### POPULATION IN 1900.

In 1890 the United States census returned 62,622,250 people. Calculations as to the population next year range from 74,000,000 to 80,000,000.

The Spokesman-Review says: In this connection it is interesting to recall the remarkable predictions made in the early part of the century by the noted agriculturist and mathematician, Elkanah Watson. By careful attention to the science of general averages, Mr. Watson computed the population of the country for successive decades for nearly a century ahead with an accuracy that is almost astounding. His calculations were within 1 per cent of what the actual count proved to be for five succeeding decades. Only in 1860 was his prediction more than 100,000 out of the way, and his calculations had been made before 1820.

After the civil war Watson's figures began to vary from the actual enumeration. He predicted 76,000,000 for 1890 and 100,235,985 for 1900, which is probably from 20 to 25 per cent more than the census count will show. Possibly if the war had not occurred his estimates might have been verified, for that conflict, with the killing of thousands of men, suspension of family life, and the falling off of immigration conspired to decrease the annual percentage of growth from 2 1/4 to 3 1/2 per cent.

The growth for 1890 to 1900 will not be so remarkable as it was for the previous decade, for there was no general financial depression between 1880 and 1890, and the number of immigrants coming to America in the early 80s was the largest ever recorded. During the ten years ending June 30, 1890, the newcomers numbered 5,246,613, while the aggregate for the last decade will not be three fourths of that total. Some months ago an estimate based on the estimates of the governors of the several states placed the population of the country at 77,803,231, which is probably not very far from correct.

Nothing could well be more un-republican than the marriage of an American girl to a Russian prince, with the rites of the Greek orthodox church preceding the simple and solemn marriage services of the Episcopal church, in order that the union might be strictly legal. As the grandmother of the bride—plain, unpretentious Julia Dent Grant, the elder, witnessed the ceremonies of the Greek church, with their far-fetched symbols and mysticisms, and their long-drawn-out prayers, the vision of a commonplace wedding away back in the century must have come to her, in which a plainly at-

tired young woman and a boyish-looking lieutenant, with his way to make in the world, stood up before a few friends and answered "Yes" to the simple, direct question "for better or worse, as long as ye both shall live," and departed, husband and wife, to begin the struggles incident to founding a home and bringing up a family by their own unaided exertion. This last wedding doubtless awakened responses from grandmotherly pride, while the fond hopes with which the widow of a happy marriage follows a newly married couple will go with these young people across the sea; but the other marriage ceremony, sacred in its simplicity, must appeal to the heart of the American woman as all-sufficient in its power to initiate the happiness of a lifetime and crown country and posterity with honor.—Oregonian.
