

CANCER Cannot be Cut Out or Removed with Plasters D.R.&N.

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another

—Further proof that Cancer is a disease of the blood. To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mrs. Sarah M. Keeling, of Windsor Ave., Bristol, Tenn., writes: "I am 41 years old, and for three years had suffered with a severe form of Cancer on my jaw, which the doctors in this city said was incurable and that I could not live more than six months. I accepted their statement as true, and had given up all hope of ever being well again, when my druggist, knowing of my condition, recommended S. S. S. After taking a few bottles the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, am enjoying perfect health."

Our medical department is in charge of physicians of long experience, who are especially skilled in treating Cancer and other blood diseases. Write for any advice or information wanted, we make no charge whatever for this service.

The Best Remedy for Rheumatism.

QUICK RELIEF FROM PAIN.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies, but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by Bialley & Houghton.

A Powerfully Gifted Reporter.

There is some body rustling items for the Portland Telegram whose flights of imagination are enough to make Old Man Munchausen turn over in his grave. Last week he—of course it's a he; no women could lie as this fellow Joe—wrote up a most blood-curdling tale of the almost wreck and annihilation of

the steamer Regulator in the Three-Mile rapids. On Saturday evening he told a less blood-curdling, but equally imaginative, story of serious complications pending between the Regulator company and the portage company because of the failure of the boat company to fulfill its contract and land ties needed for the road on the bank of the big eddy. THE CHRONICLE has the word of Manager Alloway for it that there never was any contract of the kind intimated in the Telegram, and consequently no troubles of any kind have grown out of what never had an existence.

As a specimen of mere inaccuracy, where the imagination does not seem to have been working at its best, take the following, clipped almost at random from half a column of alleged news. Speaking of the portage company the writer says:

The new company proposes to build a portage railroad around the big eddy at Cello falls, about eight miles above The Dalles, in order to reach the upper river. Work on this railroad has already been commenced, and the completion of it will be hurried through.

What do you think of the big eddy being located at Cello falls, eight miles above The Dalles?
