ANTIQUATED VOTING METHODS

If the state hopes to avoid growing friction resulting from disputed elections, they must provide a more simple form of registering and counting ballots. The machinery of registration seems to be fairly perfect and in a measure prevents frauds of illegal voting, but the depositing and counting of ballots are antiquated and productive of no end of trouble. Kentucky is a case in point. The system of paper ballots permits the party to legislative power to juggle with the returns, allows of laws being made to suit the pleasure of scheming politicians. It will probably result in an attempt to unseat Governor Taylor, elected on the face of the returns by Republicans, and an attempt to seat State Senator Goebel, defeated by Kentucky voters at the polls.

The voting machine in use in certain cities of the east appears to solve the problem. It demands intelligence on the part of the voter, for he must know how to read before he can operate the keys. It prevents fraud because the machinery can not be wrongfully manipulated so long as representatives of different parties are on guard. There can be no dispute as to the name of the candidate or the intent of the voter, for the machine is so constructed that once he has voted for a candidate for a certain office the machine is locked on that particular key. It has also the advantage of speed in counting. When the polls close the figures are written before the eyes of the election officials. In the long run these machines are economical. Under the system now in vogue election officials frequently draw two days' pay for their services. With the machines the election officials would be on duty only from the time of the opening of the polls until their closing.

With the voting machines in general use such safeguards could be thrown about registration that it would be dangerous for any party to attempt to tamper with the count.—Review.

POLYGAMY CONDEMNED.

Seldom has either house of congress performed an act which has been greeted with more universal applause than will that of the refusal of the house to recognize the eligibility of Brigham H. Roberts to a seat in that body, as a representative from the state of Utah, says the W. W. Union. By that act it is published to the world that no practical polygamist, who lives and acts in defiance to the laws of his country, can be admitted to a seat in the halls of the national legislature, to assist

in moulding the laws for a great people.

Mr. Roberts, no doubt, is a conscientious believer that polygamy is justifiable for this is shown in the boldness of his persistency in defending his position, and in his advocacy of his position, and in his Mormon constituents. Yet one cannot believe that he was wholly ignorant of the fact that he was disfranchised by the federal law, the compact under which the state was admitted, and therefore he was ineligible to a federal office. It is probable that there were but few dissenting opinions as to the eligibility of Roberts, among the members, but because of the division of sentiment as to the proper method for disposal of the question, raised by the reports of the committee, the number of supporting friends of Roberts, if any, is unknown. But the vote of 278 against his admission, to 50 opposed to the majority report, will settle the point involved for all time.

A SURE CURE FOR CROUP.

Twenty-five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Blakeley & Houghton.

"One Minute Cough Cure is the best remedy I ever used for coughs and colds. It is unequalled for whooping cough. Children all like it," writes H. N. Williams, Gentryville, Ind. Never fails. It is the only harmless remedy that gives immediate results. Cures coughs, colds, hoarseness, croup, pneumonia, bronchitis and all throat and lung troubles. Its early use prevents consumption.
