WHO IS THE MURDERER?

Our contemporary has been asking a few pertinent questions concerning the conditions in Kentucky, and we, therefore, append an article from a recent issue of The Oregonian, on the same subject. Who is the murderer? Mr. Goebel, the man who brought about the condition of anarchy in Kentucky. "He that sows the wind will reap the whirlwind," fits this case too well.

The Oregonian says: Goebel is dying. The deplorable thing is the assassination. It was Goebel who set in motion the revolutionary proceedings, for partisan and personal objects, which have brought Kentucky to the threshold of anarchy and civil war. It was Goebel who has led or driven these proceedings from the first, with unrelenting purpose. It was he who made the law under which an election in Kentucky is but a farce, since it gave his partisans authority to set the results of election aside, upon any pretext. It was he who, as a next step, led a turbulent mob which intimidated the convention of his own party and brought about his own nomination for governor in a body where a large majority opposed him. He proposed to have himself counted in as governor though the plurality of the ballots was against him, and he had just about carried his plan through to the end.

Then his career was stopped by assassination. In this crime, abhorrent and detestable as it is, there sometimes nevertheless is some quality or touch of retribution. Good men have perished by assassination, but Goebel is entitled to a place among the worst who have perished by it. It was his deliberate purpose that the government of Kentucky should be directed, not by a majority of its citizens, but by his own faction, under his own leadership. Moreover, he who now has perished at the hands of an assassin himself bore the stain of blood-guiltiness. He had "killed his man."

If the anarchy of which he was the main cause could end with his own career, the state of Kentucky might congratulate itself. But the conspiracy has gone so far that he was scarcely necessary to its further progress. The revolution he proposed, under the forms of law iniquitously made for revolutionary objects, has gone so far that a substitute and successor may take up the leadership. His faction stands in an aggressive and revolutionary attitude, from which it cannot back down without shame nor go forward without violence. A faction in such a situation is almost always ruled by

its impetuous and incendiary spirits. Possibly no one may be found to take the place of Goebel in audacity, cunning and resolution. If so, his state will gain by his taking off.

The action taken by Gov. Taylor is the response to be expected to the aggressive conspiracy led by Goebel. One revolutionary act is met by another. Now if both parties will stop where they are, and let the result of the election stand as the voters declared it, peace may be restored to Kentucky, and this disgraceful episode may stand as a warning to unscrupulous personal and partisan ambition.

Peace can be established in Kentucky by allowing the Goebelites full swing. The state, however, is against Goebel, and but for his unconstitutional machine he would not have a corporal's guard. Briefly summed up, as long as Kentucky went Democratic, it was all right; but now she wants a new regime which the "old guard" are loth to give.

A SURE CURE FOR COUGH.

Twenty-five Years' Constant Use Without a Failure.

The first indication of cough is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Blakeley & Houghton.
