

## ANXIETY IN LONDON TURNED

Toward Pitermaritzburg—English Giving Attention to Gen. Joubert.

## PLANS TO CONQUER NATAL

Such a Movement is Regarded as More Daring Than Sherman's March to the Sea.

LONDON, Nov. 6.—The movement of Boers in Cape Colony is beginning to awaken British fears that they have greatly underestimated the forces they will have to meet, and that General Buller's task is not so easy as anticipated. It is becoming apparent that all British calculations based on the loyalty of the population are hopelessly at sea, or there has been a very serious leakage of Dutch sympathizers from Natal and Cape Colony.

Otherwise there is no accounting for the large forces of burghers reported from all directions. The war office is consequently being urged to have more troops in readiness for all possible demands.

LONDON, Nov. 6.—An immense weight was lifted from the public mind by the brief dispatch published this morning by which the continental stories of disaster at Ladysmith were proved to be false, although the dispatch itself revived anxiety of the timid in another direction, as it indicated that General White, instead of sitting quietly and acting only on the defensive, as it is held in many quarters he ought to do, persists in making sorties and risking another Nicholson's Nek disaster.

Generally, however, the cheery tone of the dispatch showing there is no anxiety at Ladysmith as regards the ability of the beleaguered garrison to hold its own, has had an excellent effect on the country. From the fact that White is able to take the offensive and shell the Boer camp, it seems Ladysmith is not so closely besieged as was supposed.

Not much importance, however, is attached to the shelling of the Boer laager, as the war office has no confirmation of the story that the Orange Free Staters' camp at Besters has been captured. Were this true, it might have considerable effect on the future attitude of the Orange Free State, which is not so directly concerned in the conflict as the Transvaal.

The evacuation of Colenso and reported withdrawal of the British from Stormberg is still unexplained. The former may be due to either the Boer artillery rendering the place untenable or to the fact that pressure elsewhere, possibly at Pitermaritzburg, has necessitated concentration at the threatened point of all available troops. With regard to Stormberg, it is claimed that if it turns out to be true that the place has been evacuated it may either be due to impossibility at present of providing an adequate garrison to defend such important supplies against Boer raids, or to a change in Buller's plans, whereby General Menhulne's division will be landed at Dunham to relieve General White.

If the latter plan is decided on, the nearest available stores are at Stormberg and the quickest method of making the necessary provision for advance will be to railroad these stores to East London, whence they would reach Durban before the first troopship.

**His Life Was Saved.**  
Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery.

## Workmen WILL HAVE AGUINALDO SOON

you have seen hundreds of your companions waste away in mill and foundry with a persistent cough. You have seen hundreds of them die with that terrible disease, Consumption. You have seen wives left penniless, and children thrown upon the mercies of the cold world, because the father coughed his life away. The air you breathe every day is full of sharp, metallic dust, which is inhaled into the lungs and irritates their delicate lining. In the case of glass blowers, the fierce

heat of the molten glass forces its way up the tube into the lungs where it gradually breaks down their delicate structure, making every cold a danger to life. You can't afford to quit working and are daily exposed to this fatal dust and intense heat. What you and your friends need is Acker's English Remedy. This will make your throat and lungs strong again. It will heal the irritation, brace up your strength, and you need never lose a day's work. I have noticed that in some mills there are no cases of Consumption. The reason is that Acker's English Remedy is used by the men working there.

## HIS ESCAPE IS IMPOSSIBLE

News of a Big Engagement is Expected at Any Moment, and Sanguine Officials Assert That War May Be Ended by the Close of the Present Month.

NEW YORK, Nov. 6.—A special to the Herald from Washington says: With forces aggregating more than 30,000 fighting men, Generals Lawton, MacArthur and Wheaton are now closing in on Aguinaldo's army. General Otis set November 5 and 6 as the dates for commencing the campaign "all along the line," and the war department has information today that the programme is being carried out. General Otis' dispatches are optimistic in the highest degree, and the officials are predicting that the rebellion will be crushed before the end of the present month, and that important victories will be announced within a few days.

NEW YORK, Nov. 6.—A special to the Herald says: The military situation was thus analyzed today by an official familiar with General Otis' plan of operation, as reported to the war department.

"Aguinaldo, with his army greatly reduced, owing to recent disintegrations, is at Bayambang, twenty miles north of Tarlac, which was his headquarters and the objective of Lawton's and MacArthur's armies up to a fortnight ago. General MacArthur moves northward along the railroad to Bayambang. General Lawton moves northward from Colanatan as his base and with columns exerting to the right and left to sweep the country to the Rio Agno river, and to head off Aguinaldo's escape to the mountains through Rio Agno valley.

"General Wheaton moves southward from Dagupan to Bayambang. His movements up to this time have been kept from the public, but now that the campaign is in progress, I am at liberty to mention that he headed an expedition sent out on transports for the Gulf of Lingayen last week. The navy's task was to shell the towns on the southern part of the gulf, so as to effect the safe landing of his expedition.

"Unless Aguinaldo has escaped to the eastward through the Rio Agno valley, he ought to be caught between General Wheaton's forces from the north and General MacArthur's from the south within the next forty-eight hours, as Bayambang, where he is supposed to be located, is less than twenty miles from Dagupan and about forty miles from Angeles."

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by Blakeley & Houghton, druggists.
