

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him, but he grew worse until his condition was indeed pitiable. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S. S. S. (Swift's Specific). A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been restored to perfect health.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. Swift's Specific.

S.S.S. For the Blood

reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral.

ARE COMING TO PORTLAND

President and Members of His Cabinet to Visit the Pacific Coast—Here of Manila and Mrs. Dewey Are Planning a Western Trip.

NEW YORK, March 19.—As before stated in Washington dispatches, President and Mrs. McKinley and probably certain members of the cabinet will visit California and other West coast states this summer. It is, at least, the president's intention at this time, to be in San Francisco when the battleship Ohio is launched from Scott's shipyard.

The president will go north from San Francisco to Portland and Seattle and then east through Minneapolis and St. Paul. It is understood that the trip is made for pleasure, but the real purpose of the journey is to work up renewed interest in Major McKinley's behalf for his re-election as president of the United States.

New York, March 19.—There is excellent authority for stating that Admiral and Mrs. Dewey will make a lengthy visit through the Western and Northwestern states this spring. They will go first to Detroit and then west to Minneapolis and St. Paul. It is stated they will spend several days in the twin cities. While in Minnesota they may visit Duluth. They intend to go west

from St. Paul through North Dakota and Montana on their way to the west coast states.

It is believed that while on the Pacific slope, they will visit Seattle, Portland, San Francisco, Los Angeles and several other prominent cities of that section of the country.

WINTER TRIPS.

For winter residence or winter outing ideal conditions will be found on every hand in California. Prolonged early rainfall has this season given to the semi-tropical vegetation wonderful impetus; the floral offerings are more than usually generous and the crop of southern fruits bountiful and excellent.

Old ocean possesses new charms at Santa Barbara, Santa Monica, Long Beach, Coronado and the enchanted isle of the sea, Catalina—where fishing, boating, rambling, riding, hunting and loafing may be enjoyed as nowhere else.

Quiet little spots, snug and warm, offer themselves at Montecito, Nordhoff, Pasadena, Echo Mountain, San Jacinto, Fall Brook and Palm Springs.

For renewing health and vigor, here abound many hot springs, of widely varying constituents and demonstrated merit; the dry, antiseptic, tonic air of the desert may be enjoyed at Banning, In-Ido, Yuma; and, even farther on, at Phoenix, Tucson, El Paso, exists conditions equally well indicated for weak throats and lungs.

Many think nothing in nature more attractive than the shimmering olive orchards of Santa Barbara and San Diego; others prefer the stately waiwais of Ventura and Los Nietos, or the lemons of Fernando; but for glorious fruit and graceful tree commend us to the golden orange, first, last and always, and it exists in greatest perfection at Covina, Riverside, Redlands and High lands. Equally interesting is the scientific and tempting fashion in which the sorting and packing of the orange is here accomplished.

The faithful were exhorted to see Mecca and shuffle off; but wiser generations will see California of the south and prolong life.

Ordinary Fattening Eyesight

Is by some regarded as alarming, by others, treated too carelessly. All eyes begin to fail at 40 years of age; some have trouble a year or two before that time—the majority not until after. From 36 to 45 is the time you should consult a competent optician in order to start right, otherwise several dangers confront you, among which is that terrible disease, glaucoma, which leads to total or partial blindness.

It is estimated that 90 per cent of all cases of glaucoma are due to the "putting off" the use of glasses after failure begins. Scientific examination free by Theodore H. Liebe, optician, next door east of First National Bank on Second street.
