SHAMROCK LED FOR A TIME

But the Columbia Passed Her Before the Turn and Came Over the Finish Line by About Six and One-Half Minutes.

New York Oct. 20.—The conditions of wind and weather in this city at 8:30 a. m. today was encouraging for sailing the international yacht race. At 9 o'clock the sun drove away the gray clouds that earlier had been flinging down drops of nasty moisture and there was promise of a day of sunshine, good breeze and a racing sea, a combination that has not been prevalent during the unfortunate trial days. The wind at that hour was splendid, blowing fully fifteen miles.

It was nearly half past 9 o'clock when observers near the starting line saw the white wings of the yachts appearing out of the haze and jumping along under a spanking breeze toward the lights. The Shamrock pushed her nose through the foam as if the breeze had been made expressly for her. The Columbia sat up straighter and looked a trifle more dignified. The yachts jumped out of the smooth water of the Hook into the choppy sea under their own sails, as if rejoicing in their ability to move so rapidly.

At 10:45, when the preparatory gun was fired, Columbia was shooting up to the windward of the starting line on a starboard tack. She carried mainsails and jib only, but had her staysail in stops ready to break out. The white boat heeled over so that her lee rail was under water all the time, and the spray flew over her sharp bows.

The Shamrock was half a mile south of the lightship, but when Hogarth saw smoke, he fetched the Shamrock about and hurried to get to the weather of the line. The Columbia had in the meantime come about and run down to meet her rival, and then coming about again, reached to the windward ahead of the challenger. Both boats broke out forestay sails when the warning gun was fired at 10:55 a. m.

The Coming Strike.

ST. PAUL, Oct. 19.—A general strike on the Great Northern will probably occur within a few days. It will include conductors, engineers, firemen, brakemen and switchmen, and the men expect to tie up the road from end to end. In the great strike of five years ago, the conductors held aloof, but they have been brought into the present trouble by a recent order requiring them to pay for bonds covering damages to trains under their charge. The list of grievances given by the men is a long one, and they claim to have been unable to secure anything like satisfaction from the management. Since last March grievance committees have been almost constantly in this city trying to reach some agreement with the railway officials, but without result.

No Street Lamps in Albany.

The conditions tonight are about the same as they were last night. This afternoon there was a thunder storm in the lower harbor, which generally means a week of bad weather.

GREAT BATTLE AT GLENCOE

British Troops Whipped Nine Thousand Boers—Five Big Guns.

GENERAL SYMONS IS WOUNDED

Boers Began to Shell the City at Daylight Yesterday Morning, But Their Firing Was Ineffective.

LONDON, Oct. 20.—War office received the following dispatch from Ladysmith, filed at 3:30 this afternoon:

"This from Glencoe—We were attacked this morning at daylight by a force roughly estimated at 4000. They had placed four or five guns in position on a hill 5400 yards east of our camps, and they fired plug shells. Their artillery did no damage. Our infantry formed for attacks and we got our guns into position. After the position of the enemy had been shelled, our infantry advanced to the attack, and after hard fighting, lasting until 1:30 p. m. the almost inaccessible position was taken, the enemy retiring eastward. All the Boer guns were captured.

"We can see the soldiers at the top of the hill. Our cavalry and artillery are still out. General Symons is severely wounded. Our losses are heavy. They will be telegraphed as soon as possible."

LONDON Oct. 20.—A dispatch from Glencoe camp says Sir William Symons was wounded in the stomach. General Gate has assumed command.

LADYSMITH, Oct. 20.—At 5:30 this morning a telegram was received from General Symons, announcing the Boers are shelling Glencoe camps with big guns and the troops were moving to attack them. An official message was received from Glencoe at 5:40 this morning saying the fighting was proceeding there, and pronounced the Boer strength was about 9000 men. The Boers, it appears, posted guns on the high hill overlooking the town and opened fire on the camp and the battle became general.

British Advancing.

LONDON, Oct. 20.—The war office has received the appended dispatch from Ladysmith, filed at 10:46 today:

"The following advices from Glencoe camp are just at hand. King's Royal Rifles and Dublin Fusiliers are attacking the hill occupied by the Boer artillery. They are within 300 yards of the position and are advancing under cover of our artillery at about 2000 yards' range."

LADYSMITH, Oct. 20.—An unconfirmed report has been received here that the Boer artillery is shelling Dundee.
