Calves are calves these times. A local butcher a short time since paid \$16 each for two that were just four weeks old.

Many of our readers want bargains in colored wash goods, take advantage of Pease & Mays' special sale Friday and Saturday.

The Glendale flouring mill is now shipping flour made out of Klickitat wheat to Manila. The flour is shipped in sacks inclosed in a case of burlap.

A New England paper objects to pies made by machinery. In the days of the civil war the boys drew a decided distinction between pies that were "pegged or sewed."

J. E. Barnett has had a severe attack of the grippe, which confined him to his bed for a week. He was able to be down town today for the first time in two weeks.

C. W. Haight has received from his Cow Canyon ranch twenty-five head of good work horses, which he offers for sale. The animals have been put to pasture on Three Mile.

"As the nation grows older new issues are born of time and progress, and old issues perish." This proposition, strange as it may seem in these times, is from the democratic national platform of 1884.

It is believed that Dr. Berry will be one of the new bishops of the Methodist Episcopal church. Dr. Berry is the editor of the Epworth Herald, which claims the largest circulation of any religious paper in the world.

The returns of registration of voters have not all been received from the county precincts. Judging from the number already received, Deputy Clerk Bolton estimates the total number registered at 3000, or may be a few over.

The river this morning stood at 30.8

feet, having fallen eight-tenths of a foot in twenty-four hours. Yesterday's daily river bulletin says: "The Columbia river below The Dalles will remain on a stand or fall slightly for twenty-four to thirty-six hours, after which it will begin to slowly rise. Above The Dalles the Columbia and the Snake rivers will rise slightly."

Mrs. A. A. Jayne invites the ladies of The Dalles to inspect her stock of ladies' and children's trimmed and sailor hats. Her goods are all new and fresh and they are offered at prices that defy any honorable competition. 17 3t

A quantity of wool, the first of this year's clip, was sold today at Moody's warehouse for 15 cents a pound. This is not bad for a starter, and there is a wide difference between 15 cents and the 6 cents the wool men often could not get in the piping times of democratic wretchedness of four years ago.

The fish wheels near The Dalles are having poor luck these days. Many of them are elevated to save them from destruction by the drift, and the few that are running are hardly catching enough to supply the local retail market. One market man informs The Chronicle that all he could get yesterday was two salmon, and all he could get today was fifty-seven pounds.

The party of fossil hunters from the Berkeley university left today for their hunting grounds in the valley of the John Day. Mr. Furlong, who was injured yesterday by being thrown from a horse, and V. C. Osmond, another of the party, will go by rail to Shaniko and meet the others at that point tomorrow. Judge Davis and his son accompany them, the former as guide, he being well acquainted with the country.

A salmon weighing sixty pounds, minus its adipose fin, was delivered to the Elmore cannery Sunday, says the Astorian. This is evidently one of the salmon turned out by the old hatchery four or five years ago for experimental purposes. Whether or not this particular salmon has ever entered this port before there is, of course, no way of determining, but that he was well enough satisfied to come back to his original haunts after the expiration of five long years seems to be prima facie evidence that he had no particular aversion to this locality.

The local lodge of Artisans is having an interesting friendly contest for new members. The lodge has been divided into two even companies, with Dr. Sanders as the captain of one and Dr. Eshelman captain of the other. The company that brings to the membership the largest number of additions within a given time is to eat an oyster supper at the expense of the other company. At the regular meeting last night Dr. Eshelman's company introduced four new candidates and are ahead by that number. Dr. Sanders, however, is a hustler and his opponents will have to do some lively scratching to beat him.

The locks are not closed to traffic on account of high water, as last night's

Telegram had it. On the contrary the river is falling and a stage of water that will stop traffic through the locks is not anticipated this year. The Regulator still makes daily round trips between The Dalles and the locks, and the Dalles City between the locks and Portland. Freight is transferred in the locks. The Reliance makes a daily round trip for passengers between Portland and the locks, and passengers that leave here on the Regulator at 7 a. m. are transferred to the Reliance and carried to Portland nearly as soon as if they had made the through trip on the Reliance.

THE CHRONICLE has it on good authority that an effort will be made in the near future in favor of early closing. A number of the leading merchants have been conferred with, and all so far have expressed themselves as being favorable to the movement. There is no reason why the ordinary business of the busiest store in town should not be transacted in less than twelve to fourteen hours a day, except the thoughtlessness of customers who make a habit of buying or ordering goods at unreasonable hours. Let the people co-operate with the clerks and make a conscience of never entering a store on business after 6 o'clock in the evening. It can be done with little inconvenience to anybody, and it will help the early closing movement and confer a great favor on a hard-working and deserving lot of men and women. The Dalles merchants will do what is reasonable and right in the matter, but they cannot be expected to close their stores at a reasonable hour if their customers insist they shall be kept open. Now, will the people show their sympathy with the clerks, and from this time forth quit trading after 6 o'clock.

Osteopathy.

Consultation and examination free.

Columbia Southern Warehouse.

At Shaniko the Columbia Southern Railway Co. controls 80x100 feet of the Shaniko warehouse building, to be used as a freight warehouse, through which they will receive and forward freight in the usual manner. The impression that all business must be done through forwarding houses is an erroneous one and we take this means of dispelling it. Freight received and held twenty-four hours will be turned over to a forwarding house subject to the order of the consignee. The rate on wool in sacks or in bales from Shaniko to The Dalles is 25 cents per 100 pounds.
