For fresh oysters go to A. Keller's. It is now thought the Regulator will be ready to make her usual run on Saturday.

A Dalles bachelor was heard to remark yesterday: "When you make a present to a woman always leave the cost tag on; it will save her a trip down town."

It's pretty nearly time to start for the mountains and the seaside again. Summer this year is a fitful one, and there is no doubt but that we will yet have warm weather.

From Dalles people who visited Chas. Johnson at the Good Samaritan hospital in Portland, we learn that he is improving. Last Monday an operation was performed and every indication points to the best of results.

It is reported that there are eight cases of smallpox at the pest house five miles from Pendleton, but we are always inclined to take such reports with more than a grain of allowance, and at the same time hope they are only rumors.

A musical meeting will be given at the Salvation army Saturday evening,

September 2nd. After the meeting ice cream and cake will be served, the object being to meet all local expenses. A cordial invitation is extended to all.

Miss Hattie Marden, who has recently returned from Washington, D. C., where she pursued her studies in art, is now prepared to take pupils in drawing and oil painting. She may be found at her home on West Fourth street. 28-1w

B. F. Brewster, the veterinary surgeon who was badly injured by being kicked by a horse last week, has been taken to the county poor farm, where he can receive good care and the attention which is necessary in such a case, he being unable to care for himself.

Large bill boards have been placed on the Chapman building on Washington street and the alley at the side of Dawson's store, and will be used exclusively to advertise the Vogt opera house. While they are not an ornament, they will be a splendid means to the end in view.

So popular and successful were the dances given by Smith Bros. during the winter, and so favorable the weather at this time for that particular pastime, that they have decided to give a party next Saturday evening at the K. of P. hall. Those who frequent these dances will be pleased to have an opportunity of attending.

Judge Cate has decided in the Zan case that neither party is entitled to the exclusive control of the child, over which, it seems, the whole difficulty has been caused. Otherwise they would have secured a divorce and been happy. The public has decided ere this that neither parent is a fit person to bring up a child, else for the sake of their child they would have avoided such newspaper notoriety.

And now that our smallpox friend, Shutt, has fully recovered he is called upon to endure the torture of being the butt of various newspaper punsters, who say his was a remarkable case, that while he was Shutt in, he broke out, and now that he has ceased to break out, he's Shutt out; and when he told them to Shutt up they called him a scab printer and said his sign indicated a yellow journal. Such treatment is anything but fraternal.

Oyster dealers here are somewhat excited on account of the Morgan Oyster Company, of San Francisco, having secured nearly the entire output of oysters at Shoalwater bay, paying, it is said, \$2.50 per sack for them, and furnishing the sacks required. Some dealers here have contracts with Shoalwater bay oystermen for their supply, or for a certain amount, but it is feared that oysters will be scarce here. There are

some oysters to be procured from Olympia for this market, but they are not considered so good as those from Shoalwater bay, which is practically the only oyster-producing point on this coast.—Oregonian.

The American people are great at "biting" at anything that has the semblance of mystery. A traveling show was on the corner Third and Main yesterday afternoon. In a box were a snake charmer and dozens of snakes. A continuous performance was given, and every ten minutes the "charmer" ate a snake about two feet long. Figure out how many snakes were eaten during the afternoon. Everyone who saw the delusion believes the charmer ate the snakes, but no one stopped to think where the supply was coming from to feed this snake eating person. The scheme is a money making scheme for the owner of the snakes and the people flocked to see the wonderful sight of hand performer.—W. W. Union.

H. R. Cory, representing the "Midnight Bell" company, is in town today making the necessary arrangements for the engagement of his company at the Vogt Monday night. They are drawing crowded houses in Portland, and Sunday night it was necessary to stop the sale of tickets, such a reception did they receive. The CHRONICLE has many times decided never to commit itself regarding any company which is to play in the city, giving only the notices which are brought to us as advertisements. However, in this case we almost feel like vouching for its merit, so complimentary have all the notices been regarding it, and at the same time feeling our people are desirous of seeing everything good which visits our city.

CANNOT COME WEST.

Captain Clark Writes to Gov. Geer and Expresses His Gratitude.

Recently Gov. T. T. Geer sent a letter to Captain C. E. Clark, who was in command of the battleship Oregon on her famous cruise from San Francisco around Cape Horn to Cuba, and at the historical battle of Santiago bay, when the Spanish fleet under Admiral Cervera was destroyed, notifying him of the sword which would be presented to him by the people of Oregon, and inviting him to come to Portland to receive the same. The sword, which is to be purchased by popular subscription, is to be one of the most magnificent weapons ever presented to an officer of the navy, and Governor Geer expressed in his letter his earnest wish that the brave commander, who had made the name of Oregon famous throughout the world, would do the state the honor to come here. Monday the governor received a letter from Captain Clark, dated at the navy yard, League Island, Pa., as follows:

"My Dear Sir:—Your highly esteemed letter, informing me of the great honor the people of Oregon wish to confer upon me, has been received. I am truly grateful and wish I could appropriately express my feelings for what they have done and proposed doing for me, more especially as I shall not be able to accept your kind invitation to visit Portland and visit the friends who have already placed me under the deepest obligation. With the sincerest thanks to them and to you, I am very respectfully and gratefully yours, C. E. Clark, captain U. S. N."

In view of the fact that Captain Clark can not come to Oregon to receive the handsome gift intended for him, the committee having the matter in charge will doubtless arrange to have the same presented to him, with suitable and appropriate ceremonies, at the officer's station in Pennsylvania.

BY THEIR FRUITS

You Shall Know Them—Hads't We Better Exhibit Ours?

While so many of the Eastern Oregon cities, many of them smaller than The Dalles, are yearly holding fruit fairs, and thus not only advertising themselves and the country about them, but giving the people of their counties a place to spend their vacation week very pleasantly, our attention has been called to the fact that our own town should be doing something in this regard. Our business men are beginning to talk the matter up, and some substantial results may follow. And again it may end in talk as many other schemes have done. However, if there is any hope of such a proposition materializing, it should receive the support of all.

In other years our people have looked forward to the fair which has been held each fall; but this had developed mostly into a racing meet instead of an agricultural and horticultural exhibit as was at first intended. No place in the state has a better opportunity for making a fruit fair a success than has The Dalles, surrounded by such orchards and in a position to obtain the best of exhibits. Interspersed with these could be added neat and attractive advertising exhibits by the different business houses, which would not only be an advertisement but an attraction. Then it would be necessary to have music each evening and some specialties, either local or from abroad, which expense could be met by charging a nominal entrance fee. Thus such an affair would be a splendid thing for our city, bringing to it the people from all over Eastern Oregon and affording them inexpensive pleasure. If managed so that it could be held in September, any who might care to attend the exposition in Portland later could do so, going on down from here.

To launch such an affair it would of course require a few hundred dollars; but in time, if properly carried on, it would be self-sustaining, and those who had placed money into the enterprise could be repaid in part at least.

Some of our citizens have thought it might be well to attempt a fair next month; but to our mind it is out of the question. Possibly by the latter part of October it might be in readiness were all to push it along. But in no less time could it be sufficiently advertised throughout the country, and on that hinges its success. The preparations would not require so much time, but there are other matters to be considered. It would be a splendid idea and lives us up somewhat. We will surely hibernate in a social way unless we bestir ourselves.
