# **Knock-Out Drops**

"I am a saloon-keeper, and used to think that rock and rye, or whiskey and quinine were proper remof my acquaintances were of the same opinion. Now I know somethingatleast a thousand times better. It is Acker's English Remedy for Coughs and Colds. A good while ago I began to cough and found out then that rock and rye was no good. I got worse and I was beginning to think that the trouble would run into consumption. I didn't take any stock in patent medicines, but somehow or other I tried Acker's English Remedy. One bottle did the business for

me-knocked that cough out completelyand it has never come back again. There is never a day passes that I don't say a good word about this wonderful medicine. I almost forgot to say that I am stronger and fleshier now, since taking the remedy, than I was before the cough began. I write this letter voluntarily and cheerfully and am glad to do it." (Signed) Chers. Humble, Saloon-keeper, Pocatello, Idaho. Sold at 25c., 50c. and \$1 a bottle, throughout

the United States and Canada; and in England, at 1s. 2d., 2s. 3d., 4s. 6d. If you arenot satisfied after buying, return the bottle to your druggist, and get your money back.

## A PRINCE'S EDUCATION.

The Great-Grandson of Queen Victorin Is Getting to Be a Big Boy Now.

The present idol of the British public is Prince Edward of York, eldest son of prince of Wales, great-grandson of the Queen Victoria, and the heir in direct 50c. size, Ely Brothers, 56 Warren St., N.Y. ine of the crown of Great Britain. Prince Edward, having been born on June 23, 1894, is now well into his sixth year, and regards himself as quite a big boy, says Youth's Companion.

His brother Albert is a year younger.

His brother Albert is a year younger.

His brother Albert is a year younger, and the two princes have had, perhaps, their share, but no more, of brotherly 'scraps." The duke of York is said not to have interfered with their small wars, saying that to "let them fight it out will make them better men." But cash price paid for cast and wrought he has interfered successfully with an- iron, rubber boots and shoes, bicycle other weakness of Prince Edward.

It is customary for the royal children, in meeting the queen, to kiss her hand and not her cheek; but Prince Edward flid not like to do this, and objected strenuously. One day he heard some one speak of "her majesty."

"I know who 'her majesty' is," said he; "it's just granny!"

"And who was the naughty little prince who would not kiss granny's with local applications, as they cannot hand?

unabashed, "and I'm not going to kiss granny's hand!"

But when he had arrived at the age of five he felt himself quite a man, and began to do as other men did-kissed the queen's hand and always doffed his cap in her presence.

## FREIGHT BY TROLLEY.

Utility of the Innovation Is Being Fully Demonstrated at the City of Toledo, Ohio.

The utility of the rural trolley line as a freight road is receiving very full curing Catarrh. Send for testimonials, demonstration at Toledo. The mana- free. gers of a suburban line there have devised a trolley truck on which a loaded farm wagon can be readily placed, the axles of the wagon setting in sockets which hold it firmly in place. The farmers are using this style of transportation when teaming is bad. Recently, on a day when the roads were in very bad shape, one train that reached the city included 87 sacks of clover seed and two wagon loads of basswood lumber.

The farmers sending this shipment lived 15 miles from Toledo and stated that, with the roads in the condition they were then in the seed would they were then in, the seed would have made at least three ordinary wagon loads. This would have been equivalent to 270 miles' travel for one & Falk. driver and two horses. With the trolley service the haulage was accomplished in one hour, at a cost of six dollars per wagon from the shipping point to the delivery point. Such advantages, especially in regions where roads are usually in poor condition. will naturally give an impetus to the construction of rural electric lines. The advantages of shipping the wagons without loading or unloading at either end of the line are obvious.

## THE LOVING CUP.

A Popular Custom of the Present Day That Dates from Anglo-Saxon Times.

Naturally some of the ancient city customs are connected with the art of dining, says Good Words. Gastronomy and the Guildhall are inseparably associated. One of the most curious of these is the passing of the loving cup, which takes place at all the guild dinners as well as at the banquets of the corporation.

The cup is a two-handled one with a lid. While one guest is holding the lid, the next sips the spiced wine; a third, on the other side of the drinker, stands up. Then, the brim, having been wiped by a clean napkin, the cup is passed to the guest holding the lid. He drinks in his turn, while his next neighbor takes charge of the lid. In this way the cup makes the round the best. Ask your grocer for them. of the table.

This custom dates from Anglo-Saxon times. The holding of the lid was not then an act merely of courtesy, for the guest who held it was thus particulars call on or address, prevented from drawing his dagger and stabbing the drinker-a playful after-dinner practice not uncommon in those times. Meanwhile the guest who was standing guarded the drinker from an assault from behind.

English Earn Little.

Statistics just completed by the income tax commission of Great Britain show that out of a total adult population of 12,500,000 more than 10,000,000 earn less than \$860 a year. The income tax is collected at the rate of 16 cents on each \$5 above \$860, and the total tax, which last year amounted to more than \$100,000,000, was contributed by not more than 2,000,000 people.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Baim is such a remedy and will cure catarrh or cold in the head
