### ARE THE FIGURES WRONG?

Secretary Gage's recent report estimated at \$634,650,733 the amount of gold coin in circulation in the United States on Nov. 1, 1899.

But these figures have been challenged by Professor Faulkner, and the Washington correspondent of the Chicago Tribune says "Mint Director Roberts seems to have been impressed by Professor Faulkner's statements, and is going to find out whether there has been a flaw in the customary manner of calculating the amount of gold in the country."

"What troubles the mint director," says the Tribune, "is that while he knows the whereabouts of the greater part of the gold coined in this country since 1879, as large a portion of it as \$300,000,000 has eluded his search." That is to say, the gold in circulation may be only about \$300,000,000, instead of the amount heretofore estimated by the treasury officials.

It develops that for more than twenty years the mint officials have been "guessing" at the quantity of gold coin annually melted down for use in the arts, and a deep suspicion exists that their guessing has been wide of the truth.

"Hence, 20,000 circulars are to be sent out to firms using gold in the arts, asking them to say how much gold coin they have melted down during the present year. If their replies indicate an annual consumption of, say, \$10,000,000, instead of \$1,500,000, then the director of the mint will know where a good part of his missing \$300,000,000 has gone, and he will have to revise and cut down his estimate of the amount of gold in circulation. But if the replies show that the million and one-half guess is about right, then the mystery as to the whereabouts of that \$300,000,000 of gold coin will be darker than ever."

Should this surmise prove true, and if it be found that little more than \$300,000,000 of gold coin is actually in circulation—or rather in the hands of the banks and the people—it would follow that the per capita circulation of gold would be little more than \$4. It should be remembered that this question is not raised by advocates of free silver, but by friends and supporters of the single gold standard.

A literary society up at The Dalles has debated the sixteen-to-one question, resulting in a decision against free silver coinage. There has been a good change up in the bunch grass section of Oregon. In 1892 the sheep owners up there voted the Democratic ticket, because Bryan and his confederates had informed them that free trade in wool would be

good for them. They got free trade in wool, and got their fill of it. For four years they were ashamed to look a sheep in the face. Now they are extremely wary of any promise made to them by Bryan and his friends. They then soured even on free silver. Eastern Oregon is prosperous. The calamity howlers have nearly all left or been cured; the goose hangs high, and the sheep grow fat on the succulent bunchgrass. So there is no longer any hope for Democracy up there; at least not for the Bryan kind of Democracy.—Salem Statesman.

### Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised 'Electric Bitters'; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed, at Blakeley & Houghton's drug store.

### A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1. Trial bottle free at Blakeley & Houghton's drug store; every bottle guaranteed.

Use Clarke & Falk's quinine hair tonic to keep dandruff from the head.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c size. Ely Brothers, 56 Warren St., N.Y. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.
