Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S.S. For the Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

Students Literary Club of The Dalles.

This society met on Nov. 3 at 7:30, at the office of Moore & Gavin. Owing to the length of time taken up in adopting the constitution and the election of officers, the debate for the evening was postponed until Friday Nov. 10, at which time the club will meet in the council chambers, above the city jail, at the hour of 7:30 o'clock.

Article five of the constitution will be suspended Friday night for the benefit of those wishing to become members. The question for debate is "Resolved That England is Justifiable in Prosecuting the War Against the Boers in the Transvaal."

The club now has twelve members who are tireless workers and determined to make it a success. Article 1, of the Constitution, reads as follows: "The object of said club shall be for the free discussion of any subject or subjects coming before the meeting, to-wit: debates, speeches, mock trials, etc., and for the purpose of diffusing knowledge among its members."

Article 5, Section 1.—Any gentleman over 17 years of age, of good reputation in the community, may become a member of this club by making application to be presented by the secretary of the club at any regular session thereof, and to lay on the table until the next regular meeting, when a ballot shall be taken, and if two-thirds of the members present shall vote in favor of his admission, said applicant shall, upon signing the constitution, be declared a member of the club.

Article 6, Section 1.—This club shall meet every two weeks and at such other times as a majority, consisting of at least seven members of the club, shall determine.
 S. W. STARK,
 Sec. of Committee.

Despite the fact that the state legislature at its last session refused to encourage the culture of sugar beets, by turning down the bounty proposition urged by the growers of the Grande Ronde valley, and the further fact that there is considerable of a decrease in acreage this year, as compared with last, the sugar output of the La Grande factory will this year exceed that of last by at least 50 per cent.

The acreage has been reduced from 3600 to 2300. The yield per acre, however, has nearly doubled since last year. This year the average crop is from seven to eight tons to the acre. Last year the average was four and a half tons.

The factory is still running full blast, employing about 150 men, and converting 400 tons of beets into sugar daily. It is estimated that the entire beet crop will be harvested and ground up within two weeks. The total tonnage in beets this year will approximate 14,000 and the output 3,500,000 pounds.—E. O.

Would it Were the Same Here.

The following telegram from Helena which appeared in yesterday's Oregonian, sounds just a little strange to Dalles people, who are compelled to walk over sidewalks fairly saturated in tobacco juice and other excretion even more nauseating and a great deal more liable to spread disease broadcast. The telegram says: "United States Senator Thos. H. Carter was arrested today and fined \$1 for spitting on the sidewalk. The complaint was made by a man arrested and fined yesterday for the same offense. The fine was paid."

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise."
