## UPRISING PLANNED IN MANILA

Aguinaldo Was Reported to Be in the  
City Ready to Lead Filipinos to  
Success.

MANILA, Dec. 31, 6:10 p. m.—An American advance in Cavite province, south of Manila, is expected shortly. Reliable reports from native sources show that there are upwards of 2000 organized insurgents under arms within a mile of Imas. They are strengthening their entrenchments, and possess artillery.

At Novateia, the Filipino entrenchments have been much strengthened since General Schwan's advance. A thousand of the enemy are in that vicinity, and there are 600 at San Francisco de Malabon. Twelve to 100 soldiers will garrison all the towns in the southern part of Cavite province, and the same may be said of the towns of Batangas province.

The provinces of North Camarines and South Camarines hold quantities of hemp, which the people cannot market. As a consequence, the population in that part of Luzon is suffering from lack of food. Rice now costs four times its normal price.

It is estimated that 1000 insurgents are entrenched at Calamba. Reports have been received that 2000 insurgent are massed at Mount Arayat, having a strong position, which commands steep and narrow trails, and that they are prepared to roll boulders down upon advancing troops.

Life along the coasts of the provinces of Cagayan and North and South Ilocos is resuming normal conditions. The American troops occupy the important towns and patrol the country roads. The natives implore the Americans to continue the occupation, to establish a settled government, and to terminate the uncertainty, abuses and confiscations that have characterized the rule of the Tagal revolutionists during the last twelve months.

of all Spaniards now in possession of the rebels. The mountain passes of Cagayan and the two Ilocos provinces are still guarded in the hope of catching the insurgent general, Tino, who is still a fugitive. It is asserted that Lieutenant Gillmore is in Tino's custody.

## FENIANS ARE PRE- PARING FOR WAR

They Are Said to Have Stored Large  
Quantities of Ammunition and  
Food Near Canadian Border in  
Northeast.

New York, Jan. 1.—A special to the Times from Burlington, Vt., says: It is reported that the Fenians are engaged in storing large quantities of dynamite, lyddite ammunition and supplies in a few selected repositories in remote districts of Vermont and Maine, near the Canadian boundary line. The information comes from persons who claim to have knowledge of the purchase of some of the supplies, and others who learned of their transportation by railroad disguised as groceries. Dynamite and other explosives have been secured in surprisingly large quantities, and stored underground on the Vermont border, while large quantities of canned meats have been hidden in some large barns of sympathizing farmers on the main line near New Hampshire.

It is said that an efficient ambulance corps is being organized under the supervision of a few loyal Irish women and surgeons who were in the Red Cross work in Cuba. They are also preparing a large number of "first aid" packages for the invading forces. The new movement is the work of the Irish element of the larger cities, but it is a fact that a larger and important work is being done among the farmers of the border states. A schedule is being arranged of farmers who can furnish wagons, horses and oxen for transportation purposes.

Catarrh Cannot be Cured  
with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Rainfall at Astoria.  
ASTORIA, Dec. 31.—The annual report of Weather Observer Johnson, closed this evening, shows the precipitation during 1899 to have been 101.40 inches, the heaviest by far since the records have been kept here. The average for the previous fifteen years was 73 inches. The rainfall in 1884 was but 49 inches, and in 1896 it was 94.82 inches, the highest until the present year. The greatest precipitation of the year was during January, when 18.84 inches of rain fell. The record for this month was 13.30 inches, an excess of .85 inches over the average.

Burned to Death.  
CORVALLIS, Dec. 30.—Mrs. Malone, 80 years old, and mother of W. H. Malone, a prominent merchant in Aissa valley, was burned to death yesterday. But meager details have so far reached this city. Mrs. Malone lived with her vener-

able husband at their home in the valley. Her screams attracted the attention of her husband, who was in bed. He hurried to the scene, and found his wife entirely enveloped in the flames of her burning clothes. Before the flames were extinguished the victim was so badly burned that she expired soon after, in great agony. It is supposed that her clothing suddenly took fire while she sat by a stove or open fireplace. The family are old residents of the valley, and highly respected.

A SURE CURE FOR CROUP.  
Twenty-five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to the disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Blakeley & Houghton.

A Thousand Tongues  
Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1. Trial bottle free at Blakeley & Houghton's drug store; every bottle guaranteed. 5

Poisoned With Strychnine  
NORTH YAKIMA, Wash., Dec. 30.—H. J. Bicknell and Edward Sanders, of Parker bottom, were taken sick after eating at their house Wednesday evening. A doctor who was hastily summoned found that they had been poisoned by strychnine. The poison was apparently put into several articles of food. They believe that they know who attempted to kill them, and further developments are looked for.

Charles McAllister, a well-known sheepman of this county, was kicked by a horse at the ranch of Captain Dunn, in Parker bottom, Wednesday evening. Five of his ribs were broken.

Robbed the Grave.  
A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised 'Electric Bitters'; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed, at Blakeley & Houghton's drug store. 5

## EFFORT TO RE- LIEVE LADYSMITH

Buller is Organizing on a Large Scale  
and Will Make Another Attempt.

## THE NEW YEAR OPENED GLOOMILY

Prime Minister's Son Said to Have  
Been Wounded in a Recent Sortie  
at Mafeking.

New York, Jan. 1.—A special to the Tribune from London says: Indications still point to a battle on Tugela river at the end of this week, although there may be delays through a mule transport service, which General Buller is evidently organizing on a large scale. The Tugela is reported in flood from the heavy rains, and the passage of the river will be most difficult.

British accounts of Baden-Powell's sortie at Mafeking cannot be expected for several days. The Boer official dispatches, stating that two well-known British officers, one of them a son of the prime minister, were wounded, have caused much anxiety in the world of wealth and fashion.

New York, Jan. 1.—A dispatch to the Tribune from London says: The new year opened gloomily for England, with a record of miscalculation and disaster in South Africa to be retrieved at great loss of life and treasure, and with the reputation of generals in the field and ministers at home hanging upon the issue of battle during the next few weeks.

There is no lack of criticism and fault-finding in the press, and there are signs of anxiety in ministerial circles over the political effects of additional reverses to British arms, but there is also a hopeful feeling induced by fresh proofs of the incapacity of the Dutch allies to make use of their opportunities. The Boer victories of Stormberg, Magersfontein and Colenso have not been followed up in any instance. They have been no successful raids on the lines of communication, and Ladysmith, Kimberley and Mafeking have not been overwhelmed by superior numbers and guns. There is a record of Boer failures as well as British defeats.

The budget of news received at midnight was a light one. The arrival of a Cape steamer brought a large mail, and all the morning journals print letters from their special correspondents. The most interesting letters are those published in the Standard and Times and other journals from Ladysmith, in which incidents of the siege and garrison life are described. The writers are wisely reticent on important points, and deal lightly with the dangers of the situation, but there is little doubt that the garrison has been short of ammunition and the knowledge of this fact has influenced General Buller in sacrificing his original plan of campaign and massing his forces for the relief of Ladysmith. He is still calling in reinforcements, for the Majestic has gone to Durban with another battalion and numerous drafts.

## Spitting Blood

"I used to cough a great deal and spit blood, and my neighbors in Dayton, Ohio, where I live, said among themselves that I had consumption, although they did not tell me so to my face, for fear of making me dependent. I kept on coughing and trying different sorts of medicines, but nothing seemed to reach my trouble until I got hold of a bottle of Acker's English Remedy. I prayed for health all the time, and my prayers were answered as soon as I began taking this celebrated English expectorant and tonic. Since my recovery I have told hundreds of sufferers from coughs, colds and weak lungs that Acker's English Remedy would cure them. Some of them won't try it, and it does seem to me terrible when anyone deliberately refuses to be cured. There ought to be a law compelling consumptives to take it. Even if they don't care for their own lives, the public's welfare should be considered. Don't you think so too? I hope such a law will soon be enforced."
