### EXTENSION OF THE JETTY.

The government engineers in charge of the river and harbor work of this region will unanimously recommend the extension of the jetty at the mouth of the Columbia, so as to make a 40-foot channel over the bar—or rather through the former bar. Their recommendation will doubtless be acted upon favorably by congress, and the necessary appropriation will appear in the next river and harbor bill, says the Telegram.

The jetty already constructed at the mouth of the river has been a complete success, and has been of immense value not only to the Columbia river region, but to the government. In that work it not only helped to open up to commerce a vast and productive region of country, but it learned a lesson in jetty work worth all this jetty cost. The jetty has done all that was expected of it, but the time has come when a still deeper channel is needed, which the engineers say can be obtained by simply extending the jetty. Having decided upon this, congress will go farther, and aid in providing a 30-foot channel to Portland.

Portland has done a good deal in maintaining a sufficient channel, and will do much more, but the work really belongs to the United States. The Columbia is the great river of the Pacific coast; the country tributary to it is fit for a glorious empire and it must not and shall not be neglected. Not only will we have a 40-foot channel through the bar, but a 30-foot channel to Portland, so that even envious rivals cannot cavil at the mighty water highway of the Pacific Northwest.

### ANOTHER SCOURGE.

White bread Professor Hart declared to be the scourge of humanity.—Philadelphia Record.

Then white bread ought to be put on the Democratic black list by the side of trusts, the money power and imperialism. It takes a good memory to keep in mind all the scourges of humanity at present.—New York Sun.

There is, however, in this country a constantly growing number of consumers of brown bread, whole wheat bread, etc., etc. This is a good thing for the manufacturers of the new whole grain preparations, whose factories are increasing their output. So prosperous are they that there is great competition among them, and they are spending a lot of money in pushing their product.

The pioneer mothers and fathers of some of us subsisted largely upon boiled wheat, and drank coffee made from parched wheat when they first came to Oregon. This has been re-

ferred to as among the hardships they endured. But the United States seems to be coming to this ration: called by various high sounding names.

The New York Sun asks: "If Col. Bryan really wants to crush the myrmidons of Mammon why doesn't he resign his post as candidate and invite his adherents to support Barker and Donnelly, each of whom is just as good a Populist as the colonel?"

### Chamberlain's Pain Balm Cures Others. Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—ADOLPH L. MILLETT, Manchester, N.H. For sale by Blakeley & Houghton, druggists.

### Stray Notice.

Came to my place about six weeks ago, a gray stallion colt, about three years old; brand similar to an inverted V with a cap over it. Owner can have the animal by proving property and paying all charges.
