**PEOPLE YOU ALL KNOW.**

Carey Ballard is home again from his camping trip.  
 Wm. Templeton, of John Day, is registered at the Umatilla.  
 C. A. Crabtree and L. Hammond came in from Tygh on business yesterday.  
 Mrs. O. Kinersly and family returned last evening from camp at Stevenson.  
 Hon. John Somerville and family arrived from Hay Creek yesterday and will make their home in The Dalles.  
 Mrs. S. H. Nye, accompanied by Mrs. M. Merriweather, arrived last night, on their way from California to Prineville, the home of the former.

Miss Josie Jenkins was a returning passenger from Stevenson last evening, where she has been camping with the family of her uncle, S. Bolton.  
 W. H. Moore and W. Ragsdale, citizens of Moro, came down from that place yesterday on their way to join their families at Wind River.

Mr. and Mrs. A. R. Thompson and family, Mr. and Mrs. J. M. Huntington and family and Mr. and Mrs. Gifford returned on the boat last night, having spent the past month in camp about twelve miles from Hood River.

**Rates for G. A. R. Encampment.**

For the G. A. R. National encampment at Philadelphia, Pa., to be held Sept. 4th-9th the O. R. & N. Co. will make a round trip rate from The Dalles of \$88.85, tickets on sale August 29th and 30th only. Tickets will be good for return passage until Oct. 31st, stop-overs being allowed west of the Missouri river. The tickets between Philadelphia and Chicago will not be good for return passage after Sept. 12th, except that arrangement can be made at Philadelphia between the dates of Sept. 5th-9th upon the payment of 50 cents and deposit of ticket with agent at Philadelphia to have the ticket between Philadelphia and Chicago extended to Sept. 30th. Call on Jas. Ireland, Agent, The Dalles, for further information. aug 15d

**DISSOLUTION OF PARTNERSHIP.**

Notice is hereby given that the partnership heretofore existing between P. G. Dant and S. D. Stouffer under the firm name and style of The Dant Optical and Jewelry Company has this day been dissolved. P. G. Dant will continue the business, collect all debts due the firm and pay all bills owing by them, the said S. D. Stouffer hereby retiring therefrom. Dated this 14th day of August, 1899.

 Clinton & Jackson Bldg., CHICAGO, ILL.  
 Sold by Blakeley & Houghton, The Dalles, Oregon.

## NOTICE.

Notice is hereby given that the city council of Dalles City has determined to establish a sewer system for all that portion of said city lying below the bluff and east of Lincoln street, and has further determined that the cost of such sewer system shall be assessed against the property benefited thereby.

Said sewer system is to be of terra cotta pipe and the extent and location thereof to be as follows:

The main line of said sewer system shall extend from the low water line of the Columbia river, where the east margin of the mouth of Mill creek at said low water strikes said river, thence along the east bank of said Mill creek 600 feet to a stake under the north trestle of the Oregon Railroad & Navigation Company's railway, thence along the course last pursued 181-3-10 feet to a stake 9-15-100 feet north of the northwest corner of the stone wall bounding the 24 Wilson property; thence at a left deflection from the course just described, 74 degrees and 33 minutes 12 feet to a point on the west line of Union street, 126 feet north of second street; thence along the east line of said street to the center of the alley between Second and Main streets, thence along the center of said alley, from Union to Laughlin street; thence continuing in a straight line on the same course, across 10th & 8th, Laughlin's addition to Dalles City, 300 feet, to Jefferson street, on a line 128 feet from, and parallel to, Second street; thence continuing on said straight line, to a point 100 feet east of the west line of Jefferson street and 128 feet north of Second street; thence at a right deflection from the course last described, 31 degrees and 23 minutes, 81-5-100 feet, to a stake 2 feet west of the east line of Jefferson street; thence at a right deflection from the course last described, 23 degrees and 13 minutes, 116-17-100 feet, to a stake; thence at a right deflection from the line last described, 27 degrees and 29 minutes 110-4-100 feet to a stake 17-19 feet north of the corner of the lawn fence west of the O. R. & N. Co.'s depot; thence at a left deflection from said line 14 degrees and 41 minutes, 45-3-10 feet to a point on the east line of Fourth street 129 feet north of Second street and 87-100 feet north of the northwest corner of Moody's brick warehouse; thence continuing in a straight line on the course last described, to a point 100 feet east of the west line of Madison street, 296-36-100 feet, to a stake in Taylor street, 89-6-10 feet north of Second street and 46-75-100 feet west of the west end of the Wasco warehouse.

A branch of said sewer system shall connect with the main line in Union street, 29 feet from the west line of said street, at a point 128 feet north of Second street, and shall run along said Union street 20 feet east of the west line thereof, to a point 20 feet south of the north line of Tenth street.

Another branch line of said sewer system shall commence in the center of the alley between Second and Third streets, at a point 49 feet west of the east line of Lincoln street, and run thence along the center of said alley to a point 200 feet east of the east line of Court street, thence along the center of said alley, by convenient curves of about a twenty-foot radius.

Also a branch of said sewer system commencing in the center of the alley between Second and Third streets, on the east line of Washington street, and running thence easterly along the center of said alley, to a point where the center of said alley intersects with the center of sewer of Max Vegt & Co., where it crosses said alley. Thence northerly and easterly along the line of said sewer, to a point 20 feet east of the center of said alley, where the main line of said sewer crosses Federal street, and thence continuing with the center of said alley, by convenient curves of about a twenty-foot radius, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 103 feet east of Federal street, and running thence along the center of said alley, by convenient curves of about a twenty-foot radius, to a point 20 feet north of the south line of Third street, running thence westerly, parallel to the south line of Third street, and 29 feet from said south line to a point 49 feet west of the east line of Madison street; thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Second and Third streets, 200 feet east of the east line of Madison street, running thence in a westerly direction along the center of said alley to a point 30 feet west of the east line of Madison street, thence curving to the right with a curve of about a twenty-foot radius, to a point 20 feet east of the west line of Madison street, and 29 feet south of the center line of the alley between Second and Third streets; thence deflecting to the left by a curve of about a twenty-foot radius, to a point where the west line of Madison street intersects the center line of said alley between Second and Third streets; thence in a westerly direction, parallel with the west line of Madison street, 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about a twenty-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

mening in the center of the alley (or Sixth St.) south of block 11, at a point where the west line of Washington street crosses said alley, thence westerly along the center of said alley to a point 38 feet west of the east line of Court street; thence by a convenient curve to the right, of about a 20-foot radius, to a point 20 feet east of the west line of Court street; thence in a northerly direction parallel with the west line of Court street to the south line of Fourth street; thence by a curve to the left, of about a 20-foot radius, to a point on the west line of Court street, 29 feet north of the south line of Fourth street; thence westerly along Fourth street, parallel with the south line of said Fourth street, to a point 29 feet west of the east line of Union street; thence connecting by a convenient curve to the right, of about a 20-foot radius, with the branch line of said sewer system running along Union st.

Also a branch line of said sewer system, commencing at a point opposite the center of the alley between Fourth and Fifth streets, 29 feet east of the west line of Washington street, and running thence in a westerly direction along the center of said alley to a point 38 feet west of the east line of Court street; thence by a convenient curve to the right, of about a 20-foot radius, to connect with the branch of said sewer system running along Court street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Fourth and Fifth streets, at a point 200 feet east of the east line of Liberty street, running thence in a westerly direction along the line of the center of said alley, to a point 30 feet west of the east line of Liberty street; thence by a curve to the right of about a 20-foot radius, to connect with the branch of said sewer system running along Court street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between Fourth and Fifth streets, at a point 200 feet east of the east line of Liberty street, running thence in a westerly direction along the line of the center of said alley, to a point 30 feet west of the east line of Liberty street; thence by a curve to the right of about a 20-foot radius, to connect with the branch of said sewer system running along Court street.

Also a branch line of said sewer system, commencing at a point in the center of the alley north of Main street and 50 feet west of Washington street, thence running along the center of said alley, to a point 30 feet west of the east line of Union street; thence connecting with the main sewer system near the bank of Mill creek, by a curve to the right of about a 25-foot radius.

Also a branch line of said sewer system, commencing at a point in Fourth street, 254 feet west of the west line of Liberty street, and 20 feet north of the south line of Fourth street, running thence in an easterly direction along Fourth street, parallel with the south line of said street to the west line of Liberty street; thence by a convenient curve to the left of about a 20-foot radius, to connect with the branch of said sewer system running up and down Liberty street, at the crossing of said Fourth and Liberty streets.

This notice is published by order of said City Council, made on August 31, 1899.  
 NED H. GATES,  
 Mayor. Recorder of Dalles City.

## How About Your Title?

ARE YOU SURE it is all right? Remember it is the RECORD that governs. It is our business to search the records and show what they contain in relation to land titles. If you contemplate buying land or loaning money on real estate security, take no man's word, but insist upon knowing what the record shows regarding the title. An Abstract is as essential as a deed. Insist on having it. We have the only set of Abstract Books in the County. All work promptly executed and satisfaction guaranteed. If you have property to insure, give us a call. We are agents for four of the best fire insurance companies in the world. If you have property for sale, list it with us and we'll find a buyer.
