

Regular Experiences

Life is full of misfits

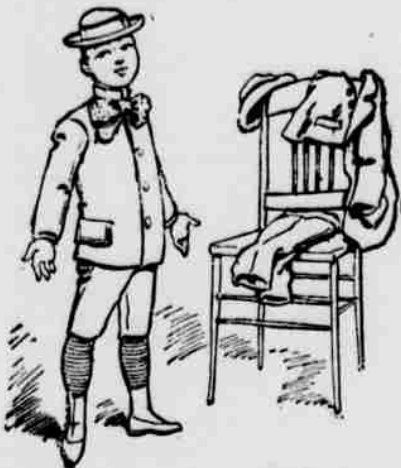

You meet them every day, but none of them were purchased at our place. If you want to be dressed with good taste, come give us the opportunity, for we fit the hard-to-fit, and at prices that fit the pocket book, from

\$6.50 to \$25.

A Boy at the Best

When he is well dressed

his clothes should be just right: in style and all that good tailoring can make them. We are showing some school suits that are Dandies and at prices ranging from \$1.00 to \$10.00. Never before did we have so complete a stock of wearable, well put-together suits.

See windows. See windows.

No further disappointment.

We were disappointed last week ourselves in not getting our

SPRING GOODS

marked and on our counters for inspection, but so many things crowded themselves into the week that we could not get around to the marking of goods, although many of them were unpacked and all they required was a few small figures to make them more desirable to you than ever. We will not disappoint you again in this particular, for we are just as anxious in this matter as you are, and if you will indulge us just a little longer we will repay you for your patient waiting by a display of all the latest novelties in Wash Fabrics that the most fastidious could desire.

All Goods Marked in Plain Figures.

WAYSIDE GLEANINGS.

Men's work shirts as low as 25c at New York Cash store.

"Bear Breeches" are selling for 75c at New York Cash store.

Stetson hats for Spring arrived today at A. M. Williams & Co's.

New case of "Matchless" hosiery for ladies just arrived at New York Cash store.

A. M. Williams & Co. are opening some nobby styles in ladies' Spring suits and jackets.

Those "Summit" working shirts with double front and back for 50c at New York Cash store are extra good values.

Mrs. A. A. Jayne will, in about ten days, open a millinery store in the building on Second street lately occupied by C. L. Schmidt as a grocery store.

Mrs. Phillips wishes to inform the ladies that she has a very large assortment of ladies and children's street hats now on display. mch 13-2t

R. C. Wallis, of Sherman county, went to Portland on this morning's boat with seven head of the finest draft horses that have left this town for many a day.

P. J. Connolly, well known in Oregon and the Northwest generally as "Peter the Poet," at one time editor of the Eagle, is now pushing the pencil on the Burns items.

The residence of I. C. Richards, of Goodendale, one of the handsomest dwellings in the city, was destroyed by fire last Saturday evening; loss, \$6000; insurance, \$2700.

John Little and Farquhar MacRae shipped from The Dalles this morning a train load of sheep for the Chicago market. The sheep were in charge of Donald McGinness.

C. L. Schmidt was elected school clerk yesterday without opposition, receiving 137 votes. The contest for director resulted in 107 votes for Geo. A. Leibe and 31 for A. R. Thompson.

L. J. Klinger, of Dufur, received a telephone message yesterday announcing the death of his younger brother

Fred, at his home in Molala. Mr. Klinger, accompanied by his wife, left on the early morning train this morning to attend the funeral.

J. H. Shearer announces his intention of allowing all wool teams during the coming season, to pass over his toll road free. This will lessen the expense of the trip by an average of about \$3, and will have a strong tendency to bring wool here by team that would naturally be shipped by rail from Shaniko.

The number of persons seeking registration has increased somewhat during the last two or three days. From Biglow precinct 116 persons have registered; from East Dalles 107; from Trevitt 103, and from West Dalles 108. This is considerably less than half of the voting population. No returns from the country are available as the registration is being done in the local precincts.

Peter Bunn, son of George Bunn of this city, was examined today by Dr. Shackelford and adjudged insane. Young Bunn is about 21 years old. He returned two weeks ago from a trip to China and Japan and was in his usual mental health till four days ago when his strange conduct attracted the attention of his family. The young man is not violent and good hopes are entertained that the aberration is only temporary.

Mr. Hugh Glenn had a letter the other day from a gentleman interested in the flour milling business, who says that he has been informed that "some parties in The Dalles are canvassing the proposition of putting in a large flour mill" here and that if the proposition is ripe enough he would "like to talk business." Mr. Glenn, like ourselves, is not aware that there has been any serious talk here on this line but wishes there were. Mr. Glenn will be more than pleased to show the letter to anyone interested in this matter.

Leslie Butler expects to open his bank at Hood River about the first of April. The style of the firm will be Butler & Co., and Mr. Butler's son, Truman, will be associated with his father in the business and act as cashier, with Mr. Leslie Butler as president. It is an act of simple justice to say of the Messrs. Butler that they are men of the highest reputation, morally, socially and commercially. The father was in business here for the period of eighteen years, during which he built up a large and profitable business. Truman is a Dalles boy who has been associated with his father since he left school, excepting the few years he was purser on the Regulator. It is doing the son honor to say he is a chip off the old block. They may not make a fortune banking in Hood

River but they will change mightily if they do not establish a reputation for honorable dealing that will endure when banks and all that in them are shall have vanished into eternal nothingness.
