Johnston are spending a few days in Portland.
Gov. A. H. Burke is in the city inspecting the land office at this place.
Miss Daley Deane left yesterday to spend some time in camp at Cascades.
Mrs. J. M. Filoon and son returned last night from a week's stay in Portland.
Miss Effie Davis went down to Hood River this morning to visit with her sister.
Mrs. H. Gourlay and Miss Tessie Kelly left this morning to spend their vacation at Ocean Park.
Mrs. J. C. O'Leary and daughter, Miss Edith, were passengers on the boat this morning for Portland.
Mr. and Mrs. K. F. McKee, who have been guests at the home of J. T. Peters, left today for their home at Dayville.
Lily Blazen, who has been visiting at the home of E. I. Beck, returned yesterday to Portland, accompanied by Esther Beck.
W. S. Byers, of the Goldendale Sentinel, is in the city today on his way to Portland to participate in the reception given to the boys.
H. Purdon, who has filled the position of night operator at the O. R. & N. office during Mr. Swart's absence, will leave today for Athens.
The family of Rev. J. H. Wood left this morning to join the campers at Stevenson, where they will remain until it is decided where Mr. Wood will be stationed for the next year.
G. T. Parr, of the Eastern Oregon Land Co., left this afternoon for Portland, where he will meet his family and accompany them to this city. They will occupy the Magee house on Fourth street.

Dr. C. H. Meisenbach, of St. Louis, an old friend of Dr. Geisendorfer, came up from Portland last evening and remained over until this morning with him. They have not seen each other for over nine years and the hours were most pleasantly spent.
Mr. H. S. Mason, of Des Moines, Iowa, has spent today in The Dalles looking about the city, and although he has been unfortunate in encountering one of our heavy wind storms, he is much pleased with the surroundings. Mr. Mason has traveled a great deal, and his verdict is that the scenery coming up the Columbia is ahead of anything he has yet seen.
H. W. Swart, the Grover Cleveland of the O. R. & N. office here, returned yesterday from a fishing trip, not to Gray Gables, but Bingham Springs. "Grover" reports fishing fine in the streams about Bingham, and says that not only the "speckled" beauties, but other beauties were so much in evidence as to convert him into a protectionist. To say the least he was in the swim.
Miss Annie Coffin, who formerly lived in The Dalles, and has also taught school in several districts near here, came up from Seattle Friday evening and after visiting friends here, left this morning to return home. For the past ten years she has been a successful teacher in the Seattle schools, and feeling a longing to see The Dalles and her friends here, made a short trip to her old home. She expresses herself as much pleased with the improvements in the city.

Teachers' Examination.

Notice is hereby given that for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof will hold a public examination at the court house in The Dalles, Oregon, beginning at 9 o'clock a. m. Wednesday, August 9, 1899.
Dated this 29th day of July, 1899.
C. L. GILBERT,

NOTICE.

Notice is hereby given that the city council of Dalles City has determined to establish a sewer system for all that portion of said city lying below the bluff and east of Lincoln city block, and has further determined that the cost of sewer system shall be assessed against the property benefited thereby.
Said sewer system is to be of terra cotta pipe and the extent and location thereof to be as follows:
The main line of said sewer system shall extend from the low water line of the Columbia river, where the east margin of the mouth of Millcreek at said low water strikes said river, thence along the east bank of said Millcreek 60 feet to a stake under the north treble of the Oregon Railroad & Navigation Company's railroad, thence at a right deflection of 10 degrees and 30 minutes from the course last pursued 125-10 feet to a stake 9-15-100 feet north of the northwest corner of the stone wall bounding the E. M. Wilson property; thence at a left deflection from the course just described, 70 degrees and 33 minutes to a point on the west line of Union street, 126 feet north of second street; thence crossing Union street to the center of the alley between Second and Main from Union to Laughlin street; thence continuing in a straight line on the same course across Laughlin street, to a point on the east line of said street, 125 feet north of second street; thence continuing in a straight line on the same course, across block 8, Laughlin's addition to Dalles City, 300 feet, to Jefferson street, on a line 125 feet from, and parallel to, second street; thence at a right deflection from the course last described, 10 degrees and 30 minutes, 110-17-100 feet, to a stake; thence at a right deflection from the line last described 27 degrees and 29 minutes, 110-4-100 feet to a stake; thence at a left deflection from the line last described 17-82-100 feet from the southeast corner of the lawn fence west of the O. R. & N. Co.'s depot; thence at a left deflection from said line 14 degrees and 44 minutes, 46-9-10 feet to a point on the west line of Monroe street 120 feet north of second street and 5-7-100 feet north of the north-west corner of Moody's brick warehouse; thence continuing in a straight line on the course last described 130-87-100 feet to a point 6 feet north of the north-east corner of Moody's wooden warehouse 122-5-10 feet north of second street and 70 feet east of Monroe street; thence at a right deflection from the last line 7-02, 266-35-100 feet, to a stake in Taylor street, 29-6-10 feet north of second street and 46-75-100 feet west of the west end of the Wasco warehouse.
A branch of said sewer system shall connect with the main line in Union street, 20 feet from the west line of said street, at a point 128 feet east of second street; thence at a right deflection from the main line in Union street, 20 feet from the west line of said street, to a point 20 feet south of the north line of Tenth street.
Another branch line of said sewer system shall commence in the center of the alley between Second and Third streets, at a point 20 feet west of the east line of Lincoln city block, and run thence along the center of said alley to a

point 200 feet east of the east line of Court street, connecting with the branch of said sewer system running up Union street heretofore described, from the east and west, by convenient curves of about a twenty-foot radius.
Also a branch of said sewer system commencing in the center of the alley between Second and Third streets, on the east line of Washington street, and running thence easterly along the center of said alley, to a point where the center of said alley intersects with the present sewer of Max Vogt & Co., where it crosses said alley. Thence northerly and easterly along the line of said sewer as it is now located, to the point where said sewer intersects the main line of the sewer heretofore described, at a point where the main line of said sewer crosses Federal street, between second and Third streets.

Also a branch line of said sewer system, commencing at a point in the center of said alley between Second and Third streets, 100 feet east of Federal street, and running thence along the center of said alley, to the west line of Laughlin street; and thence connecting with the Laughlin street sewer by a left curve of about a 20-foot radius, in said Laughlin street.
Also a branch line of said sewer system, commencing at a point on the east line of Monroe street, 20 feet north of the south line of Third street, running thence westerly, parallel to the south line of Third street, and from said point to a point 40 feet east of the east line of Madison street; thence curving to the right with a curve of about a 20-foot radius, to a point in said alley, to connect with the west line of Madison street, 20 feet from the west line of said Madison street; thence northerly along said Madison street on a line parallel with the west line of said street, to a point 20 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a 20-foot radius, to a point where the west line of Madison street intersects the center line of said alley between second and Third streets; thence in a westerly direction along the center line of said alley to a point 20 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a 20-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.
Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Monroe street, running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Monroe street, thence deflecting to the right by a curve of about a 20-foot radius, to a point opposite the north line of the alley between said Second and Third streets, and 20 feet east of the west line of Monroe street; thence in a northerly direction, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

The Busy Store.

Each day our business shows the people are finding out we are pushing to the front with better goods, lower prices, salespeople the very best, and last, but not least, buyers who know their business and buy for the people.

ST. MARY'S ACADEMY.

Under the direction of the Sisters of the Holy Name of Jesus and Mary.
THE DALLES, - - OR.
This Institution is pleasantly situated near the Columbia on the line of the Union Pacific; thence it is easy of access for all those who desire to secure a comfortable home and a progressive seat of learning for their daughters or wards. The location of the Academy is one of the most healthy on the Pacific slope, this portion of Oregon being proverbial for its pure water, bracing air and picturesque scenery. The Academy is incorporated and authorized by the state to confer Academic honors.
Board and tuition per scholastic year \$160. Studies will be resumed Tuesday, September 19th. For detailed information apply to the sister superior.

How About Your Title?

ARE YOU SURE it is all right? Remember it is the RECORD that governs. It is our business to search the records and show what they contain in relation to land titles. If you contemplate buying land or loaning money on real estate security, take no man's word, but insist upon knowing what the record shows regarding the title. An Abstract is as essential as a deed. Insist on having it. We have the only set of Abstract Books in the County. All work promptly executed and satisfaction guaranteed. If you have property to insure, give us a call. We are agents for four of the best fire insurance companies in the world. If you have property for sale, list it with us and we'll find a buyer.
