Double Wedding at Pasco.

A quiet double wedding took place at high noon Sunday, Nov. 26, 1899, at the home of Mr. and Mrs. W. W. Floyd, Pasco, Wash., Mrs. Floyd being a sister of William and Ada Fulton. The four happy young persons were Fred S. Stone and Miss Ada Fulton, and William Fulton and Miss Belle Walker.

All are well known in both Wasco and Sherman counties. William Fulton and his sister, Ada, grew up at The Dalles, and are well and favorably known here, they being a son and daughter of one of our oldest families of this county, Mr. and Mrs. James Fulton. Miss Walker attended the Sisters' academy at The Dalles for a number of years, and has many friends who wish her happiness and success in her new relation in life. Mr. Stone is from Wasco, and is one of the well known wheat growers of Sherman county.

The wedding was very private. No invitations were issued, there being present Mr. and Mrs. Floyd, Ruth, and Leland, and Rev. Callaway. The brides were becomingly dressed in pure white, including slippers, dresses, gloves, etc., and carried white carythems and carnations. The grooms were attired in black. Master Leland, with his little sister, Ruth, led the bridal party to the parlor, which was beautifully decorated with cut flowers. Miss Ruth wore a pretty white silk dress and carried a large bunch of sweet peas, and made a very pretty little maid of honor. Mr. Stone followed with his bride, then Mr. Fulton and his bride. The ceremony was performed by Rev. Callaway.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases. My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him, but he grew worse until his condition was indeed pitiable. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S. S. S. (Swift's Specific). A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been restored to perfect health. Mrs. S. S. MARRY, 200 Elm St., Mason, Ga.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. Swift's Specific, **S.S.S. For the Blood** reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Books mailed free to any address by Swift Specific Co., Atlanta, Ga.

formed by Rev. Callaway, of the First M. E. church. After congratulations were exchanged, all were invited to the dining room, where an elaborate dinner awaited them. Mr. and Mrs. Stone will make their future home at his farm near Yakima, while Mr. and Mrs. Fulton will spend the winter at Pasco, Wash.

POWER OF NIAGARA.

The Enormous Force Generated by the Falls. Electric Roads Twenty-Five Miles Away Are Operated by the Current—Toronto to Be Supplied.

Niagara Falls enjoys the distinction of having a power house under the roof of which there is more power developed than in any other power station in the world. Years ago the people who journeyed to Niagara had their minds wholly occupied with the magnificent scenic features they were to find there. But to-day there is a new impulse to many of these journeys. On the banks of the Upper Niagara river, about a mile back from the cataract, there has grown up the greatest power station in the world, and men of scientific and engineering talents who desire to keep up with the latest features of the development of power travel to Niagara.

In this station there are in operation eight mammoth generators, each of which is capable of developing 5,000 horse power, making the present total capacity of the station 40,000 horse power. But, in addition to these, there are now in course of erection two more generators of the same capacity, which will bring the output of the station up to 50,000 horse power, a wonderful amount of force. Each of the 5,000 horse power generators is connected by a long steel tube to a turbine at the bottom of the big wheel pit, which extends, slot like, for over 400 feet beneath the floor of the dynamo room. This wheel pit has been walled in with bricks, and it is one of the most interesting places at the falls. Huge penstocks, eight feet in diameter, carry the water from the inlet canal to the turbines, the head under which the water is used being 130 feet. An electrically operated elevator affords means of going down in the pit, and all who are fortunate enough to be allowed there are well repaid for the trip. Incandescent lights break the gloom, and on the lower landing one stands over the turbines' home amidst a deafening noise. The generators in the dynamo room produce current at a voltage of 2,200, and the force of the station is divided up and sent over various lines to give service to the power company's patrons. It is used in many ways and at many voltages. Carborundum, aluminium, caustic soda, bleaching powder, peroxide of soda and other articles are manufactured in the factories operated by electric power from this station. All the electric roads in the city of Niagara Falls are operated by the current; the trolley lines from Niagara falls to Buffalo and from Buffalo to Lockport also run under this power, while 25 miles away, in the city of Buffalo, trolley cars are propelled and the streets lighted, malt houses, elevators and flouring mills, printing presses and other machinery are run by the subtle force of the wonderful Niagara development. In one great grain elevator there is a long line of motors operated by Niagara power, and these motors serve to transfer grain from the elevator to the boats or from the boats to the elevator.

Soon this power station will be still further enlarged or a new one of similar capacity built close by, which will give a total of 100,000 horse power. Over on the Canadian side, back from the Horseshoe fall, the Canadian Niagara Power company, is about to build a power station. Ninety miles away stands the progressive city of Toronto, and she is looking toward Niagara for the whirling of the generators that shall in time develop power to be transmitted to that city.—N. Y. Tribune.

Admiral George Dewey

Will receive the most royal welcome on Oct. 1st next, that was ever accorded to an American citizen. You will find a complete biography of this great hero, including his brilliant victory over the Spanish fleet in the great, authoritative and up-to-date work of reference, the

New Werner Edition of the Encyclopaedia Britannica

This is the only encyclopaedia on the market that mentions Admiral Dewey. It gives the date of his birth; how he spent his boyhood days; the part he took in the Civil War; how after the War he was employed on the European station; in the Naval Academy; his rise to the rank of Commander and President of the Board of Inspection and Survey; his command of the Asiatic Squadron; how on April 27th he left Hong Kong with his squadron, found and destroyed the Spanish fleet, at Manila, on May 1st; his appointment as Acting Rear Admiral, the honors he received from Congress, and how on March 2nd, 1899, he was created full Admiral. It speaks of him as a strict disciplinarian, an all-around athlete, a daring horseman and huntsman, and socially a good club man and a general favorite. It tells of his marriage to Miss Susy Goodwin, a daughter of the "fighting governor" of New Hampshire, who died in 1872, leaving a son, George Goodwin Dewey.

Governor Theodore Roosevelt
 Admiral Schley
 Admiral Sampson
 Capt. Clark of the Oregon

and scores of other noted personages not even mentioned in any other Encyclopaedia receive the same attention in this edition of the

Encyclopaedia Britannica

It speaks of General Wood as Governor of Santiago; of General Henry as Governor-General of Porto Rico; of Aguinaldo's declaration of War against the U. S.
