Quickly cure constipation and rebuild and invigorate the entire system, never gripe or nauseate—Dewitt's Little Early Risers. Butler Drug Co.

To Cleanse the System

Effectually yet gently, when costive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or awakening them, to dispel headaches, colds or fevers, use Syrup of Figs, made by California Fig Syrup Co.

Kodol Dyspepsia Cure thoroughly digests food without aid from the stomach and at the same time heals and restores the diseased digestive organs. It is the only remedy that does both of these things and can be relied upon to permanently cure dyspepsia. Butler Drug Co.

"Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse, until we used One Minute Cough Cure.—It relieved at once and cured her in a few days." B. L. Nance, Co.

Hamilton Clark, of Chaucey, Ga., says he suffered with itching piles twenty years before trying DeWitt's Witch Hazel Salve, two boxes of which completely cured him. Beware of worthless and dangerous counterfeits. Butler Drug Co.

Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y.

"DeWitt's Little Early Risers did me more good than all blood medicines and other pills," writes Geo. H. Jacobs, of Thompson, Conn. Prompt, pleasant, never gripe,—they cure constipation, arouse the torpid liver to action and give you clean blood, steady nerves, a clear brain and a healthy appetite. Butler Drug Co.

NOTICE.

Notice is hereby given that the city council of Dalles City has determined to establish a sewer system for that portion of said city lying below the bluff and east of Lincoln street, and has further determined that the cost of such sewer system shall be assessed against the property benefited thereby.

Said sewer system is to be of terra cotta pipe and the extent and location thereof to be as follows:

The main line of said sewer system shall extend from the low water line of the Columbia river to the center of the north line of Mill creek at said low water strikes, said river; thence along the east bank of said Mill creek 650 feet to a stake under the north side of the Oregon Road & Navigation Company's railroad; thence at a right deflection of 10 degrees north 10 minutes from the course last pursued 150 feet to a stake 9-15-100 feet north of the northwest corner of the stone wall bounding the E. M. Wilson property; thence at a left deflection from the course just described, 70 degrees and 27 minutes to a point on the west line of Union street, 136 feet north of second street; thence crossing Union street to the center of the alley between second and Main streets, and running thence easterly along the center of said alley to a point on the east line of Laughlin street; thence continuing in a straight line on the same course across Laughlin street, to a point on the east line of said street 125 feet north of second street; thence continuing in a straight line on the same course, across block 8, Laughlin's addition to Dalles City, 380 feet, to Jefferson street, on a line 125 feet from said parallel to second street; thence continuing on said straight line, in the same course, 10 feet into Jefferson street to a point 10 feet east of the west line of Jefferson street and 125 feet north of second street. Thence at a left deflection from the line last described, 34 degrees and 25 minutes, 81-9-100 feet to a stake 2 feet west of the east line of Jefferson street; thence at a right deflection from the line last described 23 degrees and 15 minutes, 116-17-100 feet, to a stake; thence at a right deflection from the line last described 27 degrees and 29 minutes, 110-4-100 feet to a stake 17-82-100 feet from the southeast corner of the lawn fence west of the O. R. & N. Co.'s depot; thence at a right deflection of 11 degrees and 41 minutes, 45-9-10 feet to a point on the west line of Monroe street 129 feet north of second street and 5-7-100 feet north of the north-west corner of Moody's wooden warehouse; thence continuing in a straight line on the course last described 150-87-100 feet to a point 6 feet north of the north-east corner of Moody's wooden warehouse; thence at a right deflection from the line last described, 70 degrees and 27 minutes, 256-25-100 feet, to a stake in Taylor street, 25-6-10 feet north of second street and 75-10 feet west of the west end of the Wasco warehouse.

A branch of said sewer system shall connect with the main line in Union street, 20 feet from the west line of said street, at a point 125 feet from the north line of said street, and shall run along Union street 20 feet east of the west line thereof, to a point 20 feet south of the north line of Tenth street.

Another branch line of said sewer system shall commence at the center of the alley between second and Third streets, at a point 40 feet west of the east line of Lincoln street, and run thence along the center of said alley to a point 20 feet east of the east line of Court street, connecting with the branch of said sewer system running up Union street heretofore described, from the east and west, by convenient curves at about a twenty-foot radius.

Also a branch of said sewer system commencing in the center of the alley between second and Third streets, on the east line of Washington street, and running thence easterly along the center of said alley to a point where the center of said alley intersects with the present sewer of Max Vag & Co., where it crosses said alley, thence northerly along the center of said alley to a sewer as it is now located, to the point where said sewer intersects the main line of the sewer heretofore described, at a point 20 feet east of the east line of Federal street, between second and Third.

Also a branch line of said sewer system, commencing at a point in the center of said alley between second and Third streets, 10 feet east of the east line of Lincoln street, and running thence along the center of said alley to the center of said alley to the west line of Laughlin street; thence connecting with the branch of said sewer system running up Union street heretofore described, from the east and west, by convenient curves at about a twenty-foot radius.

Also a branch line of said sewer system, commencing at a point on the east line of Monroe street, 20 feet north of the south line of Third street, running thence westerly, parallel to the south line of Third street, to a point 20 feet south of the east line of Madison street; thence curving to the right with a curve of about 20-foot radius, to a point on the west line of Madison street; thence northerly along said Madison street on a line parallel with the west line of said street, to a point 20 feet west of the center line of the alley between second and Third streets; thence deflecting to the left by a curve of about 20-foot radius, to a point where the west line of Madison street intersects the center line of said alley between second and Third streets; thence in a westerly direction along the center of said alley to a point 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about 20-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at a point in the center of the alley between second and Third streets, 10 feet east of the east line of Monroe street, and running thence in a westerly direction along the center of said alley to a point 40 feet west of the east line of Third street; thence deflecting to the right by a curve of about 20-foot radius, to a point on the west line of Third street; thence northerly along said Third street, to a point 20 feet west of the center line of the alley between second and Third streets; thence deflecting to the left by a curve of about 20-foot radius, to a point where the west line of Madison street intersects the center line of said alley between second and Third streets; thence in a westerly direction along the center of said alley to a point 10 feet west of the east line of Laughlin street; thence deflecting to the right by a curve of about 20-foot radius, to connect with the branch of said sewer system running up Laughlin street, in said Laughlin street.

Also a branch line of said sewer system, commencing at the west line of Jefferson street, 20 feet north of the south line of Fourth street, and running thence westerly parallel with the west line of Fourth street, to a point 20 feet west of the east line of Laughlin street; thence by a curve to the right of about 20-foot radius, to a point 20 feet east of the west line of Laughlin street and 20 feet south of the north line of Fourth street; thence northerly, parallel with the west line of Laughlin street, to connect with the main line of said sewer system heretofore described, by a curve to the left of about 20-foot radius, where said main line of said sewer system crosses Laughlin street at the alley between second and Main streets.

Also a branch line of said sewer system, commencing at a point 120 feet south of the north line of Fifth street and 20 feet east of the west line of Liberty street, thence running easterly parallel with said west line of said street, in a northerly direction, to connect with the main line of said sewer system heretofore described, by a convenient curve to the right, where said alley sewer crosses Liberty street.

Also a branch line of said sewer system, commencing in the center of the alley between Third and Fourth streets, 20 feet east of the east line of Washington street, and running thence along the center of said alley to a point 20 feet east of Jefferson street, and connecting with the branch of said sewer system running along Laughlin street, by convenient curves of about 20-foot radius, at a point where said alley crosses said Laughlin street.

Also a branch line of said sewer system, commencing in the center of the alley between Third and Fourth streets, at a point 50 feet east of the east line of Washington street, and running thence along the center of said alley to a point 20 feet east of Jefferson street, and connecting with the branch of said sewer system running along Laughlin street, by convenient curves of about 20-foot radius, at a point where said alley crosses said Laughlin street.

Also a branch line of said sewer system, commencing at a point 20 feet north of the south line of Fourth street and 50 feet east of the east line of Washington street, running thence in a westerly direction parallel with said south line of Fourth street, to connect by a convenient curve to the left, of about 20-foot radius, with the Laughlin-street branch of said sewer system, at the crossing of Fourth and Laughlin streets.

Also a branch line of said sewer system, commencing at a point 20 feet north of the south line of Fourth street and 50 feet east of the east line of Washington street, running thence in a westerly direction parallel with said south line of Fourth street, to connect by a convenient curve to the left, of about 20-foot radius, with the Laughlin-street branch of said sewer system, at the crossing of Fourth and Laughlin streets.

encing in the center of the alley (or Sixth St.) south of block 11, at a point where the west line of Washington street crosses said alley; thence westerly along the center of said alley to a point 20 feet west of the east line of Court street; thence by a convenient curve to the right of about 20-foot radius to a point 20 feet east of the west line of Court street; thence in a northerly direction parallel with the west line of Court street to the south line of Fourth street; thence by a curve to the left, of about 20-foot radius, to a point on the west line of Court street, 20 feet north of the south line of Fourth street; thence westerly along Fourth street, parallel with the south line of said Fourth street, to a point 20 feet west of the east line of Union street; thence crossing by a convenient curve to the right, of about 20-foot radius, with the branch line of said sewer system running along Union st.

Also a branch line of said sewer system, commencing at a point opposite the center of the alley between Fourth and Fifth streets, 20 feet east of the west line of Washington street, and running thence in a westerly direction along the center of said alley to a point 20 feet west of the east line of Court street; thence by a convenient curve to the right of about 20-foot radius, to connect with the branch of said sewer system running along Court street.

Also a branch line of said sewer system, commencing at a point 20 feet north of the south line of Fifth street, and 120 feet west of the west line of Court street, running thence in a westerly direction along the center of said alley to a point 20 feet west of the east line of Court street; thence by a convenient curve to the right of about 20-foot radius, to connect with the branch of said sewer system running along Court street.

Also a branch line of said sewer system, commencing at the center of the alley between Fourth and Fifth streets, at a point 200 feet east of the east line of Liberty street, running thence in a westerly direction along the line of the center of said alley, to a point 20 feet west of the east line of Liberty street; thence by a curve to the right of about 20-foot radius, to connect with the Liberty-street branch of the said sewer system.

Also a branch line of said sewer system, commencing at the center of the alley north of the main street at 50 feet east of Washington st., thence running along the center of said alley to a point 30 feet west of Union street; thence connecting with the main sewer system near the bank of Mill creek, by a curve to the right of about 25-foot radius.

Also a branch line of said sewer system, commencing at a point in Fourth street, 250 feet west of the west line of Liberty street, and 20 feet north of the south line of Fourth street, running thence in an easterly direction along Fourth street, parallel with the south line of said street to the west line of Liberty street; thence by a convenient curve to the left of about 20-foot radius, to connect with the branch of said sewer system running up and down Liberty street, at the crossing of said Fourth and Liberty streets.

This notice is published by order of said City Council, made on August 15th, 1891.
 NED H. GATES,
 Recorder of Dalles City.

How About Your Title?

ARE YOU SURE it is all right? Remember it is the RECORD that governs. It is our business to search the records and show what they contain in relation to land titles. If you contemplate buying land or loaning money on real estate security, take no man's word, but insist upon knowing what the record shows regarding the title. An Abstract is an essential as a deed. Insist on having it. We have the only set of Abstract Books in the County. All work promptly executed and satisfaction guaranteed. If you have property to insure, give us a call. We are agents for four of the best fire insurance companies in the world. If you have property for sale, list it with us and we'll find a buyer.
